Multi-Annual Indicative Planning Document 2007-2009; chapter 2.2.3. European Standards, Internal Market, Single Economic Space:

Results to be achieved by the end of the first IPA programming cycle (2009):
The institutional set-up of the Central Bank of BiH will be improved through implementation of the assistance programme to the Central Bank of BiH.

2.5 Link with National Development Plan (where applicable)
Within the BiH Mid-term Development Strategy, one of the priorities is to maintain macroeconomic stability, by ensuring low level of inflation through continued actions of the Currency Board. (The Central Bank of Bosnia and Herzegovina)

EU Integration Strategy of BiH also supports the CBBH European direction.

2.6 Link with national/sectoral investment plans(where applicable)
This activity has also been incorporated into the CBBH Management Strategic Plan.

3. Description of project

3.1 Background and justification:
The Central Bank of Bosnia and Herzegovina (CBBH) began operations in 1997 under a Currency Board arrangement. The CBBH is a state-level institution with the sole responsibility for monetary policy in the country. The key aspect of the Central Bank operations is the independence of the Central Bank ensured through the Central Bank Law. The Central Bank has maintained its independence and has successfully conducted its main task of preserving the stability of the domestic currency.

The Central Bank of Bosnia and Herzegovina plans to develop and improve its operations in accordance with the strategy of the CBBH management to move closer to European Central banking standards. In respect to this long term strategy one of the most important goals of the Central Bank of Bosnia and Herzegovina, as set by its Management, is the development of the CBBH's human capital. The CBBH believes that only with competent staff, will the CBBH be able to successfully implement the challenging tasks that lay ahead.

With the goal of establishing a modern system of human resource management in the CBBH in accordance with European standards and internationally recognized best practices, the Central Bank established a new Department for Human Resource Management (DoHRM). The DoHRM started its operations on January 1, 2007 and is responsible for all personnel issues of the 296 CBBH employees.

The new department has two sections: Section for methods of human resource management and Section for professional education and training.

The scope of work of those Sections as planned should include: activities related to personnel (employment, wages, compensations, working conditions), contracts, developing procedures, and flow charts of activities in the human resource, developing the job descriptions and systematization of job positions and reviewing, defining human resources annual plan, monitoring implementation of the plan and reporting on the implementation.
Section for professional education and training as it is planned is responsible for education and training, maintaining records, designing a career development strategy, development of a strategic planning for education and training.

The DoHRM should also develop a system of analytical and statistical reporting, data base, set up a process of employee evaluation, program orientation for new employees, improve and develop the operations of the human resource management and coordinate those activities with other departments within the CBBH.

3.2 Assessment of project impact, catalytic effect, sustainability and cross border impact (where applicable)
This activity will ensure that the staff within the human resource management are capable of conducting their tasks and responsibilities in support of the development of the human capital of the CBBH. This will resound in other departments of the CBBH, ensuring that qualified staff are attracted and are trained to meet the particular needs of each department. This activity will also develop procedures to ensure that transparent and efficient systems are in place for the processing of all personnel issues.

3.3 Results and measurable indicators:
Result 1. Medium-term staff development plan prepared and HR Department staff trained to be capable to develop plans as recommended.
Result 2. Efficient procedures recommended
Result 3. Comprehensive inputs and outputs of the HR data base prepared and recommended
Result 4. Human Resource manuals updated
Result 5. Need assessment of the future needs in the HR in line with the best practice of a central bank, member of the European System of Central Banks.

Measurable indicators:
- Revised HR Manuals prepared
- A list of input and output in data base
- New, reviewed procedures prepared
- Plan prepared and training concluded
- Need Assessment Document Prepared

3.4 Activities:
1. Preparation and implementation of HR staff development and training strategies and plans
2. Process mapping and revision to selected procedures
3. Upgrading and revision of HR data bases
4. Updating of HR manuals
5. Alignment of CBBH HR department operations and practices with best practices of a central bank (member of the European Systems of Central Banks)

The planned activities will be executed through the Twinning Light contract (Contract 1).

3.5 Conditionality and sequencing:
All conditions have been filled. CBBH management and Governing Board agreed to start strengthening and modernizing the Human Resource management of the CBBH by establishing a new Department for HRM on January 1, 2007. This Department has been established and has 7 employees. All other steps in line with this decision are within the sole
competence of the CBBH and internal procedures made by the Management and the Governing Board of the CBBH

3.6 Linked activities
The European Central Bank and Member State National Banks of the Eurosystem as part of a CARDS 2006 funded project will conduct an assessment of the policies and procedures of the CBBH and benchmark them against those of a Member State National Bank. This assessment will be implemented from March –August 2007 and will produce a final report identifying the gaps of the CBBH policies and practice. This assessment will not review the Human Resource Management department.

3.7 Lessons learned
A previous project implemented by EUBAS supported staff development and was directed to education in banking for CBBH staff. Within this project there was a proposal for introduction of staff evaluations. However the evaluations were not properly developed and staff was not trained on how to conduct an evaluation and how to use the results of the evaluation. Therefore, it was never fully implemented and currently staff evaluations are not completed in the CBBH.

Given the experiences of this project, measures will be undertaken in the proposed IPA activity to ensure that staff is trained on how to undertake their tasks, thereby ensuring the sustainability of the results to be achieved.
