

## Project

Project	Country	Sector	Partners	
<b>Financing and Accelerating the Sustainable Transition of Cities ("FAST-Cities")</b> Supporting urban authorities on development and rehabilitation of roads, drainage, economic and social infrastructure, schools, health centres, public space, transport, technical landfills, urban renewal, housing and water networks	Türkiye			
<b>Digital Transformation Platform</b> Widening digital connectivity as a means to broaden access to the digital economy for the wider population and enabling the digital transition to better support sustainable economic development				
<b>Resilience Plus' (Municipal, Infrastructure &amp; Industrial Resilience Programme)</b> Accelerating the transition to green, Low-carbon economies by enabling opportunities to integrate sustainability in a broad range of investments (industrial, building, municipal and infrastructure)				
<b>HI-BAR - energy transition and hydrogen financing</b> Supporting the acceleration of investments in the next generation of required climate mitigation measures and business models in the energy and energy-intensive industrial sectors, targeting new climate technologies, critical raw materials, and the rollout of more mature technologies				
<b>Growth For All - Financial Inclusion</b> Encouraging financial intermediaries to direct new lending towards vulnerable businesses, like micro, small and medium-sized businesses affected by crises, and underserved or unserved target groups (women and youth), especially in the 11 earthquake affected provinces				
<b>Risk sharing</b> Supporting SMEs and mid-caps in accessing finance coupled with pre- and post-investment support to raise awareness and enhance the adoption of sustainable business practices in line with environmental, social and governance standards				
<b>Connectivity programme</b> Promoting investments into low-emission energy supply projects, sustainable transport networks, digital connectivity and digitalisation projects, sustainable supply chains, and human development projects				

## Project

Project	Country	Sector	Partners
