2 DESCRIPTION OF THE ACTION PROGRAMME

2.1 SECTORS SELECTED UNDER THIS ACTION PROGRAMME

- Rationale for the selection of the specific sectors under this programme:

Two sectors - *democracy and governance* and *education, employment and social policies*,- have been selected for support under this programme. The selection has been made on the grounds of:

- The need to concentrate significant financial assistance on a limited number of key priorities, thus improving the dynamics of changes in the selected sectors and strengthening the impact of the Instrument for Pre-Accession Assistance (IPA II) funds on the relevant reforms.

- The relevance with the key fundamentals outlined in the Enlargement Strategy⁹ and the continued commitment of the Commission to the public administration reform in support of meeting the Copenhagen and Madrid membership criteria.

- The strategic planning, presented in the Indicative Strategy Paper¹⁰ (ISP), which allocates 8% of all EU funds to the sector of education, employment and social policies. So far this sector has not benefited of EU funds under IPA II. The ISP also identifies some recurrent priorities such as the participation in the Union programmes.

- The maturity in the implementation of the sector approach, where both sectors have been identified as well advancing, having set clear strategic objectives and disposing of an acceptable administrative capacity to back up the implementation of the IPA actions.

- Overview of past and on-going EU, other donors' and/or IPA II beneficiary's actions in the relevant sectors:

  The country benefits from IPA and other donors support in the selected sectors since 2007. Yet, the reforms in these sectors require a long-term approach, based on clear political commitment. The previous experience outlines some important aspects that have to be considered.

- Political turbulences have affected the efficiency of the public administration and further on, the implementation of the IPA assistance. The continuation of the sector reforms and the extension of the high-level dialogue is a pre-requisite for successful implementation of the EU funds.

- The national authorities need to demonstrate strengthened commitment to achieving the expected results independently of the implementation modality. While the EU Delegation may act as contracting authority, achieving the outcomes and impact of the actions remains primarily a responsibility of the national authorities. Hence, ownership

---

must be strengthened and the efforts for improving the beneficiaries’ performance uphold.

- There is a need for greater transparency and information sharing with civil society and non-state stakeholders to ensure that sector policy priorities enjoy large societal support. To enhance this process, the actions have been subject to public consultations. Further, the implementation process not only envisages a stronger coordination with civil society organisations, but also their participation in meeting the action objectives, in particular through the opening of the planned grant schemes for participation of the civil society actors. The development of a new administrative culture of cooperation with civil society and non-state actors need to be strongly encouraged, also through enhanced participation of civil society organisations (CSOs) in sector working groups.

- Further efforts will be needed to strengthen the coordination among all stakeholders to ensure an efficient framework for sector support. Lack of stakeholder consultation and coordination mechanisms has been recognised as one of the weaknesses of implementing the sector wide approach in the country. A comprehensive stakeholder coordination platform is being developed, but needs to be further strengthened.

(1) **Description of the Action, objective, expected results and key performance indicators**

The Country Strategy Paper stipulates that financial assistance can be provided through co-financing the country’s participation in relevant Union Programmes and Agencies. The objective of this action is to ensure participation of the former Yugoslav Republic of Macedonia in Union Programmes by co-financing the costs of the entry-tickets/participation fees for selected Union Programmes in areas such as education, culture, civil protection, private sector developments, labour market and employment, taxation, research and technological development (RTD). Thus IPA will facilitate the progressive transfer of know-how and the strengthening of capacities of the relevant administrative bodies benefiting from the participation in Union Programmes and Agencies.

The following results are foreseen:

- Enhanced participation of the former Yugoslav Republic of Macedonia in Union Programmes;
- Increased exchanges with EU Member States;
- Strengthened ownership and responsibility (including in financial terms) for participation in Union Programmes;
- Improved awareness in the country on the Union Programmes.

The achievement of the results will be measured through the following indicators:

- Increasing No of projects prepared and funded involving country participation;
- Ratio between the value of the entry ticket and the value of the projects in which the country participates;
- Number of beneficiaries involved in international projects;
- Number of promotion events and measures.

The Union Programmes (2014-2020) shall be gradually open for the participation of the Western Balkan countries. The beneficiary country has expressed its interest in participating in 13 programmes; however the current action programme will only cover the participation in 11 of them as follows:

2. COSME (Programme for competitiveness of enterprises and SMEs)
3. Europe for Citizens

5. Media (Creative Europe)
6. Customs
7. Fiscalis
8. Civil Protection Mechanism
9. Erasmus plus
10. Programme for Employment and Social Innovation (EaSI) Progress strand
11. Erasmus plus external strand

Participation in other Union Programmes will be determined at a later stage or has been settled down through other country programmes.

The participation of the former Yugoslav Republic of Macedonia in Union Programmes shall follow the specific terms and conditions set out in the International Agreement between the European Commission and the country for each programme, in accordance with the agreements establishing the general principles for participation in Union Programmes.

(2) Assumptions and conditions

EU integration remains a government priority, which entails a continuous political commitment to EU accession and provision of sufficient resources to ensure the national co-financing of the country's participation in the Union programmes.

(3) Implementation arrangements for the action:

Indirect management with the beneficiary country

(3)(a) Entity entrusted with budget implementation tasks
National Fund, Ministry of Finance

(3)(b) Short description of the tasks entrusted to the entity

(1) Description of the Action, objective, expected results and key performance indicators

The overall objective of the action is to contribute to a more effective EU integration process. This action replenishes the EU Integration facility (EUIF), created in 2014 as a long-term, flexible, on-going funding mechanism, providing ad hoc support for smaller-scale projects of democratic institutions and public administration bodies.

The specific objectives of the EUIF are:

1) To strengthen the capacities of the democratic institutions and public bodies to assume the obligations stemming from the democratic process and the EU accession process;
2) To enhance the alignment with the EU acquis and enforce the adopted laws;
3) To improve the management of the EU funds and strengthen the sector approach.

The key performance indicators for the EUIF include:
- Number of Urgent Reform Priorities addressed;
