Project

Project	Country	Sector	Partners
Rural Development Programme under the Instrument for Pre-Accession Assistance 2014-2020 (IPARD II) Supporting rural areas and agri-food sectors to promote a gradual alignment with EU rules	Albania		
State and Resilience Building Contract Enhancing policy measures aimed at mitigating the socio-economic impact of the energy crises on SMEs and households			
Computer labs Establishing 654 computer labs in 615 primary and secondary school to enhance the computer programming skills for young students			
Digital economy and society Improving digitalization in the health and education sectors, enhancing the fight against corruption and enhancing cybersecurity capacity and supporting better digital connectivity through modern infrastructure			
EU for local governance Improving the quality, coverage or access to the infrastructure and service of the local governments, strengthening political dialogue among local and central government, and strengthening accountability and transparency			
EU for food safety Supporting Albanian institutions in aligning and implementing EU legislation and best practices in the area of food safety, veterinary and phytosanitary policy through improving physical infrastructure and administrative capacities			
Fierza hydro power plant Rehabilitating Albania's second-largest hydropower plant, extending its lifespan by at least 30 years			
Vau i Dejës floating solar photovoltaic power plant The first medium-scale floating solar photovoltaic power plant in the Western Balkans on a hydroelectric reservoir			
Belshi solar photovoltaic power plant Construction of a 50 MW solar photovoltaic power plant expected to produce the equivalent of the energy demand of 16 100 households			
Operational programme on energy Supporting the use of renewable energy and energy efficiency in buildings, encouraging the use of electric vehicles and investing in environmental protection in the water sector			
UKT Water distribution Improving the water distribution system in Tirana to achieve a continuous and high-quality potable water supply			
EU for Nature Supporting science-based decision-making on nature conservation			

* WBIF Bilateral Donors

Project	Country	Sector	Partners
EU for Water Maintaining and improving the quality of water bodies to align with the EU's environmental legislation	Albania 		
EU for Circular Economy and Green Growth (EU4CE) Protecting the environment and developing inclusive and gender responsive circular economy and sustainable green growth			
EU for Forests Improving the administrative capacities and the legal framework of the forestry sector and increasing the forest coverage and carbon sink capacities			
EU for Youth Supporting the participation and empowerment of youth in the political, economic and social life of Albania			
EU for Innovation – Phase II Supporting a green and digital innovation-driven and knowledge-based economy to create jobs and increase competitiveness			
EU4Schools Reconstructing and rehabilitating schools damaged by the earthquake in 2019, with the strong participation of the citizens			
EU for Youth employment Improving employment and employability of young people and improving access to Vocational Education and Training (VET) programmes			
EU for Employment and Social inclusion Providing support towards advancing labour market policies and social welfare reforms that foster equal opportunities, decent work and the wellbeing of the population, by enhancing the governance systems and delivery instruments for better jobs and employability and improving social protection measures			
Vorë - Hani i Hotit railway Modernisation of 120 km of railway line Vorë - Hani i Hotit (border with Montenegro), as part of the extension of the TEN-T Core Network			  
Blue Highway: Tirana bypass Constructing a 21.5 km-long bypass linking the Tirana – Durrës motorway (at Kashar) to the Tirana - Elbasan motorway (at Mullet) as part of the Adriatic-Ionian Highway			  
Corridor VIII: Durrës – Rogozhinë Railway Section Modernisation and electrification of 33.5 km railway line		  	
Green transport in Tirana Supporting Tirana's first electric bus rapid transport system with electric-battery buses		  	

Project

Project	Country	Sector	Partners
EU4PAR – EU for Public Administration Reform Supporting the Public Administration Reform Coordinator's Office in key areas, providing policy advice, enabling skills and capacity building of civil servants	Bosnia and Herzegovina		
EU4PFM – EU for Public Finance Management Improving the public financial management focusing on strengthened revenue mobilization and improved business environment			
Čapljina pump storage hydropower plant Rehabilitation and modernisation of the 220 MW pump storage hydropower plant in Čapljina with an expected 20% increased production of 575 GWh per year			  
Poklečani Wind Farm Construction of a 132 MW wind farm, expected to produce 436 GWh per year in the Municipality of Posusje			   
EU4Energy Implementing energy efficiency programmes in the public sector and promoting sustainable energy transition in local communities			
Vlašić Wind Power Plant Construction of a 50 MW wind farm, expected to produce 112 GWh per year			   
State and Resilience Building Contract Enhancing policy measures aimed at mitigating the socio-economic impact of the energy crises on SMEs and households			
Banja Luka Medical Complex Rehabilitating and extending University Clinical Centre of the Republika Srpska including construction of the new Medical Campus			  
Improving social and educational institutions Strengthening infrastructural capacities of educational institutions, centres for social work and other institutions of social protection, improving IT capacities of relevant governmental institutions			 
Strengthening social services delivery Supporting vulnerable groups affected by the COVID-19 pandemic through strengthening of the systems of social services, both institutional and non-institutional			
Improving social protection Strengthening capacities of the Centres for Social Work, providing an integrated model of social protection at local level, improving monitoring of social and child protection and inclusion of the Roma population			
EU4People Improving employability and skills enhancement, especially for vulnerable individuals and ethnic minorities, and further developing the social protection system			
Support to Youth Employment Improving the employment of young people and the smooth transition from school to work			

Project	Country	Sector	Partners	
Harnessing culture and creativity for sustainable development Encouraging and exploiting economic opportunities of culture by supporting the Museum of Contemporary Art of Republika Srpska Creative Hub for Young Creatives, Centre for Cultural and Creative Industries Development in Banja Luka, Museum of Contemporary arts ARS AEVI in Sarajevo, Sarajevo Holocaust Museum and Mujaga Komadina house in Mostar	Bosnia and Herzegovina			
Regional sanitary landfill Building a compliant solid waste landfill, including facilities for waste separation and recycling yard to serve three municipalities in Tuzla Canton - Zivinice, Banovici and Kladanj			    (*)	
Reconstruction of Sarajevo's Water Supply Network Reducing water losses by replacing and rehabilitating ageing pipelines, pumping stations and wells, adding or improving about 4 000 new household connections			   (*)	
Water and Sanitation in Republika Srpska – Phase II Rehabilitating 284 km of water supply pipelines serving 147 000 people, providing access to the supply network for additional 34 150 people and connecting 4 000 people to the sewerage network			  	
EU4Green Economy Improving effectiveness and transparency of the energy transition, increasing livelihoods, increasing public and private investments and enhancing circular transition of small and medium enterprises		 		
EU Integration Facility Identifying and addressing needs of the country in the European integration process and ensuring policy dialogue		  		
EU4 Animal disease control Implementing animal disease control measures, as an important part of preservation of livestock production, through vaccinations against animal diseases				
EU4 Private Sector Development Mitigating economic effects of the COVID-19 pandemic in the private sector and fostering long-term economic recovery				
Rhine-Danube Corridor: Demining Sava river bank Demining 40 km of the right bank of the river Sava				  
Road Corridor Vc Supporting more than 212 km of motorways, including tunnels and a cross-border bridge with Croatia				  
Sarajevo urban transport project Reconstructing, modernising and extending the tram line in Sarajevo by purchasing new trolley buses and trams and building new tram lines				 
EU4Transport Enhancing development of the transport sector, providing fast and efficient transit of traffic, savings in travel time and operating costs and mitigation of environmental and social impact				
Reconstruction and Modernisation of the River Port of Brčko - Phase I Construction and arrangement of the port plateau, installation of a new crane, reconstruction of the access road and the railway to Brčko Novo railway station

Project	Country	Sector	Partners
EU for Trade and Internal Market Improving production processes and increasing compliance, quality and safety to make them competitive and available to internal and EU markets	Kosovo*		
EU for Better Municipal Governance Improving performance of municipalities in governance, management and services, contributing to increased citizens' satisfaction			
Solar photovoltaic power plant Pristina Construction of a 100 MW solar photovoltaic power plant expected to produce 152 GWh per year on former ash dump fields in proximity of the coal fired thermal power plant			
Solar district heating in Pristina Extension of the Pristina district heating system with a 30 MW solar thermal power plant, including a 410 000 m ³ seasonal storage and 20 MW heat from the existing combined-heat-and-power facility at thermal power plant "Kosovo B" and new connections for 38 000 residents			
State and Resilience Building Contract Enhancing policy measures aimed at mitigating the socio-economic impact of the energy crises on SMEs and households			
Learning through experience Strengthening the education system while also advocating for better youth development and education policies and practices			
Wastewater treatment plant in Mitrovica Construction of a wastewater treatment facility and rehabilitation of the sewerage network serving 123 000 people			
COVID-19 response for SMEs Supporting the financing of MSMEs in Kosovo, with a focus on sectors particularly affected by COVID-19			
Kosovo – Serbia Road Interconnection: Pristina – Merdare Section Construction of 27 km motorway as a part of the 103 km connection between Niš (Serbia) and Pristina (Kosovo)			
Route 10 rail rehabilitation Upgrading 226 km of railway line from Kraljevo (Serbia) to the border with North Macedonia, with 149 km rehabilitated in Kosovo			

*This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

**WBIF Bilateral Donors

Project	Country	Sector	Partners
EU for Public Administration Reform Supporting implementation of credible and sustainable public policies, efficient service delivery, increased accountability and transparency and more efficient public investments	Montenegro		
EU Reform Facility Assisting the Government in advancing Montenegro's reform process in a post COVID-19 context in a dynamic and focused way			
State and Resilience Building Contract Enhancing policy measures aimed at mitigating the socio-economic impact of the energy crises on SMEs and households			
Loans to SMEs for climate action Financing SMEs and Mid-caps in infrastructure, industry, transport, services, innovation, agriculture and tourism, with a focus on climate action, environmental protection and energy efficiency			 
EU4Agriculture Supporting the completion of the alignment with EU legislation on agriculture, with special emphasis on implementation of reforms			
Rural Development Programme under the Instrument for Pre-Accession Assistance (IPARD) Supporting rural areas and agri-food sectors to promote a gradual alignment with the rules of the EU's Common Agricultural Policy			
Podgorica wastewater treatment plant Construction of a new wastewater treatment plant and sludge incineration plant serving a population of 189 300 people and installing 33.6 km of sewer pipes			   (*)
Improving wastewater and water supply in Northern Montenegro Upgrading the water supply systems, sewerage networks and wastewater treatment plants in Kolašin, Rožaje and Mojkovac			  
Nikšić and Pljevlja wastewater collection systems Extending the sewerage and stormwater network for 12 200 people in the Nikšić and Pljevlja municipalities			  
Wastewater treatment plant and sewerage in Ulcinj Rehabilitation and extension of the sewerage system and construction of a wastewater treatment plant with a capacity of 60 000 population, equivalent to the municipality Ulcinj			  
Water Supply and Sanitation in Tivat Rehabilitation and extension of the water supply network and the sewage and stormwater networks, connecting additional 6 000 people and benefiting a total of 17 200 people (local population and tourists)			  
Water supply and wastewater collection in Boka Bay Rehabilitating the water supply systems to reduce water losses from 80% to 50%, and installing wastewater networks in four towns in the Kotor Municipality, connecting additional 8 200 people and benefiting a total of 35 700 people (local population and tourists)			   (*)
Water supply system improvement in Cetinje Rehabilitating the water supply systems aiming to reduce water losses from 80% to 30%, connection additional 13 500 people and installing a 4 MW solar photovoltaic power plant to power the pumping stations			  

Project	Country	Sector	Partners	
EU for Environment and Climate Action policies Assisting the development of technical capacities for the protection of the environment and policies related to climate change, biodiversity protection and low-carbon transition	Montenegro			
Sustainable transport and green economy Promoting an efficient, sustainable and performant transport network, mitigating risks on impact to the environment, increasing safety and security and promoting alternative energy fuels				
Operational Programme on Environment and Climate Change Supporting municipal water and waste management, nature protection and general support to the environmental sector				
Preparation for the Operational Programme for Environment and Climate Change Protecting, conserving and enhancing natural capital while protecting the health and well-being of citizens from environment-related risks and impacts				
Education Infrastructure Improvement Modernising kindergartens, primary, secondary, and vocational schools as well as providing IT equipment providing 7 720 new places to students, benefitting around 10 000 children annually				 
Employment and social inclusion Strengthening society by achieving a higher level of employment and activity, with a special focus on youth and other vulnerable groups				
Rail route 4 – Bar-Vrbnica Railway Line Section Rehabilitating 168 km of railway line and increasing travel speed up to 120 km/h, as part of the extension of the TEN-T Core Network				  
Air Traffic Control Upgrade Modernising air navigation systems in accordance with the Single European Sky regulations and as an indicative extension of the TEN-T Core Network both in Serbia and Montenegro				 
European Union Integration Facility Strengthening the capacity of the institutions to carry out efficient and functional programming, management and implementation as well as improving appropriate communication about the EU accession process, sector reforms and policy dialogue				 
Operational Programme for Employment and Social Inclusion Strengthening the society, in particular by achieving a higher level of employment and activity, with a special focus on youth and other vulnerable groups, while also strengthening the workforce's skills				

*WBIF Bilateral Donors

Project	Country	Sector	Partners	
EU4Modern Public Administration Improving the effectiveness and efficiency of the public administration through reorganisation, modernisation and digitalisation	 North Macedonia			
Bogdanci wind park – phase II Increasing the capacity of the Bogdanci wind park by up to 15 MW, expected to produce the equivalent of the energy demand of 6 000 households				 
Solar photovoltaic power plants Oslomej 1 and 2 Construction of two 10 MW solar photovoltaic power plants expected to produce the equivalent of the energy demand of 5 600 households on the coal mining complex of the thermal power plant Oslomej				  (*)
Solar photovoltaic power plant Bitola 1 Construction of a 20 MW solar photovoltaic power plant adjacent to the thermal power plant in Bitola, expected to produce the equivalent of the energy demand of 5 600 households				 
Rehabilitating six hydropower plants Third phase of the rehabilitation of six large hydropower plants with an overall capacity of 439 MW with an additional 13.5 MW and an expected additional production of 47.5 GWh per				 
Gas Interconnector Greece-North Macedonia Building a 68 km pipeline as part of the gas interconnector to Greece, mitigating market failures in the energy sector and diversifying energy sources				 
Energy efficiency in healthcare buildings Investments in energy efficiency measures, reducing energy consumption with 35 MWh per year, for 100 000 direct beneficiaries, including vulnerable groups, in 17 healthcare facilities				  (*)
Strengthening energy transmission in the South-East region Reconstruction and modernisation of 38.7 km of overhead power lines and transformer stations increasing the transmission capacity by 1 170 MW for future connection of renewable energy sources				 
State and Resilience Building Contract Enhancing policy measures aimed at mitigating the socio-economic impact of the energy crises on SMEs and households				
Improved Health, Social Protection and Gender Equality Improving maternal and neonatal health, preventing oncological diseases, reducing the gender gap and improving the fight against domestic violence				
Operational Programme on human capital Promoting equal opportunities, employment access, fighting against poverty and improving quality social protection for everyone				
Wastewater treatment plant Skopje Construction of the wastewater treatment plant for Skopje expected to serve 528 900 people and mitigating pollution of the Vardar River				 
Regional waste management system Construction of regional sanitary landfills, waste transfer stations, providing bins, containers and vehicles and closing of non-compliant landfills benefiting over one million people across 45 municipalities				 
Municipal water infrastructures Building and rehabilitating water supply, wastewater collection and treatment infrastructure and introducing emergency flood measures for 80 municipalities

Project	Country	Sector	Partners
EU for Environmental Standards and Clean Air Supporting the alignment of the national legislation on environment and climate change with EU laws, improving air quality in Skopje, Kumanovo, Tetovo and Bitola	North Macedonia		
EU for Modern Wastewater Systems Decreasing pollution along the Vardar river, supporting collection and treatment of wastewaters in Shtip, Veles and Vinica, including the connection of about 3 500 households to sewerage systems			
EU for Prespa: clean and safe Prespa lake Supporting green action in the transboundary Prespa lake area, focusing on biodiversity, toxic-free environment and greening agriculture and local business			
Operational Programme on environment Investing in wastewater and waste management infrastructure and strengthening the institutional capacities for environmental management			
Rural Development Programme under the Instrument for Pre-Accession Assistance (IPARD) Supporting rural areas and agri-food sectors to promote a gradual alignment with the rules of the EU's Common Agricultural Policy			
EU for Green Economy Greening, recovering and modernising the economy through establishing the "Greening Business" Facility and enhancing cooperation and the position of farmers in the supply chain			
COVID-19 Response Mobilising funding resources to mitigate the impact of the COVID-19 crisis by financing projects carried out by small and medium-sized enterprises			
Loan for SMEs, mid-caps and green transition Complementary to IPARD, this funding contributes to the development of the agri-food sector			
Rail Corridor VIII: Kumanovo-Beljakovce-Kriva Palanka-border with Bulgaria Rehabilitating and modernising the railway track, including bridges, over and underpasses, tunnels, stations and stops, and a new signalling and telecommunication and electrification system			
Road Corridor VIII Building a 23 km express road from Kriva Palanka to Stacin, decreasing travel times between Skopje and Sofia			
Operational Programme on Transport Harmonising transport policies and initiatives with EU's standards for a cohesive, sustainable transport network			
EU for Economic Cohesion Supporting a competitive and innovative private sector, clean and efficient energy transformation and healthy food systems			

Project

Project	Country	Sector	Partners
Rural Broadband Rollout – Phase 2 Connecting the existing internet broadband to an additional 815 settlements, 305 schools and at least 128 000 households in rural areas without access to a broadband network	Serbia		  
Broadband evolution Designing and supporting early rollout of a 5G mobile telecommunication network as well as the densification and upgrade of the commercial 4G network			 
European Integration Facility Strengthening the capacity and accountability of the Serbian Public Administration in multiple areas to assist the Government in the preparation for EU membership			
EU for Green Economic Development Improving the efficiency of production processes of Serbian micro, small and medium-sized enterprises and their ability to move towards business transformation, increasing their resilience and competitiveness and promoting green transformation		  	 
Support for Public Administration Reform Assisting the Government in improving recruitment in Public Administration, increasing accountability and transparency and improving capacities for budget planning and public investment management			
EU for Good Governance Modernising Public Administrations and enhancing their capacities to advance in EU integration processes, supporting alignment and implementation of EU laws and policies			
Vlasina hydropower plant Rehabilitation of the four hydropower plants of the Vlasina system and increasing the capacity of 136 MW and electricity production to 309 MW with 9 GWh each year			  
Kostolac Wind Farm Construction of a 66 MW wind farm in Kostolac, on the site of depleted open-cast mines, expected to produce 187 GWh per year			  
Installation of smart electricity meters Installation of 205 000 smart meters in Kraljevo, Čačak and Niš to reduce cost of manual meter reading, reduce losses and improve billing collection			  
Gas Interconnector Serbia-Bulgaria Building the gas interconnector Niš–Dimitrovgrad–Bulgaria, supporting a safe and sustainable gas supply equal to 60% of Serbia's annual consumption			 
Bistrica hydropower plant Rehabilitation and modernisation of the Bistrica hydropower plant, increasing the capacity from 94 to 102.6 MW and the expected production from 334.8 to 350 GWh per year, balancing the fluctuating production from future wind and solar power plants		  	
State and Resilience Building Contract Enhancing policy measures aimed at mitigating the socio-economic impact of the energy crises on SMEs and households			

Project

Project	Country	Sector	Partners
Operational Programme on environment and energy sectors Supporting water and waste management and addressing energy efficiency, reducing energy consumption and promoting sustainability	Serbia 		
Sewage System in Palilula Rehabilitating and extending the existing sewerage network and constructing a new wastewater treatment plant for the Palilula municipality			  
EU for Connectivity and Green Agenda Reinforcing environmental protection, contributing to energy efficiency, accelerating the shift towards a low-carbon and circular economy and improving the transport sector			
Implementation of the Green Agenda Supporting on-going structural reforms in the areas of environment and climate change, with a focus on urgent wastewater and water supply actions			 
Rural Development Programme under the Instrument for Pre-Accession (IPARD) Supporting rural areas and agri-food sectors to promote a gradual alignment with EU policies			
University Children's Hospital Tiršova 2 Building a new facility for the hospital with novel diagnostic and treatment technologies, robotic surgery and more sophisticated patient monitoring tools, which will serve as a regional center for excellence in paediatric care			  
Enabling a more responsive healthcare system Investing in structures for detecting and responding to epidemiological hazards and developing capacities of healthcare institutions at all levels of care provision			
EU for Inclusive Growth Enabling social cohesion and development through community-based care for people in need and enhanced labour and education systems			
Connected Schools Improving the digital infrastructure and providing new digital equipment, rolling out the Wireless Local Area Network, and providing teachers with training in digital skills			 
Improving education infrastructures Modernising education facilities, in particular the regional training centres, the quality of education and students' employability			 
Improving energy efficiency of the Technical Faculties campus in Belgrade Constructing and equipping new buildings and rehabilitating existing ones in line with current energy efficiency and accessibility standards			  
Operational Programme on employment, skills, and social inclusion Improving the employment prospects of youth and other vulnerable groups, promoting social entrepreneurship, improving the education system and enhancing social housing assistance			

Project	Country	Sector	Partners
Education reform Raise the employability of the labour force by improving relevance, equity, inclusiveness and quality of the education and training system	Serbia 	 	
Support to SMEs and mid-caps Mitigating the effects of COVID-19 on SMEs and mid-caps by supporting the governmental programme for small and medium projects		 	
EU for Sustainable Economy, Agriculture and Rural Development Strengthening private sector development, trade, research and innovation and strengthening legislative and institutional capacities in agriculture and rural development		 	
SME Competitiveness Support Programme Helping SMEs to upgrade their operations to meet EU standards in environmental protection, occupational health and safety and product quality		 	
Rail Corridor X Upgrading 610 km of railway lines and increasing travel speed up to 200 km/h, connecting the region to Hungary and Croatia		 	 
Facilitating the navigation in the Rhine-Danube Corridor (including in the Prahovo sector) Removing 21 shipwrecks with unexploded ammunition from World War II in the Prahovo sector, eliminating a 5 km long traffic bottleneck		 	 
Improving Inland Waterways Increasing the capacity and improving the efficiency and the safety of navigation along the Sava and Danube rivers, allowing for a modal shift from roads to river navigation		 	
Air Traffic Control Upgrade Modernising air navigation systems in accordance with the Single European Sky regulations and as an extension of the TEN-T Core Network both in Serbia and Montenegro		 	
Road Rehabilitation and Safety Improving the road network to promote regional and national economic growth, facilitate trade, support private sector development and contribute to economic and social cohesion

	Country	Sector	Partners
EU4Digital in the Western Balkans Boosting secure and sustainable digital and telecommunication infrastructure, fostering the digitalisation of public sector services and boosting the digitalisation of the business sector	Regional		
Just transition for regions, industries and workers Addressing challenges and opportunities linked to the just energy transition through policy and project development and stakeholder engagement, with a focus on finance mobilisation			
Governance of public finances and economic reforms Supporting capacities to manage economic reforms, public finances and monetary policy with a view to economic recovery and more resilient sustainable socio-economic development			
Support to the Regional School of Public Administration (ReSPA) Enhancing capacities, innovative practices and regional co-operation in the area of Public Administration Reform through support to the School			
Implementing the Common Regional Market Supporting the implementation of the Common Regional Market to increase socioeconomic growth through trade and investment, fostering future integration in the EU Single Market and improving cooperation in the region			
Capacity building of veterinary and plant health services Gradually building a strong agricultural sector progressively aligning with EU laws in the field of agriculture and rural development, especially in veterinary, food safety and plant health sectors			
EU4Good Governance (SIGMA) Facilitating sustainable governance through experience-sharing and strengthening of administrative capacities, increasing transparency, accountability, responsiveness and participation			
Regional Energy Efficiency Programme (REEP) Blending policy support with loans, technical assistance and incentives to support energy efficiency and renewable energy investments in the public and private sectors			
Trans-Balkan Electricity Corridor Connecting the electricity transmission systems from Serbia, Montenegro, Bosnia and Herzegovina to EU Member States through 400 kV overhead lines and submarine cables			
EU4Green Implementing the Green Agenda, moving to a circular economy, reducing pollutants, greening the agricultural sector, preserving biodiversity, fostering the green transition			
EU 4 Energy Transition – Covenant of Mayors in the Western Balkans and Türkiye Supporting cities in delivering on their energy and climate targets, including in the development of plans and monitoring processes, implementing small-scale projects and fostering regional cooperation			
Strengthening employment, labour and social protection (SOCIEUX+) Supporting the development of systems and policies that are more inclusive, effective, responsive, resilient and sustainable through trainings, knowledge creation and other formal events			

Project

Project	Country	Sector	Partners
EU4Youth Fostering regional cooperation, trust, and reconciliation among young people by supporting regional mobility schemes, participation in sports and in decision making processes	Regional		
EU4Employment Facilitating the integration into the labour market of unemployed and disengaged youth, and advancing the alignment with the EU laws in the areas of undeclared work, health and safety at work and social dialogue			
SMEs Go Green in the Western Balkans Supporting SMEs to develop climate smart solutions necessary to improve their energy and resource efficiency, competitiveness and growth by investing in industrial premises, equipment, software, electric vehicles or renewable energy measures			  
Western Balkans Climate Programme Financing climate change related actions for energy efficiency, greening the environment, investment in climate smart technologies, pollution prevention measures, climate risk, circular economy, decarbonisation and protection of biodiversity			  
Green Finance for Inclusion Supporting the green transition of SMEs towards sustainable, low carbon, energy efficient and climate resilient investments targeting women- and youth-led SMEs in the social entrepreneurship, sustainable agriculture, circular economy and eco-tourism sectors			  
Support to Competitiveness and Sustainability Assisting SMEs in recovering after the COVID-19 pandemic and in implementing the green transition through circular economies			
Sustainable Access to Finance for Entrepreneurship – SAFE The programme will encourage and support the growth of local micro-enterprises with a specific focus on social enterprises by promoting their access to finance through local micro-financial institutions			  
Go Digital in the Western Balkans Providing a combination of specialised financing and know-how for digitalisation, automation and competitiveness for micro and small businesses (MSMEs), including enhancing capacity for trade with the EU			  
Green Growth Fund: Promoting Green Lending Expanding the supply of financing for renewable and efficient energy measures and contributing to the reduction of energy consumption and greenhouse gas emissions by SMEs and households through financial intermediaries and direct investments			  
Innovation and Green Transformation Facility Supporting SMEs and mid-caps and their green investments with a focus on innovative products and processes, climate change mitigation and green projects, primarily in agriculture			  
Enterprise Expansion Fund (ENEF II) Supporting growth and expansion of SMEs with a range of financing instruments, including equity, quasi-equity and tailor-made debt financing			  
Safe and Sustainable Transport Programme (SSTP) Enhancing transport safety and sustainability, supporting road safety improvements, alternative fuel infrastructure and intelligent transport systems
