2 DESCRIPTION OF THE ACTION PROGRAMME

2.1 SECTORS SELECTED UNDER THIS ACTION PROGRAMME

- Rationale for the selection of the specific sectors under this programme:

With the aim to concentrate IPA II financial assistance for Turkey on key priorities, the proposed annual action programme covers three sectors identified in the Indicative Country Strategy Paper for 2014-2020: democracy and governance; rule of law and fundamental rights; agriculture and rural development.

Following the coup attempt of 15 July 2016, our bilateral contacts with the Turkish government over the past weeks have permitted to reconfirm our joint commitment to continue our intense cooperation on all strands. Turkey is and remains a candidate country and the EU stands ready to support Turkey in coping with the current situation. It is in particular in these challenging times that the rule of law and respect for fundamental rights and freedoms need to prevail. The programme has been reassessed in that context, both in terms of relevance and possible impact on implementation of some of the agreed activities.

Democracy and governance includes a stand-alone action to continue support for the *Jean Monnet Scholarship Programme* which aims to develop Turkey's human resources in EU acquis by granting scholarships for related academic studies in EU Member States. Moreover, the programme includes an action to *co-finance Turkey's participation in Union programmes and agencies*. By investing in people and mobility, a third action also contributes to the Strategy Paper's objective of enhancing civil society dialogue and inter-cultural exchanges between civil societies in Turkey and Europe.

Rule of law and fundamental rights lie at the heart of the enlargement strategy. Related reform needs have also been reflected as a major priority in the Strategy Paper for Turkey, even more in the aftermath of the failed coup attempt. After having programmed support on the aspects of independence and impartiality in previous years, this programme's *Judiciary* action will aim at strengthening aspects of efficiency and administration of the judiciary as well as support to continue reforming the penitentiary system. As regards *Fundamental rights*, this year's action includes activities designed to enhance respect for fundamental rights and protection of vulnerable groups with a specific focus on women's rights, gender equality and Roma integration. In the context of the visa liberalisation dialogue *Home Affairs* continues to be one of the key areas of cooperation between Turkey and the EU, even more so under the EU-Turkey Statement of 18 March 2016. The *Home Affairs* action will support Turkey implement requirements in the fields of migration and asylum, border management and fight against organised crime.

Agriculture and rural development is a key sector in Turkey, both in social and economic terms, employing more than 20 % of the country's labour force. The IPA 2016 action will help bring Turkey into line with EU legislation under negotiation chapters 11 Agriculture and 13 Fisheries and support related improvements in institutional capacity.

The sectors of environment and climate change; transport; competitiveness and innovation; education, employment and social policies have been addressed by multi-annual sector operational programmes with separate financing decisions covering the period 2014-2016.

- *Overview of past and on-going EU, other donors' and/or IPA II beneficiary's actions in the relevant sectors:*

Under IPA 2007-2013 IPA, Turkey has been implementing pre-accession assistance under indirect management, i.e. EU budget implementation tasks have been delegated to the Turkish authorities, with institutions set up specifically for this purpose. The total of this previous IPA assistance amounts to EUR 5.3 billion. Support for institution building – which is also at the core of this action programme – has been mainly provided through annual programming with projects focusing particularly on justice, home affairs and fundamental rights and supporting alignment with the EU acquis in various fields. Under IPA II similar priorities have been agreed under IPA 2014 and IPA 2015 annual action programmes while moving towards an integrated sector approach with a multi-annual planning logic.

Capacity limitations persist for the absorption of funds as reflected in implementation delays and a large contracting backlog for previously programmed actions. Consequently, besides assessments of relevance, particular attention has been given to the maturity of proposals under this programme as well as to the sequencing of interventions. Still, greater ownership by the lead institution for each sector and stronger cooperation among stakeholders will be required in order to improve efficiency and effectiveness. The large-scale dismissals in the administration after the failed coup attempt are a source of concern as regards the sustainability of administrative performance, particularly in the judiciary, which will require continued dialogue and monitoring to mitigate the risk of further regress and delays in the adoption and implementation of key reforms and strategies.

Relatively few international donors provide grant support to Turkey. However, international organisations — such as the Council of Europe, UN Women or the International Organisation for Migration (IOM) — are also active in Turkey, working on aspects such as judicial reform, fundamental rights and migration and border management. These bodies will continue to be involved in the implementation of pre-accession assistance under this annual action programme in their fields of expertise. To avoid overlapping assistance, the Commission systematically consults with and meets Member States' embassies, IFIs and IOs, especially at country level.
