20270698	02/23/2015	Informing procedures not so sufficient for the issues to be supported. Procedures from proposal to implementation a bit complicated, not easy to understand and insufficient informing mechanism. Although I participated in several training programs, seminars, project implementations, proposals I was surprised when the Operational Agreement has been asked for one of our projects, publishing the financial agreement on our project in official gazette. I did not know these procedures. Also timing of one of our project activities was too busy. We would like to be warned on this point and have suggestion. Although to extend the implementation duration, the days of experts and the budget stayed same and this situation caused some difficulties in the implementation phase.

20499765	02/26/2015	Eşleştirme projeleri çok kapsamlı, TAİEX projeleri çok dar ve özellikle teknik konularda eğitim zamanı anlamında yetersiz kalabiliyor. TAİEX projelerinin kapsamının gerekli görülebilecek konularda genişletilebileceğini düşünüyorum. Bu anlamda bir proje başvurusu için 5-10 çalışma ziyareti, uzman talebi vs barındıracak kapsamlı projelere dönüştürülebilir. Böylelikle, 3-4 TAİEX projesi bir eşleştirme projesi kadar olmasa da verimlilik anlamında ona yaklaşmış olabilir.

19509613	02/12/2015	TAIEX etkinliklerinde özellikle süreler çok kısıtlı, studyvisitlerde katılımcı sayısı çok sınırlı ve algı TAIEX 4 kişiyi eğitir onlar da diğerlerini şeklinde oysaki bu şekilde sürdürülebilirlik tam anlamıyla sağlanıyor. TAIEX kurum merkezlerinin bulunduğu yerlerde workshop veya expert mission faaliyeti düzenliyor ancak eğitimi alan yararlanıcı çalıştığı lokasyonda eğitim aldığı için bir şekilde kendi iş ortamından kopamıyor ve konsantrasyon yoğunluğu azalıyor ve eğitim amacının gerçekleşme oranında ciddi kayıp yaşanıyor.

20407273	02/25/2015	Majority of our Officers are not familiar to TAIEX and the reason is lack of strategic approach and lack of English language. For instance, I as a civil servant was not introduced to this instrument until we as a Servis in Ministry didnt look for the information on Internet. Only once we were invited to meeting with representatives from TAIEX which was held in Ministry.
20411222	02/25/2015	I do not see any obstacle to successful TAIEX event implementation. What we would appreciate is that (in addition to our most frequent request for on-the-job training) also study visits to a IP office from the region could be approved (because we could exchange experience and practice and discuss some concrete practical issues.

19526093	02/12/2015	Sve podjednako važno za pojedine teme. Radionice najvažnije kada se educira veći broj sudionika (posebno industrija), ekspertne misije kada se educira manji broj sudionika iz pojedinog uskog područja, a studijske posjete kada je potrebno na licu mjesta vidjeti način rada pojedinih nadležnih tijela
19509613	02/13/2015	Eđitim teorik ve praktik olarak iki aşamalı olmalı. Teorik bir eğitim de uzmanlarca yapılacak eğitim faaliyetiyle gerçekleşmesi en doğru yol diye düşünüyorum. Çalıştaylarda daha çok teorik bilgiyi simule ederek ama ağırlıklı olarak yararlanıcı ülkede bir otelin toplantı salonunda ancak gerçekten uzak gerçekleşmektedir. Adaptasyon ve konsantrasyon gerçekçi olamayabilmektedir. Ancak teorik olarak alınan bilginin konu uzmanı ülkelerde ki enstitülerde yani mahallinde nasıl yapıldığı gözlemlendiğinde örnek alma duygusu ve imrenme hatta bende böyle yapmalıyım hissi motivasyonu artıracaktır. Yararlanıcı motivasyonun yükselmesi eğitimden beklenen amaca ulaşmayı kolaylaştıracak hatta sürdürülebilirliği teşvik edecektir.

19528962	02/13/2015	U Ekspertskim misijama nijesam učestvovala kao članica zemlje korisnika. Radionice i seminare sam organizovala iz zaštite na radu i veoma sam zadovoljna jer smo kao zemlja korisnik odabrali izvanredne eksperte koji su prenijeli iskustva i znanje iz ove oblasti na polaznike multiprofesionalne strukture po oblastima za koje su zaduženi. Studijska posjeta kojoj sam prisustvovala u Londonu a u vezi farmaceutskih proizvoda je bila izuzetno organizovana i profesionalna. Na taj način smo mogli da napravimo paralelu kako u zakonodavnom tako i u praktičnom dijelu .
19529688	02/13/2015	Different topics need different approach.
19529434	02/13/2015	експертските мисии се со најголемо значење од причина што се подетални и наменети за конкретни теми, надминување на одредно точно дефинирано прашање, брз начин на обезбедување на мислење од релевантни експерти на земји членки на ЕУ. Работилници и семинари се значајни бидејќи опфаќаат голем круг на лица учесници, размена на искуства, поврзување меѓу различни профили. Работните посети се значајни поради непосредниот увид и запознавање со начинот на работа, пристап, поставеност и координација во одредена земја членка. Повратниот ефект од истите е мал од причина што мал е бројот на учесници во работните посети.

19533556	02/13/2015	The knowledge and experiences that EU experts shared with us, along with their passion and enthusiasm, contributed immeasurably to the success of TAEIX projects. Their perspective on our topics, certainly added an important dimension to our understanding of the challenges that the Republic of Macedonia faces in the process of integration towards joining the European Union in the future.
19538686	02/13/2015	Knowledge of the operational staff is the key to get change. Bottom up!
19541258	02/13/2015	Ekspertska misija ne pruža dovoljno različitih pogleda. To je znanje i stav jednog eksperta, koji i ne mora da bude. Radionica ponekad prilikom diskusije zna da promijeni pravac željenog. Studijska posjeta je zaokružen ciklus, korisnik dobija više mišljenja i zaokruženu sliku cijelog procesa.

19735378	02/16/2015	Seeing, asking and comparing on site visits are always more effective.
19737095	02/16/2015	Study tours are preferable because: 1. All topics of interest are covered and discussed through professional structured and detailed presentations, 2. Very useful exchange of information and practices are done providing fresh ideas and expertise, 3. The staff are knowledgeable and very cooperative, 4. The length of the study visit are appropriate. 5. Perfect technical support during the study visit.
19742340	02/16/2015	- During the expert missions, experts are far from their systems and they could not bring enough resources with them form practical explanations. - Workshops/seminars are more practical, but the target audience in the Beneficiary is larger, so the experts could not pay much attention to every employee. - Study tours have all the pros from the previous form of cooperation, but the number of visitors is limited to 3 and the experts at the hosting institution have enough time to pay attention to each of the visitors and there is enough time for every visitor to ask his questions.

20009669	02/19/2015	Kroz posjet eksperta ili održanu radionicu bilo je moguće na licu mjesta prikazati konkretni problem i dobiti odgovor. Studijska posjeta je također vrlo dobar način da se na upozna sa funkcioniranjem sustava u drugoj državi članici ali postoji mogućnost za dodatnim pitanjima kada se viđeno pokuša implementirati u državi korisnici studijske misije.

20040482	02/19/2015	Tijekom studijske posjete moguća je najbolja interakcija i dobivanje odgovora na najviše pitanja. Jednako tako kod ekspertne misije, no u tom konkretnom događaju samo je jedn predavač. Kod seminara je lošija interakcija, previše je sudionika i eksperti su često lošijeg znanja za pokrivanje područja

20041458	02/20/2015	Ekspertske misije su dobile ocjenu tri zbog toga što od tih misija najviše koristi su imali oni koji su ih saživali . Radionice su jako dobre ali one su osim o TAIEX predavačima ovisili o zainteresiranosti nacionalnih sudionika navedenih TAIEX radinica. Studijsk putovanja mislimo da su najbolji način učenja i izmjene informacija u smislu implementacija EU aquisa, smislu daljnjih suradnja s posjećenim državama članicama, ali smatramo da bi se trebalo povećati broj sudionika koji bi mogao biti uključen u Study visit.
20042700	02/20/2015	Imao sam prilike biti u studijskog posjeti iz područja dobrobiti životinja u jednoj zemlji članici ali osim tog područja dobio sam mnoga saznanja iz područja hrane što je znatno doprinjelo kvaliteti obavljanja mojih poslova. Radionice u organizaciji TAIEX-a u kojoj sam sudjelovao kao suorganizator su također proširila znanja svih sudionika.

20251227	02/23/2015	Based on a little expereance that I had with TAIEX instruments, qulity of missions and workshops depends on preparation of the beneficiary with the expert and you don't have direct contact with the expert during the preparation. Study visit is pretty much the same, you are dealing with the TAIEX staff which is ok for technicalities, but not with the administration you are about to visit. I think that we should be more precise or better prepared to take the most benefit as possible from this instrument, either as the expert or beneficiary.
20252463	02/23/2015	Çünkü farklı sistemler, mevzuatlar ve usuller görmek ve kendi sistemlerimizle karşılaştırmak ve bu çalışmalarını yapabilmek için yeterli süre ve bilgili insana sahip olmak bu derecelendirmeyi ortaya çıkarmıştır. Додека работниците се прават со многу луѓе и не сегогас може да се праша и тоа доволно долго да се елаборира со оглед на големата бројка на учесници и кратокото време кое се има на располагање.

20941951	03/02/2015	Since Croatia is already EUMS, Croatian institutions need more insight and practical experience and sound knowledge from EUMS implementation and best practice, and study visit is oriented mostly towards implementation. Expert Missions and Workshops are covering mainly presentation of expertise or institutional and legal framework, learning particular knowledges, so they are relevant less than study visits.
20945316	03/02/2015	radionice i ekspertske misije ciljaju veći broj sudionika, studijske posjete su ograničene na 3 sudionika ali daju konkretan uvid u sustav određene institucije, npr. softwarsko rješenje za podnošenje prijava...što je od velike koristi sudionicima

21022810	03/02/2015	The main benefit from realized TAIEX study visits is that laboratory professionals, who participated, became familiar with analyses of vitamins in food, allergens, additives, trace elements, food contact materials, contaminants. Training in some topics such as method validation, measurement uncertainty, and internal control (as requirements of ISO 17025) was also achieved through TAIEX workshops.

21340356	03/05/2015	Nnekada kad smatramo da bi trebali dobiti expert misiju TAIEX nam sugerira d odaberemo radionicu ili studijski posjet što za nas po našem mišljenju nije najbolje rješenje
21396129	03/05/2015	I think expert missions are the least beneficial, because most of the TAIEX missions especially in my field needs a comprehensive and multidisciplinary knowledge which is hard to find in a single expert. However in study visit you might contact many experts during the event because of the availability of the experts. For instance, in one of my study visit at Italy we have contacted with almost 10 experts which is very good not only have different approaches but also have a good networking with the EU experts for the follow up studies.
21370163	03/05/2015	Kurumumuz için çok sayıda kişinin katılımıyla, nispeten daha sunum odaklı bir yapıya sahip çalıştay desteği yerine az sayıda teknik personelin ihtiyaç duyacağı bilgilere daha rahat erişebileceği çalışma gezisi ve uzman görevlerinin daha faydalı olacağını düşünmekteyim.

TAIEX Event Impact Assessment to be completed if you have attended a TAIEX event. This question refers to any event implemented by TAIEX in your country. That includes all activities that have contributed to the development of skills, including for instance advice to senior management.

How would you rate the TAIEX event that you have attended:

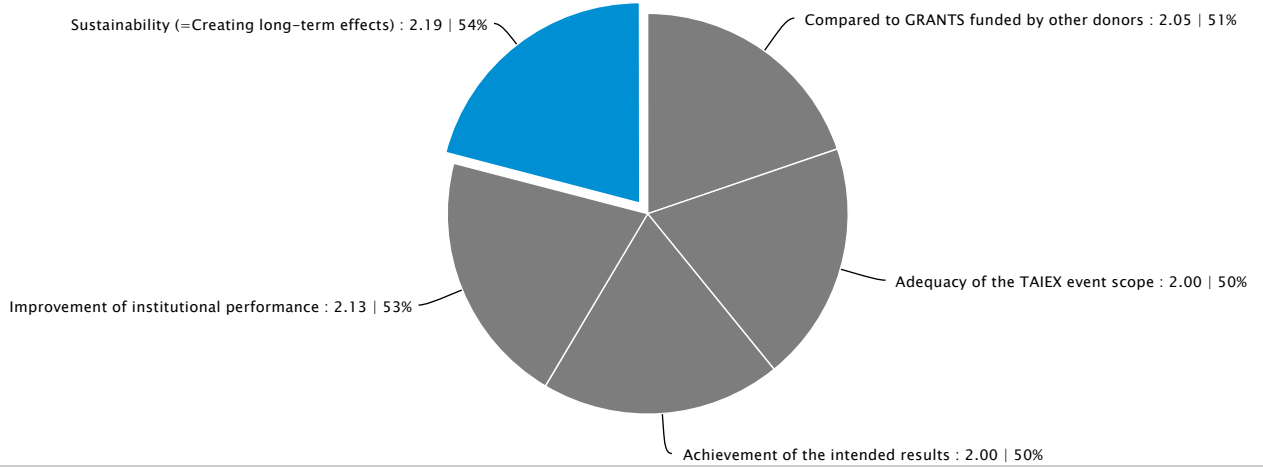

Question	Count	Score	Moderate	A lot	Totally	N/A	A little	Not at all
1. Your behaviour has changed (quality at work has improved)	150	2.57	<input type="text"/>					
2. Your skills have improved	149	2.46	<input type="text"/>					
3. Your knowledge has been enhanced	156	2.05	<input type="text"/>					
<b>Average</b>		<b>2.36</b>						

Generally speaking, if you compare your TAIEX events with other types of EU-funded projects (Twinning, classical Technical Assistance, SIGMA and Budget Support programmes) in the fields of EU Acquis transfer, capacity building and Public Administration Reform: to what extent are you satisfied with TAIEX in regard to the following aspects? Comparison may be based upon quality of expertise delivery, timeliness of delivery, speed for acquiring new skills, responsiveness to needs, quality of follow-up actions, good value for money, usefulness of skills acquired and reforms proposed, etc.

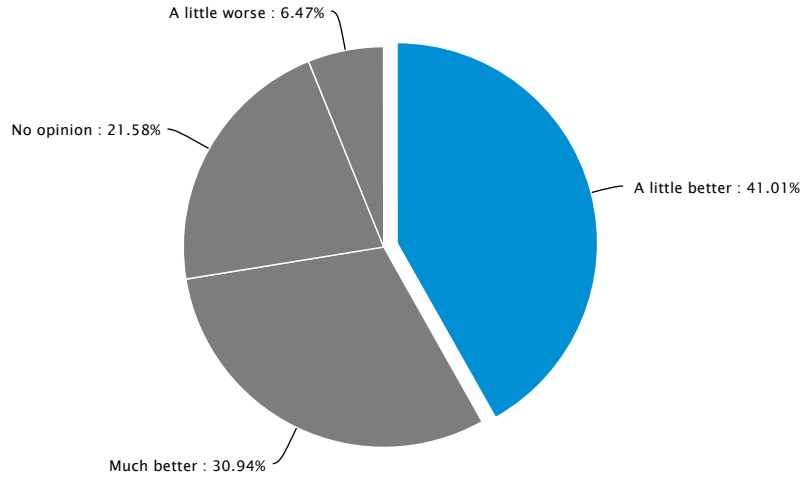

Question	Count	Score	TAIEX is a little better	TAIEX is a little worse	TAIEX is much better	TAIEX is much worse
1. Sustainability (=Creating long-term effects)	109	2.19	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
2. Improvement of institutional performance	109	2.09	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

19509613	02/13/2015	TAIEIX genel anlamda iyi kurgulanmış ve uygulanan bir program. Ancak sınırları genişletilmeli ve izleme faaliyetleri artırılmalı diye düşünüyorum. Diğer destek programları daha yüksek bütçeli ve uzun süreli olabiliyor. TAIEIX bu anlamda kısa sürede maximum faydayı sağlamaya çalışan bir program ve bence sürelerle ilgili yapılacak iyileştirme ile katılımcı sayılarındaki artış ve son olarak yararlanıcı kurumlar ve kişilerle birebir görüşmeler yapılması etkililiği artıracaktır.

20333456	02/24/2015	TAIEX dışında Dünya Bankasının desteklediği ARIP Projesi kapsamında Laboratuvarlarımızın rehabilitasyonuna ilişkin bir proje gerçekleştirdik. Ancak bu projenin bir yatırım projesi olması ve finansman boyutunun olması TAIEX'in faaliyetlerini ise yatırım projelerini kapsamaması ve kısa süreli teknik destek faaliyeti olması nedeniyle aralarında kıyaslamaya esas ölçüler bulunmamaktadır.

20411222	02/25/2015	Our Office (Intellectual Property Office of Montenegro) has excellent experience from using TAIEX support, however please note that this support was targeted to our staff directly. Therefore , I could not fill up the Chapter of this Summary (above) related to contribution to legal acts (laws and by-laws). In fact, there were some indirect influence to drafting and adoption of the IP laws and by-laws, because our staff gained knowledge and skills through TAIEX on-the-job trainings which they used in their work in the Working Groups for drafting such acts.

21482578	03/06/2015	One of the strengths of TAIEX is that people from different countries get together and understand the other's practical situations regarding the topic. This makes officials to what extend they have to increase their capacity and what to do more in that field. This also makes the officials understand the other's organisational cultures.

19537378	02/13/2015	TAIEX instrument je najlakši iz perspektive korisnika u smislu prijave i brzine implementacije traženih radionica. Lako se kontrolira i pruža konkretne i mjerljive rezultata.

20499765	02/26/2015	Teoride çok faydalı olabilecek bir mekanizma ancak uygulamada 3 günlük çalışmalar o kadar da faydalı olamıyor. Müktesebat özellikle teknik konularda ise anlaşılması zor, hatta imkansız. Özellikle müzakereye açık olmayan fasıllarla ilgili konularda eşleştirme de yapamıyor olduğundan, TAIEX çok kullanışlı bir araç olmaktan çıkıyor. Proje başına süreler ve kullanım sayısı artırılmalı.

		Европските референтни лаборатории не секогаш се подготвени да прифатат работна посета и се чини недоволно информирани за апаратот TAIEX.

21022810	03/02/2015	Continuous education and training of the laboratory professionals are requirements laid down in the ISO/EN 17025 standard and the national legislation on food safety. Harmonization of analytical procedures is necessary to ensure the quality and comparability of the analytical results obtained in the laboratories in the Institute of Public Health of the Republic of Macedonia. Furthermore, determination of the common criteria for the interpretation of test results is required to ensure implementation of Commission Regulation (EC) No. 882/2004. This objective could be reached by establishing methods that have been validated according to common procedures.

21114933	03/03/2015	TAIEX requests 2-3 months for the preparation of logistics after submitting the request and its approval. Sometimes this period might be too long to wait for as national authorities might need TAIEX workshop faster for their own reasons. In the countries where numerous facilities to organize workshop logistics are in place and could be easily selected, 6 weeks for organizing the event (meeting venue, catering and resource persons) should be enough. It is important to note that no reports from resource persons/experts who made presentations on any of the TAIEX workshops we had in Croatia, have not been shared with the competent national authorities that requested the assistance from TAIEX.

As far as you know, what is/are the major obstacle(s) to successful TAIEX event implementation? - [Text Data for If other, could you please specify:]

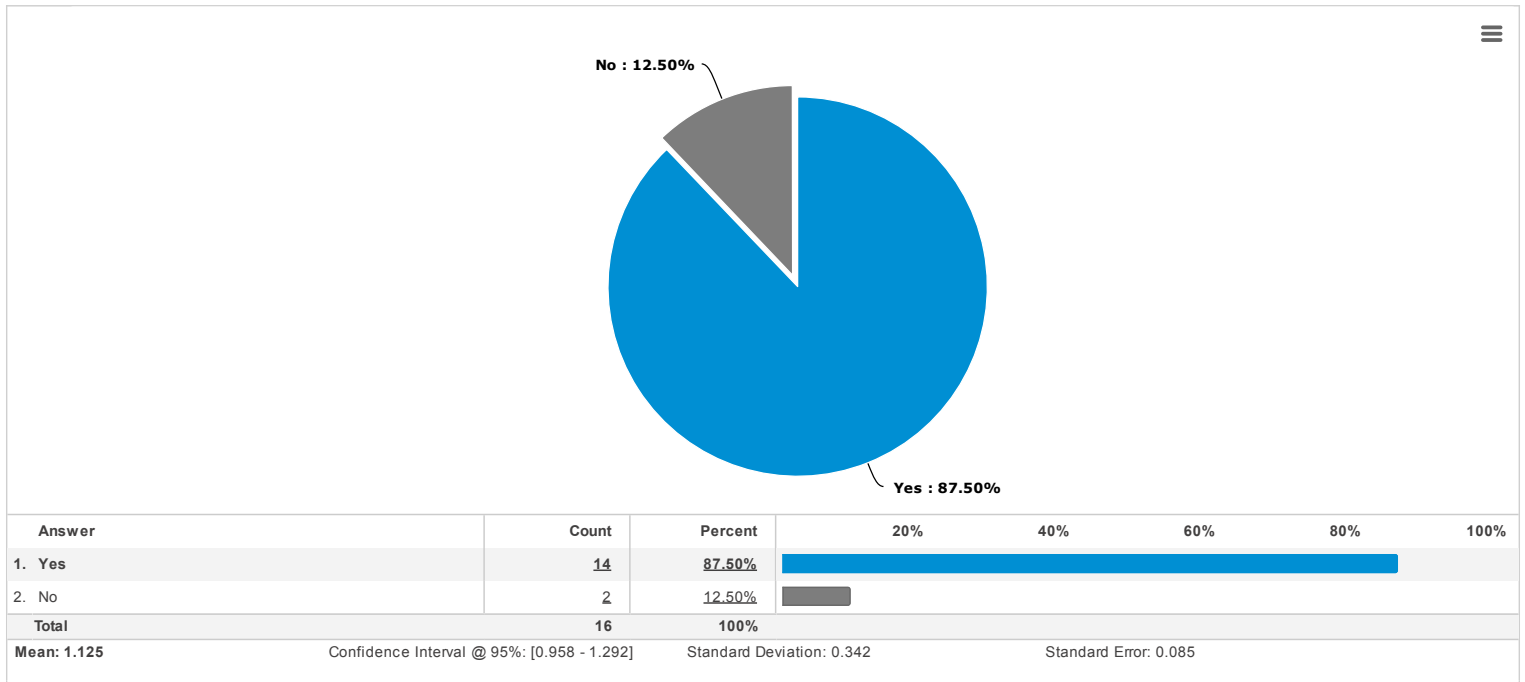

19539995	02/13/2015	Lack of involvement of Delegation in the preparation of events.
19883178	02/18/2015	Poor expertise of the selected expert
19986205	02/19/2015	personnel and time capacities, security risks
21105917	03/03/2015	TAIEX compensation (expert fee, host fee) is too small, which makes it very difficult to find both experts willing to attend events and host organizations that would host a study visit. Especially the this is an issue with host organizations, the 250€/day does not cover the costs of a study visit. With a higher compensation the institutions and ministries would be more willing to act as hosts.

21072635	03/09/2015	TAIEX'in en önemli özelliği esnek ve basit olmasıdır. Ancak buna rağmen bazen ülke büyüklükleri göz önünde bulundurulmuyor. Yararlanıcı kurumların belirli bir faaliyete katılımcı sayısını artırma talepleri "TAIEX Kuralları" gerekeceği gösterilip reddedilebiliyor. Bu konuda ülkenin büyüklüğü de göz önünde bulundurularak esnek davranılabilir.

19483907 | 02/12/2015 | TAIEX is an effective instrument as it is not loaded with bureaucracy, therefore with your questions I am afraid that you will destroy the flexibility of the instrument

Via which of the following do you ensure sustainability of TAIEX results (you may tick one or more boxes):

Please comment on strengths and weaknesses of TAIEX compared to other donors / providers of technical assistance support (incl. institutional capacity building, Public Administration Reform (PAR) and EU Acquis transfer):

19318973	02/10/2015	
19483907	02/12/2015	EU procedures are well known for their bureaucracy. Taiex is very effective because it is flexible and adapted to the changing need of the beneficiary. So please make it even simpler to use and not too difficult
19485649	02/12/2015	
19485795	02/12/2015	
19530206	02/13/2015	
19539995	02/13/2015	Strong point: TAIEX is quick and to the point Weak point: Non-sustain
19737761	02/16/2015	+ : TAIEX is fast, short and effective - : maybe the coordination should be more transparent
19883178	02/18/2015	Very useful tool, tailor-made assistance for fast reaction and addressing the needs of the beneficiary; More attention could be paid to the preparation of the events i.e drafting of the agenda (possible involvement of the EU Delegation in selection/finalisation of the topics); Workshops could be eventually better structured; avoid too general topics; better coordination between TAIEX case-handler, beneficiary institution and the proposed TAIEX expert during the early phase of the preparation of the event,; sharing of the all relevant documents including previous reports of the similar events organised in the sector

19981754	02/19/2015	
20060601	02/20/2015	TAIEX STRENGTHT: short-term assistane, tailor-made, fast delivered technical assisance, simply to submit request
20045890	02/20/2015	TAIEX is highly centralised and sometimes do not reflect the necessary needs of the Beneficiary. It should definitely be accompanied with more structured TA such as Twinning and Sigma.
20340726	02/24/2015	
19967148	02/25/2015	Quick tailor made assistance
20407269	02/25/2015	For the IPA beneficiary countries it is of utmost importance to receive the adequate technical assistance support in order to quickly fulfill the necessary EU requirements regarding the EU Acquis. For years, TAIEX proves to be that very instrument that provides quick support and feedback in relate to EU Acquis. On top of that, TAIEX covers the cost of all the events and participants, which in these days is rare.

Please comment on strengths and weaknesses of TAIEX compared to other type of EU assistance:

19318973	02/10/2015	The biggest strength of TAIEX is that since assistance is demand-driven it is very focused and to the point. A weakness in my view is the sustainability of results as very often the results are only related to increase of knowledge of the beneficiary administration on a certain topic.
19483907	02/12/2015	Strengths of TAIEX adapted to the need of the Beneficiary, quickly implemented (compared to other instrument)
19485649	02/12/2015

20045890	02/20/2015	Turkish Cypriot community can only benefit from TAIEX instrument. This instrument is thus not enough on its own to prepare a country ready to implement the EU acquis.
20340726	02/24/2015	
19967148	02/25/2015	Quicker than Twinning while keeping most of the Advantages of Twinning
20407269	02/25/2015	Very efficient instrument in providing the quick necessary technical assistance to the potential beneficiaries. On the other hand, there seems to be inconsistency on the level of details in the application forms in order to be approved. TAIEX

# **Evaluation of TAIEX Instrument DG NEAR**

Contract N°2014/346665/1

FWC COM 2011 - Lot 1

Studies and Technical Assistance in all Sectors

A project funded by the European Union and implemented by AETS

## OBJECTIVES

- **Global objective:** to provide the Contracting Authority with relevant findings and conclusions showing the overall relevance of TAIEX, its contribution to the achievement of objectives set out, as well as recommendations to enhance the TAIEX's efficiency and effectiveness.
- **Specific objective:** Assessment of the relevance, value added and cost effectiveness of TAIEX assistance.
- **SWOT Analysis** of the TAIEX instrument.

# METHODOLOGY

Key data collection methods used:

- **Comprehensive desk review** of available documentation and literature linked to TAIEX assistance.
- **Face-to-Face interviews** with the relevant units of nine thematic line European Commission Directorate Generals (DG) in Brussels.
- **Telephone interviews** with line beneficiaries in the four selected IPA countries and four European Union Member State (EUMS) National Contact Points (NCPs).
- **Two comprehensive e-Surveys:** 1) with line beneficiaries in the 4 IPA countries, 2) with European Commission's 9 relevant thematic line DGs and 28 EUMS NCPs.

# RELEVANCE

- Relevance is particularly high.
  - Support to pre-accession process (approximation, application and enforcement of the EU *acquis*).
  - TAIEX reflects needs of BAs for capacity building and technical assistance in different areas of *acquis*.
  - Quick response and way to address arising needs of BAs, with best expertise and experiences from the EUMS.
- The broad, system-focused design of the TAIEX assistance is ***appropriate*** (needs and priorities of the BAs).

# EFFECTIVENESS

- TAIEX contributions to envisaged reforms are almost exclusively positive.
- TAIEX has delivered useful results in beneficiary countries:
  - support through informed strategies, improved legislation, enhanced institutional capacity, modernisation of practices and new models of work, but also behavioural change.
- Evidence of contributions of TAIEX in the progression towards envisaged reform outcomes in different sectors.
- Opportunity for BAs to establish networks, working relations and durable partnerships with EU MS colleagues.

# EFFECTIVENESS – cont.

## **Obstacles to the effectiveness of TAIEX events**

- Language as a barrier .
- Lack of absorption capacity of the line beneficiary (over 15% of respondents).
- Lack of political or institutional commitment (19.8%).
- Lack of preparation or resistance to change (13.5%).

## **Complementarity/coherence with other donor and EU-funded programmes and instruments**

- The instrument is complementary to other interventions.
- Mechanisms to ensure minimisation of overlaps.

# EFFICIENCY

- TAIEX management arrangements are in place for an effective implementation of activities.
- Cost-effectiveness of TAIEX is very difficult to assess
- Support to legislation development, learning about new modalities of work and introducing new quality standards: cost-effective, value at low costs.
- Study visits bring value for money.

# EFFICIENCY – cont.

- Readily available monitoring data on various perspectives of TAIEX assistance.
- Continuous improvement of the IT system.
- TAIEX contracting process remains too long for the sometimes rapidly-evolving beneficiary needs in a transition country environment.
- Concerns exist with the logistics.
- TAIEX Management System's operation almost entirely positive.
- Communication is considered adequate.
- Application process is functional to large extent.
- The duration (five days maximum) is generally sufficient and it is in line with the purpose of TAIEX technical assistance.

# EFFICIENCY - cont.

## Appropriateness of the TAIEX Instrument to Needs (from an implementation perspective)

- Management structures and approaches used by TAIEX are appropriate.
- Each type of event has its specific use at a specific stage of the development/reform process.
  - **Expert missions** and workshops useful for legislation/policy development.
  - **Workshops** are suitable to clarify general topics to a broader audience.
  - **Study visits** useful for implementation of new mechanisms or models brought in by the legislation/policies.
- Value and purpose of study visits is understated/underestimated.

# EFFICIENCY - cont.

## Reporting

- Experts' reporting- area for improvement

## Communication and Visibility activities

- TAIEX assistance contributing to enhancing the visibility of EU funding among public institutions.
- TAIEX increasingly popular and visible instrument, filling in the gaps.

# IMPACT

- The effects of TAIEX can be best considered in conjunction with other forms of EU assistance
- No information available on the extent to which achievements made to date – via TAIEX - have influenced, or will influence changes on reforms within the EU accession process are yielding results.
- Important contributions in view of influencing the enabling environments for such changes in the country
  - improved legislation and better informed strategies.
  - a more functional institutional framework.
  - strengthened capacities to deliver the strategic priorities in various segments of EU accession.
  - overall modernisation of public administration.
  - positively affecting country administrations by helping them to become more professional and client oriented.
  - institutional changes and corporate culture.

# SUSTAINABILITY

- Adopted legislation and new mechanisms.
- TAIEX instrumental to supporting BAs to adequately implement these new mechanisms.
- Administrative and organisational structures in place.
- Needs-based activities bringing sustainable results with them .
- Outcomes of TAIEX assistance will continue to produce constructive effects after the end of EU funding.
- Administrative cultures have evolved and sustainable behavioural change has occurred.
- Networking and improved know-how of public servants.
- Hindering factors for sustainability:
  - high staff and low language capacities.
  - Sustainability depends on development policy of national institutions and on their administrative and financial capacities.

# SWOT ANALYSIS

## Strengths:

- Relevance.
- Participatory approach to programming.
- Expertise.
- Mobilisation.
- Synergy.
- Flexible implementation framework.

## Weaknesses :

- Fragmentation of support.

## Opportunities :

- Sequencing of TAIEX assistance.
- Knowledge management and learning.
- Complementarity .

## Threats:

- Deteriorating situation in individual countries or in the region.
- The late communication of logistical arrangements to the participants.

# RECOMMENDATIONS

No	Recommendation	Addressee	Timing
<b>Strategic (S)</b>			
S1	<b>Enhance ownership of BAs over TAIEX instrument through encouraging their leadership in prioritisation of TAIEX assistance, preparation of requests and selection of implementing partners/experts</b>	Governments, with the assistance of EUD and TAIEX management	2015-2016
<b>Programming, delivery and co-ordination of the instrument (P)</b>
