# 1. INTRODUCTION

---

The conflict in Syria continues to drive the largest refugee crisis in the world. Over 5.6 million Syrians are registered as refugees in neighbouring countries with the crisis going into its 8th year. Despite the move of hundreds of thousands of Syrian refugees to Europe in 2015/2016, the primary burden of hosting the refugees continues to fall on the neighbouring countries in the region. Lebanon (1 million) and Jordan (650,000) host the largest numbers of registered refugees per capita in the world. In Lebanon, one in five people is a refugee, while one in fifteen is a refugee in Jordan. Meanwhile, Turkey continues to host the largest number of refugees in the world, 3.5 million. Iraq and Egypt host large numbers of Syrian refugees along with refugees from many other countries. While the vast majority of Syrian refugees continue to be geographically integrated with host communities in urban, peri-urban and rural areas, they are increasingly vulnerable and face extremely high rates of poverty.

Refugees continue to face a number of specific challenges across the region, including limited livelihoods opportunities, exhaustion of savings, and the adoption of negative coping mechanisms, which further exacerbates the residual protection risks they face. Broader political and social pressures can also affect stability between displaced populations and host communities in countries across the region.

To help face this situation, the EU has decided to mobilize efforts and resources to alleviate the refugees worsening circumstances, becoming the leading donor in the international response to the Syrian crisis. EU and Member States have collectively mobilized €9 billion for relief and recovery assistance to Syrians in their country and to refugees and their host communities in neighbouring Lebanon, Jordan, Iraq, Turkey and Egypt. In addition, the EU has pledged more than €3 billion at the 'Supporting Syria' conference held in London last February 2016.

## 1.1. The EU Regional Trust Fund in Response to the Syrian Crisis

Since its establishment in December 2014, an increasing share of the EU's non-humanitarian aid for Syrian refugees and support Syria's neighbouring countries cope with the refugee crisis is provided through the EU Regional Trust Fund in Response to the Syrian crisis (EUTF Syria). The EUTF Syria reinforces the integrated EU aid response to the crisis and primarily addresses longer term resilience and early recovery needs of Syrian refugees and host communities and their administrations in neighbouring countries including Iraq, Jordan, Lebanon and Turkey. In addition, EUTF Syria also operates in Egypt and Western Balkans.

The EUTF Syria's Overall Objective is:

“ *To provide a coherent and reinforced aid response to the Syrian crisis on a regional scale, responding primarily to the needs of refugees from Syria in neighbouring countries, as well as of the communities hosting the refugees and their administrations, in particular as regards resilience and early recovery.*

The EUTF Syria is a key instrument to deliver the EU's pledges for the crisis made at the London conference on Syria in 2016 and the 24-25th April SYRIA Conference in Brussels, and also underpins the special EU Compacts agreed with Jordan and Lebanon for assistance to this protracted refugee crisis.

### Key priorities of the EUTF Syria are:

- Promoting educational, protection and engagement opportunities for children and young people in line with the 'No Lost Generation initiative'.
- Reducing the pressure on countries hosting refugees by investing in livelihoods and social cohesion and supporting them in providing access to jobs and education that will benefit both refugees and host communities.

In addition, the EUTF Syria now supports other important development sectors, including **municipal services** and **infrastructure** in most affected host communities, **access to health care**, and **higher education**.

To foster a genuine European response in partnership with the host governments in the region, the EUTF Syria in recent months succeeded to encourage and better connect European aid delivery capacities. As a result, **up to 75% of the EUTF Syria's projects could potentially be implemented by European partners** (Development agencies of EU Member States, European NGOs, Red Cross societies) in partnership with host governments. This will significantly boost the EU's partnership with host governments and affected populations in the region, and also make Europe's response more visible, both as a donor and a doer.

## 2.1. The EUTF Syria's contributions

With contributions and pledges from 22 EU Member States and Turkey, amounting to now more than €150 million, and contributions from various EU instruments, the EUTF Syria has reached a total volume of €1.4 billion to date.

To date, a total of **more than €1.2 billion** have already been allocated to concrete assistance programmes for refugees and host communities in the region. These programmes support basic education and child protection, training and higher education, better access to healthcare, improved water and waste-water infrastructure, as well as support to resilience, economic opportunities and social inclusion. Of this, **€920 million have been contracted in 47 projects** to the EUTF Syria's implementing partners on the ground, now reaching more than **2 million beneficiaries**.

The scope of the EUTF Syria also includes support to internally displaced persons in Iraq fleeing from the interlinked Syria/Iraq/Da'esh crisis, and to provide support in the Western Balkans to non-EU countries affected by the refugee crisis.

## 2. OVERALL ASPECTS OF THE EUTF SYRIA

---

### 2.1. Overall Intervention Logic

In the main, humanitarian donor budgets are often not sufficient and geared towards the protracted Syrian crisis whilst needs become increasingly structural, particularly in terms of resilience, recovery and education. Moreover, development aid budgets are programmed for years in advance, despite a need for a more flexible financing instrument. This is offered by the EUTF Syria. Moreover, the EUTF also serves as a potential vehicle for a future joint post-conflict recovery and reconstruction effort in Syria.

The reconstructed overall intervention logic for the EUTF Syria, which is presented below, defines the **Impact, Outcomes, Outputs, Activities and Inputs** contributing to or resulting from the implementation of EUTF Syria (through its actions). These correspond to the different sequential levels necessary to bring about the desired results as defined by the EUTF Syria's basic documents<sup>1</sup>.

The analysis of the intervention logic is complemented with the identification of the assumptions (the necessary and positive conditions) required for the realisation of the causal relationships on which the EUTF Syria logic is built. **Assumptions** need to be met (to exist) prior to the start of implementation and as such are placed on the bottom of the intervention logic; without these an action cannot and should not take place, i.e. no activity should be implemented.

Two types of assumptions are considered:

- **Contextual:** addressing factors of the wider context of the EUTF Syria countries/thematic areas; and

---

<sup>1</sup> Agreement Establishing the European Union Regional Trust Fund in Response to the Syrian Crisis, the EUTF Syria and its Internal Rules ("the Constitutive Agreement"); Strategic Orientation Document for the European Union Regional Trust Fund in Response to the Syrian Crisis.

- **Specific:** referring to specific levels of the EUT Syria intervention logic, which need to be met in order to move to a higher level.

Assumptions are placed on the level of activities, outputs and outcomes. Changes in the assumptions over time may be needed according to the changing context or priorities. These assumptions as well as their possible changes will help explain the nature/level/quantity of the results achieved by the EUTF Syria.

As can be seen from the reconstructed intervention logic diagram (**Figure 1**), EUTF Syria has the overall intention (**Impact**) of providing a coherent and reinforced aid response to the Syrian crisis on a regional scale, responding primarily to the needs of refugees from Syria in neighbouring countries, and of the communities hosting the refugees and their administrations, in particular as regards to resilience and early recovery.

The achievement of this overall objective (Impact) will be based on the achievement of a number of **Outcomes** like: promotion of educational, protection and engagement opportunities for children and young people - both refugee children and vulnerable children in host communities, and reduction of the pressure on countries hosting refugees by investing in livelihoods and social cohesion and supporting them in providing access to jobs and education that will benefit both refugees and host communities.

The existing situation analysis has determined the focus of the EUTF Syria interventions and the types of **Outputs** to be produced by EUTF actions.

There are numerous Outputs that can be generated under the EUTF Syria, for instance:

- Participating youth becoming prepared for career and/or higher education;
- Strengthened local resilience and livelihoods, contributing also to increased economic empowerment;
- Enhanced health service utilization, leading to improved wellness behaviour;
- Improved sanitation and hygiene practices; etc.

Practically at the implementation phase, the Outputs at Instrument (EUTF Syria) level will be the sum of the outputs of all the actions which are implemented with the financing of EUTF.

**Activities** can contribute to one or several Outputs at the same time. Also, the interaction between Activities and Outputs can be dynamic, with frequent interaction between these two levels during implementation. At Instrument level, the activities comprise the programming, implementation, monitoring and reporting activities of all stakeholders involved; at the same time, the activities at Instrument level are the sum of the activities implemented under each of the key areas of intervention (currently six thematic priorities) as financed by EUTF Syria.

The **Inputs** required for the implementation of the Activities, the production of Outputs and the contribution to Outcomes and Impacts comprise the EUTF Syria budget, the involved human resources (of all stakeholders) the organisation schemes and tools, technical inputs (mainly know-how, instruments and resources) and (implementation) time (60 months from December 2014).

At the implementation phase, the Inputs at Instrument level comprise all inputs used for the implementation of all the actions financed by EUTF Syria. The total available funds of EUTF Syria are expected to suffice for the achievement of the anticipated results, due to the (participative) way the EUTF actions are elaborated, its gradual programming and the de-concentration of the implementation responsibility to entrusted stakeholders.

The **assumptions/preconditions** presented mainly refer to:

- The donor fulfilment of given funding commitments;
- The ability of the EUTF to identify the most pressing needs, thus identifying the most relevant actions;
- Effective collaboration between EC, donor community, implementing partners and other stakeholders;
- The need that the security situation inside Syria does not further worsen dramatically;
- Political stability and adequate security conditions in the individual EUTF Syria countries; etc.

Assumptions/preconditions are necessary for going from one level to the immediate higher one. The assumptions of the lower level are just logical assumptions elaborated on the basis of the content of the level they refer to; the assumptions of the higher levels of the

intervention logic (i.e.: Inputs ⇒ Activities ⇒ Outputs ⇒ Outcomes ⇒ Impacts) come directly or indirectly from the constitutive documents for establishing and implementing the EUTF Syria. These documents do not explicitly present preconditions /assumptions for the implementation and achievement of the results of EUTF Syria, however they provide them indirectly.

# EUTF Syria Overall Intervention Logic

EU Regional Trust Fund in Response to the Syrian Crisis

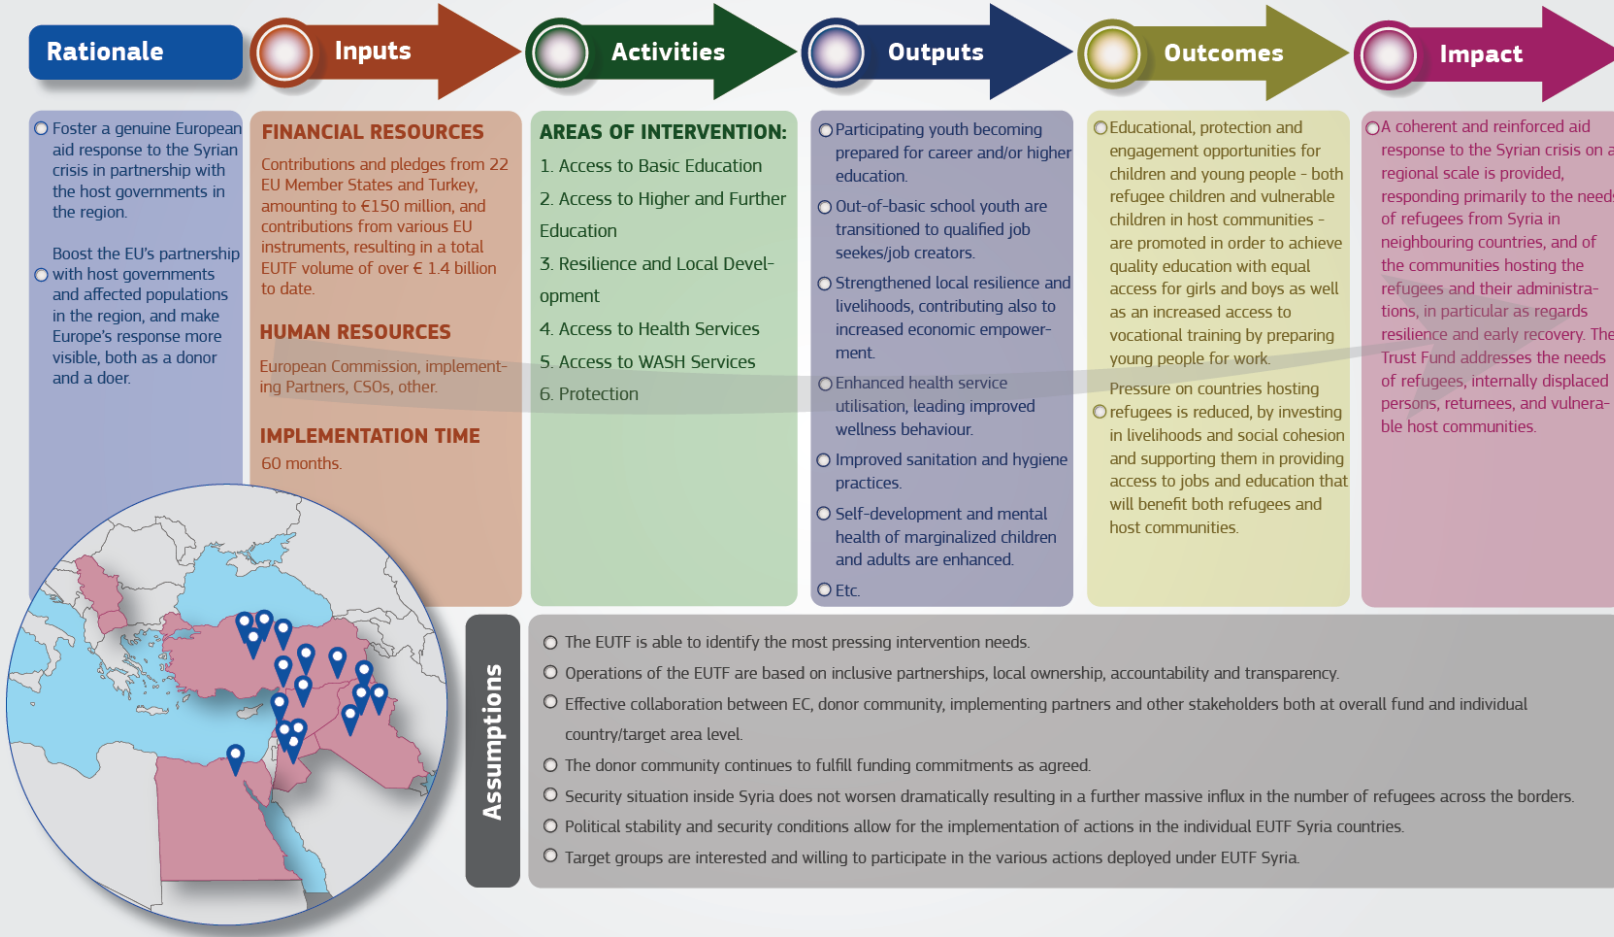

Figure 1: EUTF Syria Overall Intervention Logic

## 2.2. Results Framework

Within the larger framework to bridge the humanitarian-development nexus with support for refugees and host communities in the region, the response from the EUTF Syria is **intended to support intervention towards strengthening the resilience of vulnerable host communities and Syrians affected by the crisis** and those who have fled to the Region.

In line with the EUTF Syria's Overall Objective, each EUTF Syria Actions contribute to achieve the programmatic priorities of the Fund, which are mirrored by the **EUTF Syria Results Framework**.

Overall, a Results Framework is a core reference document for the results- oriented planning and management of projects and programmes. Combined with indicators, it forms the basis for **Monitoring and Evaluation (M&E)**. A Results Framework demonstrates and visualises the funding logic of a project or programme. It clarifies the relationships between the contributions of the various stakeholders, the activities, the intended short and medium-term results, and the medium and long- term objectives and impacts. Indicators are assigned to the activities, results, and objectives described in the results framework. These indicators allow the implemented activities and the intended results and objectives to be measured.

The EUTF Syria M&E Framework intends to **assess the effective delivery of programmes, contributes to improved project design, and develops a knowledge base of 'what works'** to allow for **continuous improvement of aid delivery**.

**Results Frameworks and indicators are the basis for the results- oriented planning and reporting of projects.** Thus, they are decisive for a systematic assessment of the extent to which objectives have been implemented and achieved by means of a comparison between target and actual performance. This is the basis for the results- oriented management of a project or programme and its further development in dialogue between the partners involved.

The M&E Framework **underpins a strategic planning process and supports an effective management and monitoring activity system, refining operations as well as informing future interventions.** Hence, the M&E Framework **main objectives** are:

- To serve as a living management tool;
- To foster ownership and consensus;
- To guide corrective actions;
- To facilitate the coordination of development efforts;
- To chart the course for achieving a strategic objective; and,
- To serve as key accountability tool for monitoring and evaluation.

More specifically, the purpose of the EUTF Syria Monitoring and Evaluation Framework **is to assess, across various levels, the degree to which the Overall Objective of the EUTF Syria has been achieved.** The framework provides information on aggregated key results achieved with EUTF assistance. The publication of this information increases accountability and transparency and demonstrates to external stakeholders how the EU contributes to development progress in the countries and regions to which it provides development assistance, on the one hand, and it provides relevant information to inform internal management decisions, on the other hand, thus strengthening the framework for ensuring effectiveness of EUTF financed actions.

Above all, and in the spirit of the Agenda for Change, the EUTF Syria M&E Framework aims also to **ensure upward and downward accountability and transparency of EUTF support towards the EUTF Board and end beneficiaries, respectively.**

The EUTF Results Framework (RFw) is reporting on results aggregated from projects and programmes financed under the EUTF Syria. By their nature, corporate level results frameworks are only able to capture results that can be aggregated, and as such make it difficult to reflect qualitative results. With this in mind, and similarly to other donors' results frameworks, the RFw should be understood as **a tool that provides a snapshot of key results at a corporate level, linked to interventions financed by the EUTF.** It does not replace but is

complementary to results reporting at the level of individual project and programmes or to reporting at country level and does not replace these.

## 3.METHODOLOGY

---

With an increasing number of contracts signed for the implementation of projects in the EUTF-Syria region, it was deemed necessary the creation of a framework that would enable the measurement of the results achieved by the partners implementing the actions. The **EUTF Syria Results Framework (RFw)** provides a number of **Key Performance Indicators (KPIs)** that allow for a better reporting of the results and provide a better understanding on the level of impact of the EUTF Syria projects and programmes, by focusing on six target sector areas: Basic Education, Higher Education, Resilience and Local Development, Health, WASH, and Protection.

The source of the data to develop these KPIs is the set of **Project Indicators** reported by each of the implementing partners. Therefore, the quality of the RFw statistics is directly related to the reporting of the implementing partners. For that purpose, the EUTF Syria has developed a reporting template which is called **Quarterly Information Notes (QINs)**, for the collection of cumulative data.

According to the Special Conditions for EUTF Syria contracts:

“ 4.2 (4.3) *In accordance with the Article 2.3 (for grant agreements) or Article 3.4 (for the delegation agreement) of Annex II, the Coordinator (for grants)/Organisation (for delegation agreements) will submit quarterly narrative information notes. The information notes will be provided in the format as set in Annex 1b. These notes are for monitoring and information purposes.*

QINs are used to monitor the Key Performance Indicators of the Results Framework. The Results Framework (RFw) has a total of 81 KPIs under 6 main priority sectors:

1. Access to Basic Education
2. Access to Higher and Further Education
3. Resilience and Local Development
4. Access to Health Services
5. Access to WASH Services
6. Protection

A full list of the Results Framework's KPIs is listed in Annex I. Until 31st March 2018, a total of 29 out of 47 EUTF Syria contractors provided their respective QINs. For this reason, this report includes the results of 29 projects.

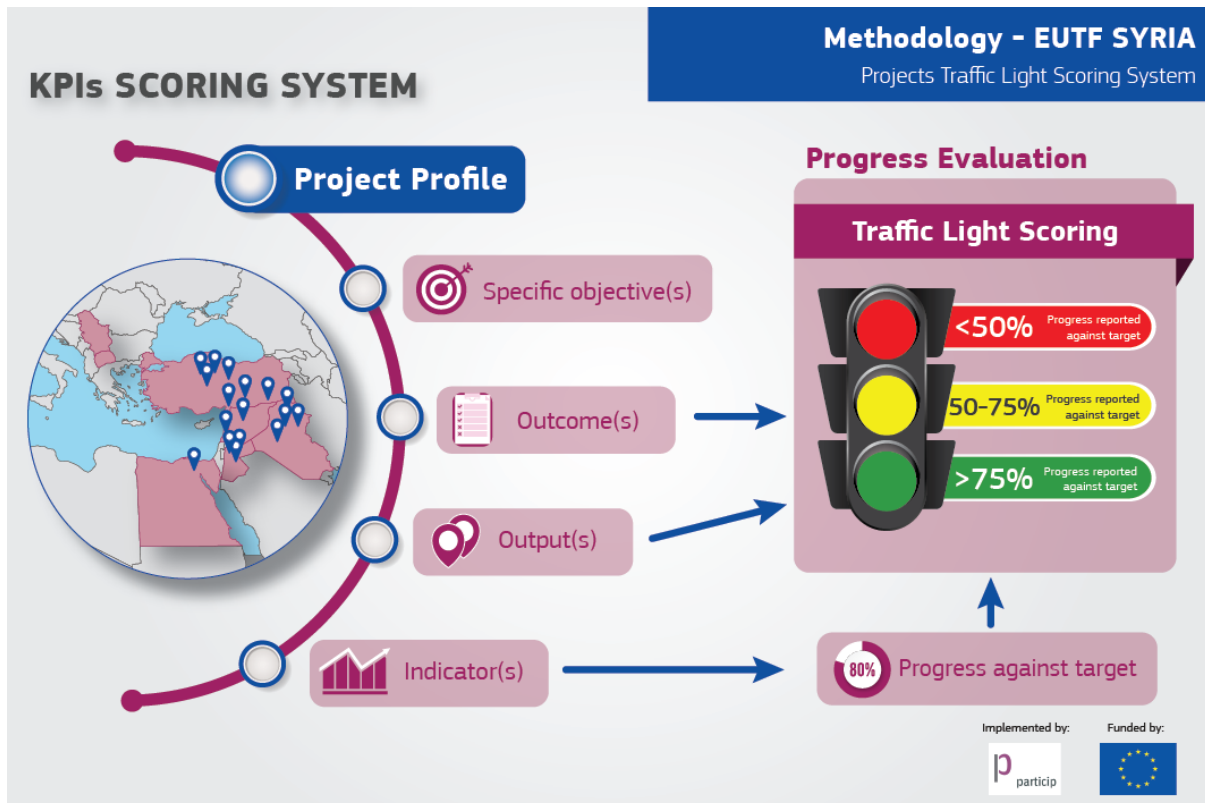

All KPIs' information reported is organised and compiled in a database for later analysis. For this purpose, the following items/steps are considered:

- **Key Performance Indicator (KPI):** Output indicators which are directly linked with the EUTF Results Framework (RFw), included as Annex I.
- **Non-Key Performance Indicator (Non-KPI):** Output indicators which are not linked with any of the indicators listed in the RFw are defined as Non- KPI.
- **Progress:** It measures the performance of each indicator against the target value. Progress is calculated by dividing cumulative current value by target value. The monitoring system will produce a traffic light score for each project based on the progress achieved, following the colours indicated below:

- If progress reported for any given KPI is **above 75%** of the target value/amount.
- If progress reported for any given KPI is **between 50% and 75%** of the target value/amount.
- If progress reported for any given KPI is **below 50%** of the target value/amount.

**Targets** are divided into two categories:

- I) **Individual beneficiaries:** Persons/Households who benefit from EUTF Syria projects.
- II) **Services:** Organizations/Facilities/Institutions who benefit from EUTF Syria projects as well as direct services provided.

**Figure 2:** EUTF Syria Projects Traffic Light Scoring System

In order for the implementing partners to be able to update QINs and other project related data, a **web-based monitoring platform** will be set up. The objective of the online monitoring

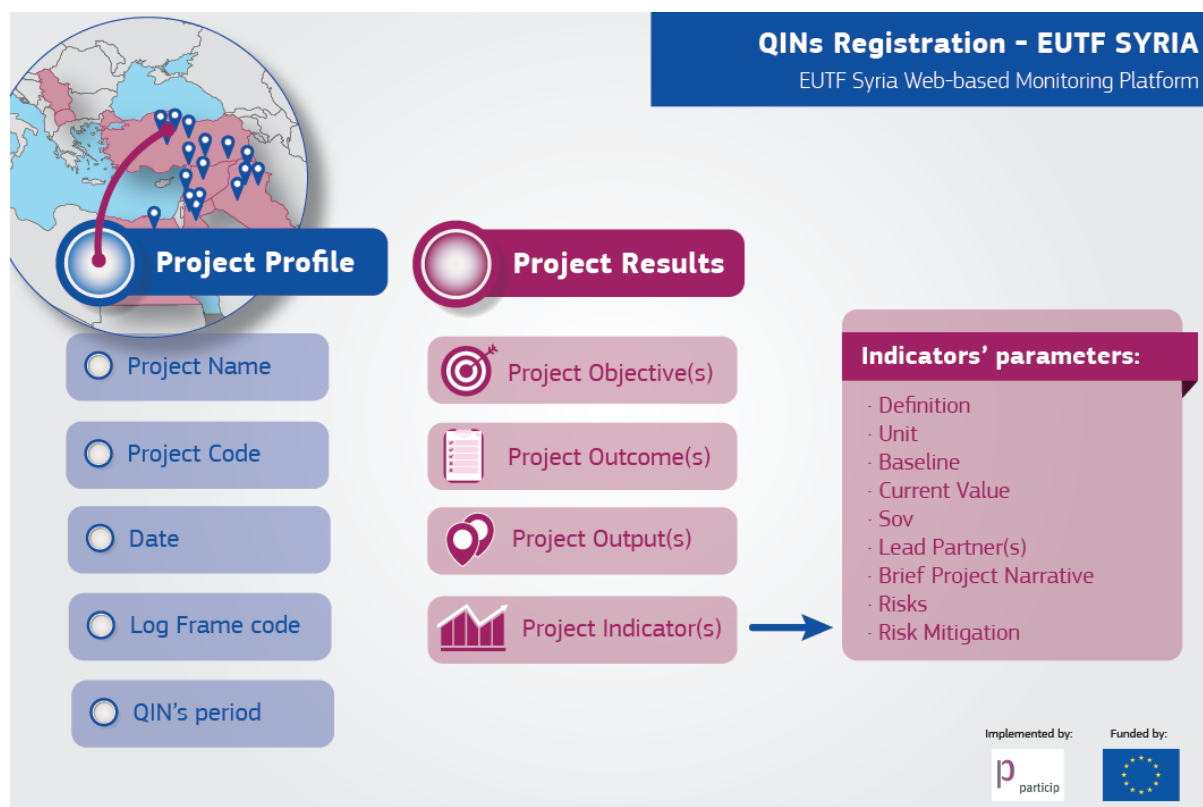

platform is to track the progress of EUTF Syria operations. As such, the online platform will allow the EUTF to monitor the results of the EUTF Syria programmes and projects.

With the information provided by the implementing partners, the online platform will create automatic reports and will allow users to monitor project progress against the defined targets per project/per country/per action. As explained above, the monitoring system will produce traffic light scores for each project based on the progress achieved.

The online platform will incorporate a database including all KPIs reported, which in turn, will include all QIN's data, which will be transferred to the platform's database.

Project implementers will be able to upload project profiles, log frames and QINs through the data entry forms present on the online platform. For that purpose, the implementing partners will register through the online platform, and for each project funded by EUTF Syria, the parameters associated to each project (project name/code, action name/code, contractor office, project sector, project duration, etc.).

**Figure 3:** QINs' registration through EUTF's Web-based Monitoring Platform

Each registered parameter will be recorded in the online platform's database (Figure 3). Once the data is registered, the implementing partners will be able to edit the QIN's information entered before submitting it. Users will also be able to export and print the data.

In addition to the report templates produced by the platform, the Project team will provide a **quarterly data analysis of the project monitoring indicators** as a separate report.

## 4.FINDINGS

---

### 4.1. EUTF – Syria Region

By the end of the second periodic sectoral check a total of 29 EUTF Syria projects were active in the EUTF-Syria region. The **target value** of the EUTF Syria was **2,629,969**, broken down in two categories:

- **Individual beneficiaries:** with 2,579,877 individuals/households
- **Services:** with 50,092 organizations/facilities/institutions

The current Summary Report covers the period until 31st March 2018, identified as reporting cut-off dates for QINs submitted by 1st May 2018. Statistics show current achievements in regards to the EUTF Syria Results Framework Output Indicators, KPIs, in all priority areas. It should be noted that data is based on action-level monitoring by implementing partners themselves and it is disaggregated at various levels where possible and appropriate.

Accomplishments related to Non-Key Performance Indicators are also analysed within the Full Report published on the EUTF Syria website.

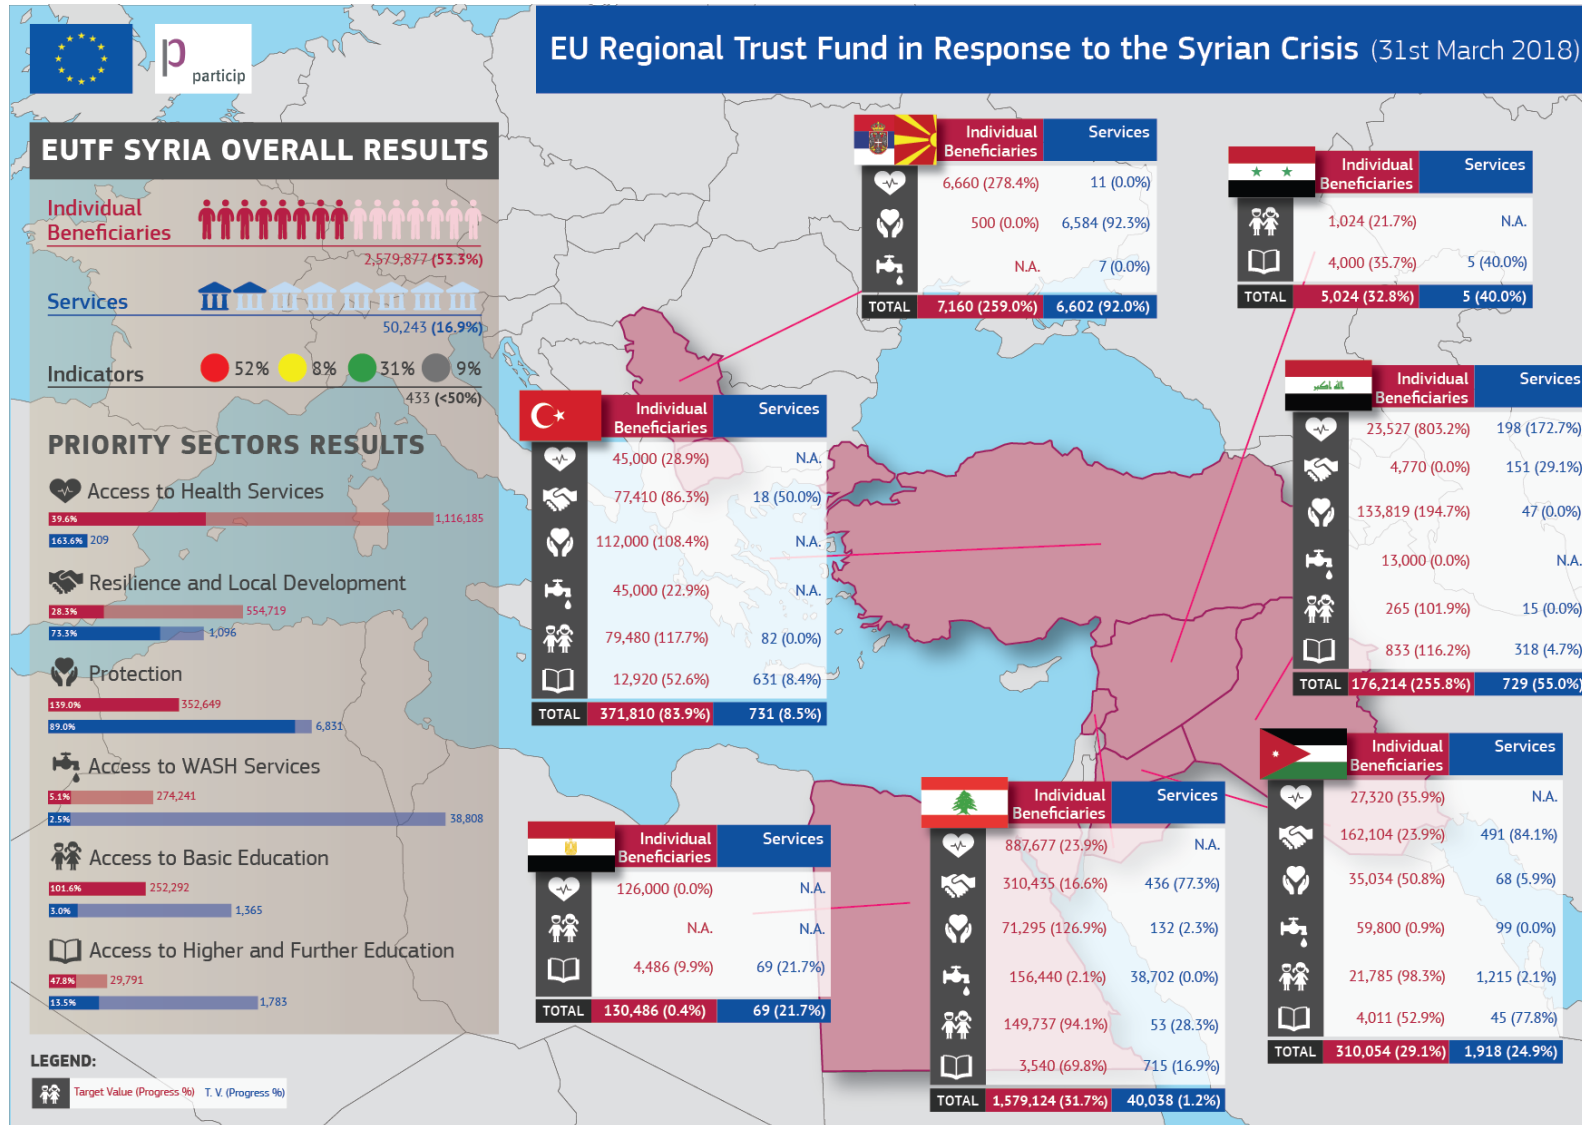

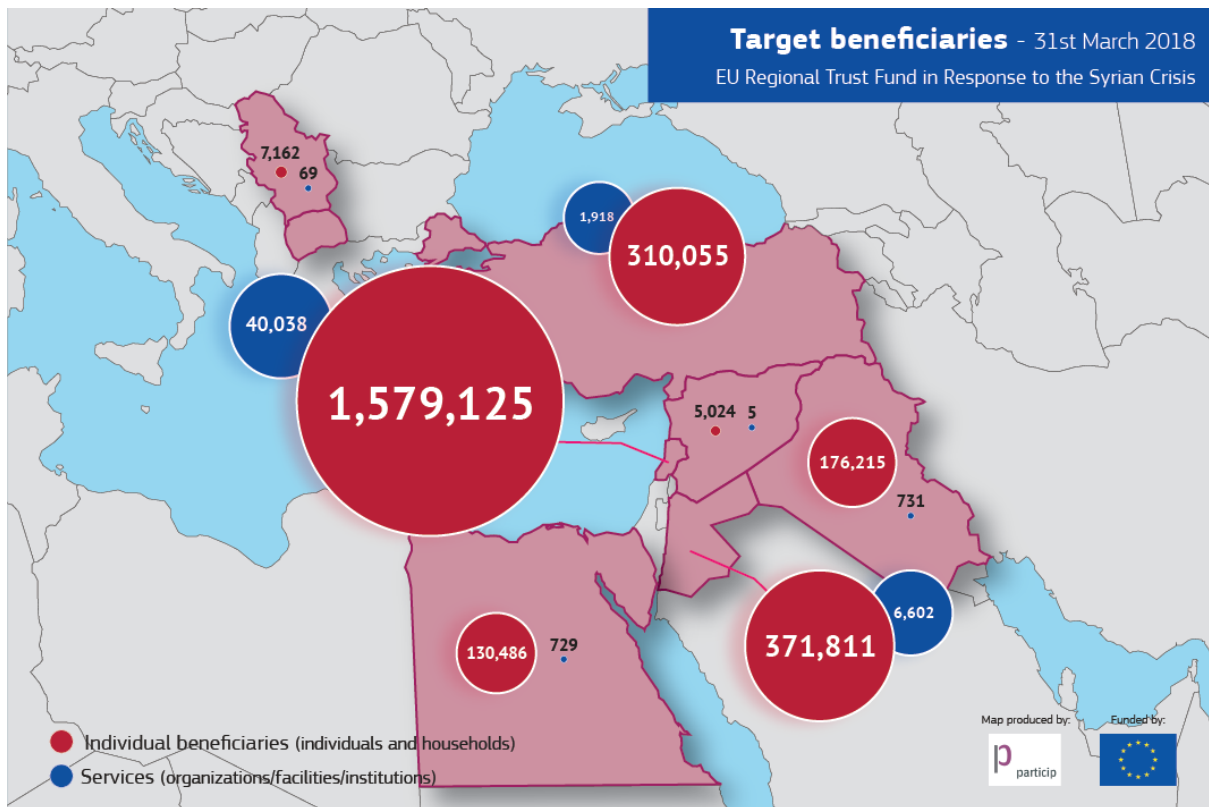

Figure 4: EUTF Syria Overall and Country Results

**Figure 5:** EUTF Syria Geographical Coverage and Targets

For the same cut-off date, 31st March 2018, current value is **1,374,390 individuals and households** (individual beneficiaries) and **8,480 organizations/facilities/institutions** (services) benefitted from EUTF Syria project deliverables. This represents an overall progress of **52.6%** (53.3% progress in the category of individuals beneficiaries and 16.9% for services), an **increase of 9.7 points** in relation to the first periodic sectoral check (42.9%, 31 December 2017).

The following table summarises the overall progress of the active EUTF Syria projects in the region.

Target Category	Target Value	Current Value	Progress (%)
Individual beneficiaries	2,579,877	1,374,392	53.3%
Services	50,092	8,480	16.9%
<b>Total</b>	<b>2,629,969</b>	<b>1,382,871</b>	<b>52.6%</b>

**Table 1:** Overall progress of the EUTF Syria Programme (as of 30/04/2018)

This **Summary Results Report** analyses 29 projects funded by the EUTF Syria in the region, which provided their Quarterly Information Notes (QIN), with data cut-off date on 31st March 2018.

A list of active projects is given in the table below:

No	Project partner	Project Code	Priority Area of Support	Start Date & Duration	EUTF Contribution
1	UNICEF	T04.80	Access to Basic Education and Protection	10.09.2015 24 months	12.500.000 €
2	UNICEF	T04.13	Access to Basic Education and Protection	01.12.2015 28 months	90.000.000 €
3	German Academic Exchange Service (DAAD)	T04.11	Access to Higher and Further Education	27.04.2016 43 months	11.999.879 €
4	Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ)	T04.15	Resilience and Local Development and Access to Basic Education	15.06.2016 36 months	74.600.000 €

**Table 2:** Projects that submitted their QIN (as of May 1<sup>st</sup> 2018)

Statistical progress for all KPIs is presented in **Annex II**.

## 4.2. All Sectors Overview

### 4.2.1. Individual beneficiaries

Latest data available from the second periodic sectoral check shows that a total of **2,579,877 individuals/households are currently being targeted** by the EUTF Syria projects in the region, with Lebanon, Jordan and Turkey accumulating the majority of the target beneficiaries (87.6%).

Current values show that overall achievement progress of this category is situated at **53.3%**, representing **10 points increase** in relation to the previous report (**43%**).

However, this value differs notably among countries, with Iraq/KRG and Western Balkans greatly surpassing their current assigned targets (over 250%), Jordan showing good progress (83.9%) and Egypt representing the country with the lowest advancement. Other countries like Lebanon, Turkey and Syria present similar progress (around 30%).

The following table provides a full breakdown of beneficiaries by country, including target values and achievement progress:

Country	Target Value	Current Value	Progress (%)
Lebanon	1,579,125	500,844	31.7%
Jordan	310,055	90,356	83.9%
Turkey	371,811	311,827	29.1%
Iraq/KRG	176,215	450,702	255.8%
Egypt	130,486	469	0.4%
Western Balkans	7,162	18,544	258.9%
Syria	5,024	1,650	32.8%
<b>Total</b>	<b>2,579,877</b>	<b>1,374,392</b>	<b>53.3%</b>

**Table 3:** Targets for All sectors (Individual beneficiaries by country)

**Figure 6:** Geographic distribution of Individual beneficiaries targeted by the EUTF Syria

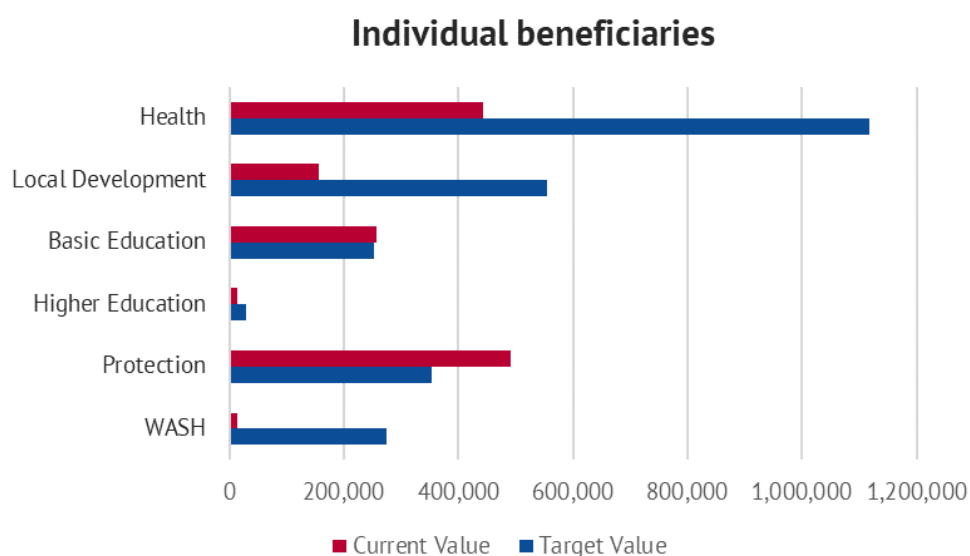

Out of the **2,579,877 individuals/households** targeted by the EUTF Syria projects, the largest portion corresponds to the Health sector (43.3%), followed by Local Development (21.5%), Protection (13.7%) and WASH (10.6%). Protection and Access to Basic Education are the sectors with the highest level of progress (139% and 101.6% respectively), surpassing the targets set. WASH is the sector with the longest way to go to meet its target value (with 5.1% level of advancement).

A full breakdown of Individual beneficiaries by sector, including target values and achievement progress, is provided in the table below:

Sector	Target Value	Current Value	Progress (%)
Access to WASH Services	274,241	14,058	5.1%
Protection	352,649	490,176	139.0%
Access to Higher & Further Education	29,791	14,232	47.8%
Access to Basic Education	252,292	256,350	101.6%
Resilience and Local Development	554,719	157,013	28.3%
Access to Health Services	1,116,185	442,564	39.6%
<b>Total</b>	<b>2,579,877</b>	<b>1,374,392</b>	<b>53.3%</b>

**Table 4:** Targets for All sectors (Individual beneficiaries by sector)

Figure 7 presents the Key Performance Indicators' (KPIs) achievement progress by displaying target values against current values for Individual beneficiaries (individuals and households) and sector. Overall, all projects are currently active and being implemented. In terms of progress, it is worth noting how **Protection and Access to Basic Education are the leading sectors**, in terms of progress achieved, even exceeding the target values set (139% and 102% respectively). On the other side, **WASH, with 5%, is the sector with the lowest progress ratio** when it comes to Individual beneficiaries reached.

**Figure 7:** KPIs' achievement progress for All Sectors (Individual beneficiaries)

## 4.2.2. Services

Latest data available from the second periodic sectoral check (31st March 2018) shows that a total of **50,092 organizations/facilities/institutions are being targeted** by the EUTF Syria projects in the region (a 332.5% increase in relation to the first periodic sectoral check, 31 December 2017), with Lebanon having by far the largest portion of beneficiaries targeted under this category (79.9%), followed by Western Balkans (13.2%) and Turkey (3.8%).

Country	Target Value	Current Value	Progress (%)
Lebanon	40,038	478	1.2%
Jordan	1,918	478	24.9%
Turkey	731	62	8.5%
Iraq/KRG	729	401	55.0%
Egypt	69	15	21.7%
Western Balkans	6,602	7,044	106.7%
Syria	5	2	40.0%
<b>Total</b>	<b>50,092</b>	<b>8,480</b>	<b>16.9%</b>

**Table 5:** Targets for All sectors (Services by country)

Current figures indicate an overall achievement progress of **16.9%**. Lebanon, the country with the highest target value, presents the lowest achievement rate (1.2%), whereas Jordan, the region with the second highest target value, is the one with the largest success rate, overachieving its target goal (106.7%).

Out of the **50,092 services** to be provided in the EUTF-Syria region by the EUTF Syria projects, the vast majority corresponds to the areas of WASH (77.5%) and Protection (13.6%), followed by Education (Basic and Higher, 6.3%), Resilience and Local Development (2.2%) and Health (0.4%).

A full breakdown of services by sector, including target values and achievement progress is provided in the table below:

Sector	Target Value	Current Value	Progress (%)
Access to WASH Services	38,808	971	2.5%
Protection	6,831	6,081	89.0%
Access to Higher & Further Education	1,783	241	13.5%
Access to Basic Education	1,365	41	3.0%
Resilience and Local Development	1,096	804	73.3%
Access to Health Services	209	342	163.6%
<b>Total</b>	<b>50,092</b>	<b>8,480</b>	<b>16.9%</b>

**Table 6:** Targets for All sectors (Services by sector)

**Figure 8:** Geographic distribution of the Services targeted by the EUTF Syria

**Figure 9** displays the Key Performance Indicators' (KPIs) achievement progress for Services category and sector. Overall, despite all projects currently being implemented, there are important variations in relation to their level of implementation. Health (163.6%), Protection (89.0%) and Local Development (73.3%) are the sectors with the highest level of execution.

On the contrary, WASH, despite being the second sector in terms of number of beneficiaries to be reached by EUTF Syria projects (971), is the sector with the lowest progress reported (2.5%), mainly due to the high target set. Access to Basic Education (3%) is the second sector with the lowest level of advancement.

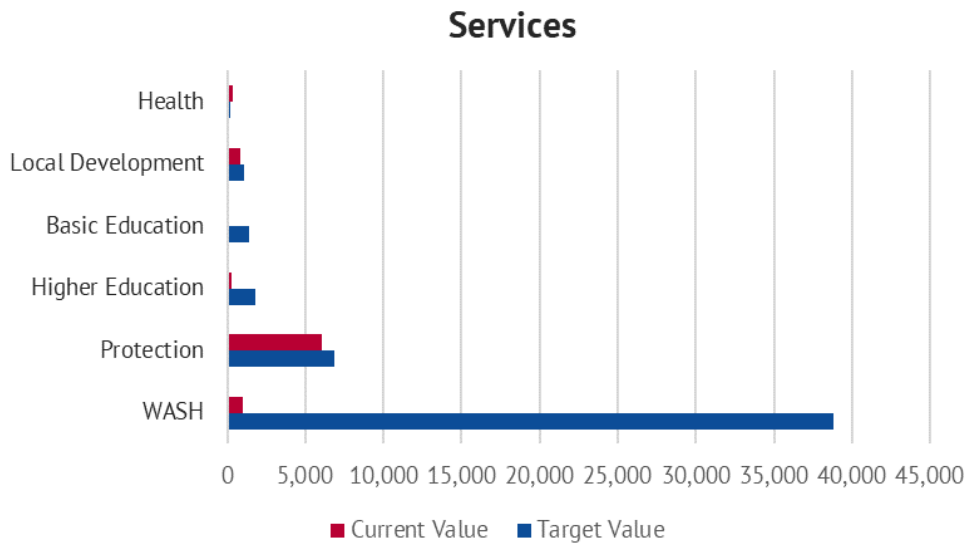

Figure 9: KPIs achievement progress for All Sectors (Services)

## OVERALL TRAFFIC LIGHT SCORE – ALL KPIs

### TL Score (progress level)

To date, the overall progress level is below 50%.

- 227 indicators report a level of progress below 50% of the target value.
- 33 indicators report a level of progress between 50%-75% of the target value.
- 135 indicators report a level of progress above 75% of the target value.
- 38 indicators haven't reported a specific progress level or information is not available.

Figure 10: Level of progress of all KPIs

## 4.3. Priority sectors overview<sup>2</sup>

### 4.3.1. Access to Basic Education

“

*Playing and learning together decreases the tensions that sometimes arise between Syrian refugee children and Lebanese children*

Lucia Castelli, Avsi, Lebanon

*With the right support, Lebanon offers a great opportunity to welcome Syrian children in their formal education system.*

The Back to the Future project brings Lebanese and Syrian refugees aged 3 to 14 back to school following an interruption in their education. Thanks to tailor-made literacy and numeracy courses, they stand a better chance of succeeding in Lebanese schools.

The project, financed by the EUTF Syria and implemented by War Child Holland, AVSI and Terres des Hommes in Lebanon, supports child refugees from both Lebanon and Syria and increases their future chances and opportunities.

Among the six priority sectors of intervention of the EUTF Syria, Access to Basic Education ranks 5<sup>th</sup> in total number of recipients targeted. The total number of target beneficiaries (target value) of this priority sector is **253,656**, (equivalent to 9.6% of the total), which breaks down as follows:

- **Individual beneficiaries:** 252,291 individuals/households
- **Services:** 1,365 organizations/facilities/institutions

<sup>2</sup> Only for KPIs

The following table shows the target set for each KPI related to the Individual beneficiaries' category under the Access to Basic Education sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of refugee and host community children attending early childhood education	N/A	N/A
Number of boys and girls whose registration fees for public formal education are subsidized, school year 2016/2017	89,351	35.4%
Number of children receiving school supplied	64,500	25.6%
Number of persons attending NFE as well as back-up classes and catch-up classes	27,099	10.7%
Number of children benefitting from learning support program, including remedial and homework support	25,475	10.1%
Number of Syrian refugee students receiving transportation services	14,150	5.6%
Number of educational personnel, including teachers, volunteers and administrative staff trained	9,640	3.8%
Number of children and adolescents referred to formal education including through the back to school campaign	9,160	3.6%
Number of children attending foreign language courses	5,416	2.1%
Number of girls and boys out of school provided with unconditional cash assistance as incentive for attendance in education services	4,500	1.8%
Number of Turkish and Syrian young children attending early childhood education (ECE) programmes	3,000	1.2%
<b>Total</b>	<b>252,291</b>	<b>100.0%</b>

**Table 7:** KPI's target value - Individual beneficiaries (Access to Basic Education sector)

As **Table 7** reveals, access to formal education and schooling (61.0%); followed by access to non-formal education schemes, including back-up and catch-up classes (10.7%); and learning support program and remedial and homework support activities (10.1%), are the main priorities of the Basic Education sector when considering the number of individuals & households targeted.

In terms of geographic distribution of the recipients to be benefitted by the EUTF Syria projects under the Basic Education sector, Lebanon clearly stands out in the EUTF-Syria region. With **59.4% of the target beneficiaries**, Lebanon gathers more than half of the total expected beneficiaries, followed by Turkey (31.5%) and Jordan (8.6%). To date, no beneficiaries are foreseen in either Egypt or Western Balkans.

Country	Target Value	Weight (%)
Lebanon	149,737	59.4%
Jordan	21,785	8.6%
Turkey	79,480	31.5%
Iraq/KRG	265	0.1%
Egypt	N/A	0.0%
Western Balkans	N/A	0.0%
Syria	1,024	0.4%
<b>Total</b>	<b>252,291</b>	<b>100.0%</b>

**Table 8:** Target value by country - Individual beneficiaries (Access to Basic Education sector)

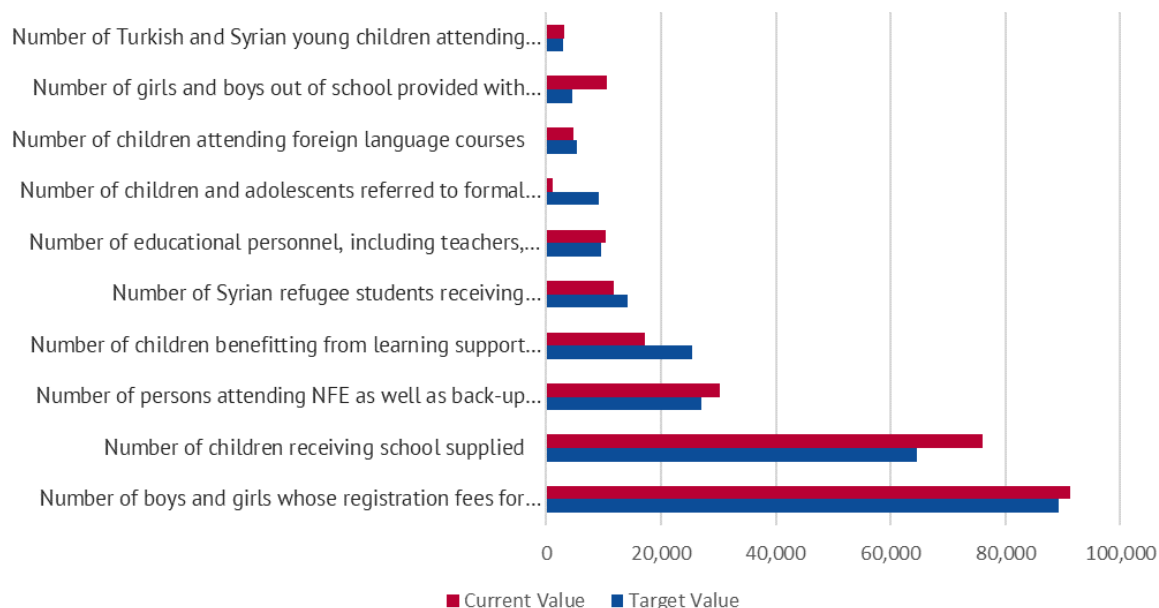

**Figure 11:** Geographic distribution of Individual beneficiaries targeted (Basic Education sector)

**Figure 12** presents the level of progress of the Key Performance Indicators associated to Individual beneficiaries under the Access to Basic Education sector versus their corresponding target. The graph clearly indicates good progress in the majority of the KPIs presented, with **6 out of the 11 KPIs associated to this priority sector exceeding the target set.**

Overall, the progress achieved under this target category and sector is **101.6%**. Indicators like ‘Number of girls and boys out of school provided with unconditional cash assistance as incentive for attendance in education services’ (236.0%), ‘Number of children receiving school supplies’ (117.8%), ‘Number of persons attending NFE as well as back-up classes and catch-up classes’ (111.4%) are the top performing indicators. The worst performing indicator is ‘Number of children and adolescents referred to formal education including through the back to school campaign’, with 13.2% of progress reported to date.

### KPIs - Individual Beneficiaries (Basic Education)

**Figure 12:** KPIs achievement progress – Individual beneficiaries (Access to Basic Education)

Altogether **1,365** organizations/institutions/facilities will benefit from the project outcomes reached under the Access to Basic Education Sector. Following, [Table 9](#) presents the targets set for each KPI related to the Services’ category under the Basic Education sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of existing schools upgraded in standards and equipped	1,210	88.6%
Number of new educational facilities constructed or rehabilitated	60	4.4%
Number of educational infrastructure accessible to refugee students and host communities with disabilities funded	55	4.0%
Percentage of key-implementation steps related to construction works completed	25	1.8%
Number of Educational facilities constructed, renovated or rehabilitated	15	1.1%
<b>Total</b>	<b>1,365</b>	<b>100.0%</b>

**Table 9:** KPI’s target value - Services (Access to Basic Education sector)

As can be seen in **Table 10**, 98.9% of the recipients targeted within the Services category under Access to Basic Education are, as in the case for Individual beneficiaries, located in three countries: Jordan, Turkey and Lebanon.

Country	Target Value	Weight (%)
Lebanon	53	3.9%
Jordan	1,215	89.0%
Turkey	82	6.0%
Iraq/KRG	15	1.1%
Egypt	N/A	0.0%
Western Balkans	N/A	0.0%
Syria	N/A	0.0%
<b>Total</b>	<b>1,365</b>	<b>100.0%</b>

**Table 10:** Target value by country - Services (Access to Basic Education sector)

**Figure 13** presents the level of progress of the Key Performance Indicators associated to Services under the Access to Basic Education sector versus their corresponding target. In this target, the graph shows a very discrete level of progress, with only one KPI ('Percentage of key-implementation steps related to construction works completed', with 104.0% improvement ratio) exceeding its defined target, and the remaining ones clearly staying behind their corresponding goals.

The overall progress achieved under this target category and sector is 3.0%. Two indicators are currently having no recipients reached ('Number of existing schools upgraded in standards and equipped' and 'Number of educational infrastructure accessible to refugee students and host communities with disabilities funded').

### KPIs - Services (Basic Education)

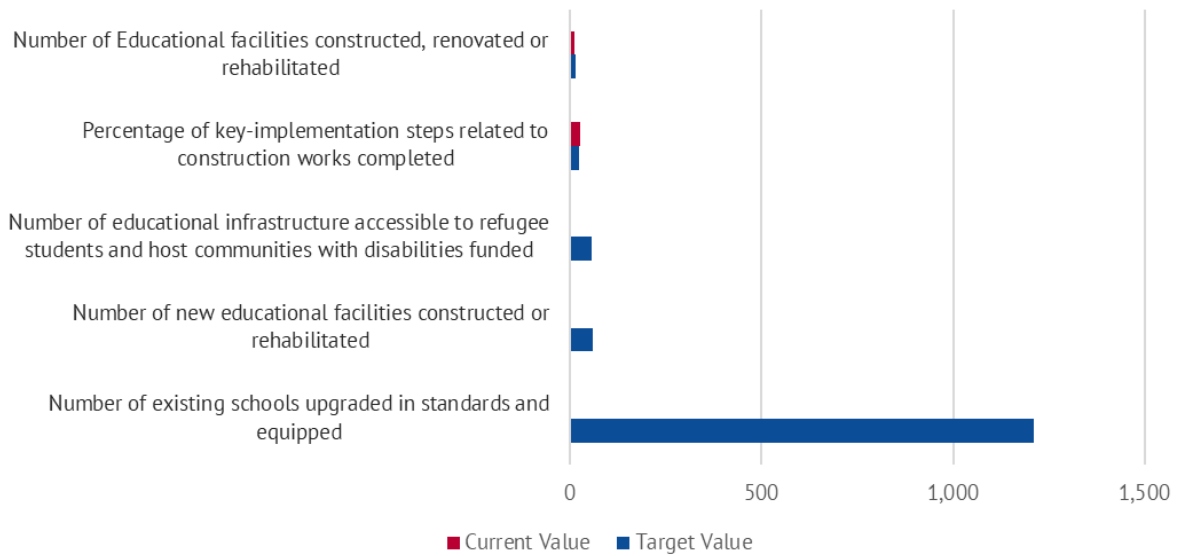

Figure 13: KPIs achievement progress – Services (Access to Basic Education)

### OVERALL TRAFFIC LIGHT SCORE – ACCESS TO BASIC EDUCATION

#### TL Score (progress level)

To date, the overall progress level is above 60%.

- 30 indicators report a level of progress below 50% of the target value.
- 8 indicators report a level of progress between 50%-75% of the target value.
- 32 indicators report a level of progress above 75% of the target value.
- 4 indicators haven't reported a specific progress level or information is not available.

Figure 14: Level of progress of Access to Basic Education-related KPIs

## 4.3.2. Access to Higher and Further Education

“

*Today, students realize that education is the only weapon a person should use to take control and many of them are continuing their education. I consider this as an achievement for myself during my life here as a refugee.*

**Mohamed Khalid Al Deiri,**  
Zaatari camp, Jordan

*Mohamed started volunteering via the Syrian Youth Committee. With his help, they built the first public library at the camp.*

*“[After building the first public library at the camp] my ambitions and ideas were revived. I started thinking of resuming my studies. First, I received a DAFI scholarship and finished my bachelor at Al-Beit University. I was the first Syrian living in Zaatari to graduate from a Jordanian university. I became a role model to the young people in the camp and outside.*

*Now I am studying for a master’s degree via HOPES; specializing in public curriculums at the College of Education. My father passed away in 2014. His will before he died was: “continue your education”. This was his message to me. I don’t want to stop at the master’s degree. God willing, I will continue for a PhD and to become a professor.”*

The HOPES project provides students from Syria and host communities with access to further and higher education in neighbouring countries. It is funded by the EUTF Syria and implemented by DAAD, Campus France, Nuffic and the British Council.

Among the six priority intervention sectors of the EUTF Syria, Access to Higher and Further Education ranks 6<sup>th</sup> in total number of recipients targeted. The total number of target beneficiaries (target value) of this priority sector is **31,573** (equivalent to 1.2% of the total), which breaks down as follows:

- **Individual beneficiaries:** 29,790 individuals/households
- **Services:** 1,783 organizations/facilities/institutions

The following table shows the targets set for each KPI related to the Individual beneficiaries' category under the Access to Higher and Further Education sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of Higher Education certificates awarded	1,000	3.4%
Number of Syrian refugee students receiving higher education scholarship	3,072	10.3%
Number of Syrian refugees and host communities participating in employability, vocational and entrepreneurial skills training programme	3,565	12.0%
Number of youth and adolescents accessing vocational training	9,977	33.5%
Number of youth, adolescents and adults accessing higher education	12,176	40.9%
<b>Total</b>	<b>29,790</b>	<b>100.0%</b>

**Table 11:** KPI's target value - Individual beneficiaries (Access to Higher and Further Education sector)

As **Table 11** reveals that access to formal higher education schooling (40.9%) and access to vocational training (33.5%) are the main priorities of the Higher Education sector, when considering the number of individuals & households targeted.

In terms of beneficiaries' geographic distribution, over 40% of the recipients are located in Turkey (43.4%), while slightly more than half of the expected beneficiaries is fairly evenly allocated among Egypt, Jordan, Syria and Lebanon. The Western Balkans show no expected individual beneficiaries under this target category and sector.

Country	Target Value	Weight (%)
Lebanon	3,540	11.9%
Jordan	4,011	13.5%
Turkey	12,920	43.4%
Iraq/KRG	833	2.8%
Egypt	4,486	15.1%
Western Balkans	N/A	0.0%
Syria	4,000	13.4%
<b>Total</b>	<b>29,790</b>	<b>100.0%</b>

**Table 12:** Target value by country - Individual beneficiaries (Access to Higher and Further Education sector)

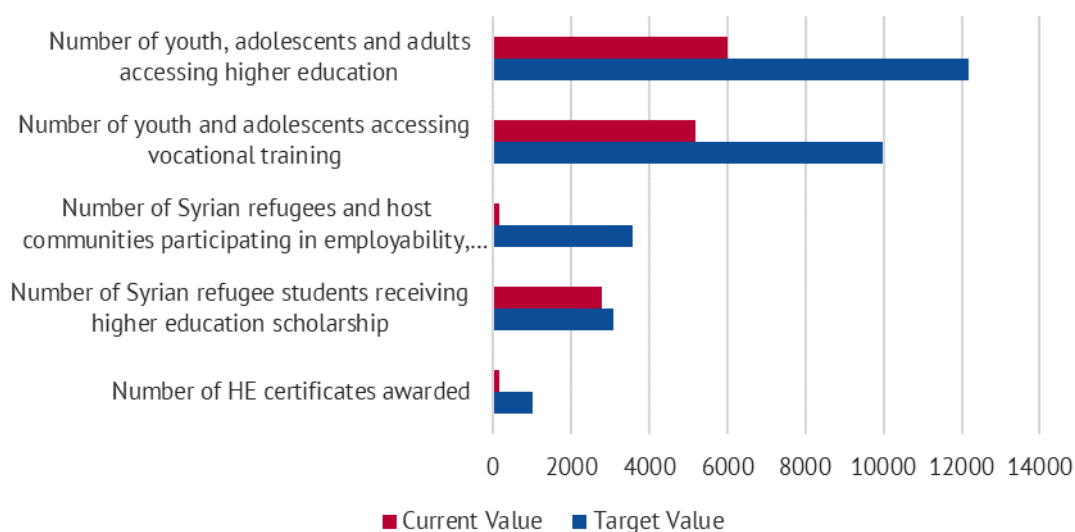

**Figure 15:** Geographic distribution of Individual beneficiaries targeted (Access to H. and F. Education sector)

Figure 16 displays how all KPIs falling under the Higher Education sector and targeting individuals & households are currently on progress, with an overall level of advancement of 47.8%. The 'Number of Syrian refugee students receiving higher education scholarship' is

the indicator presenting the highest progress, currently close to reaching its target (90.4%). The indicators related to vocational training and access to Higher Education present a similar level of evolution, half-way through to meeting their targets (51.8% and 49.4% respectively). The ‘Number of Syrian refugees and host communities participating in employability, vocational and entrepreneurial skills training programme’ is the indicator that needs to receive most attention, with only 3.8% of advancement reached to date.

### KPIs - Individual Beneficiaries (Higher Education)

**Figure 16:** KPIs achievement progress – Individual beneficiaries (Access to Higher and F. Education sector)

Under the Higher Education priority sector, a total of **1,783** organizations, institutions and facilities are expected to be benefitted by EUTF Syria projects in the EUTF-Syria region. [Table 13](#) presents a breakdown of the targets set for each KPI related to this target category and sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of Higher Education certificates awarded	1,648	92.4%
Number of Higher Education projects financed through CfP	72	4.0%
Number of communication tools, including dissemination plan and promotional campaigns implemented	30	1.7%
Number of national stakeholder dialogues on Higher Education having taken place	20	1.1%
Number of partner institutions (universities / language centers) committed to the Higher Education programme for refugees	13	0.7%
Number of eligible Higher Education programmes identified	N/A	0.0%
<b>Total</b>	<b>1,783</b>	<b>100.0%</b>

**Table 13:** KPI's target value - Services (Access to Higher and Further Education sector)

'Number of Higher Education certificates awarded' proves to be the single top priority among all KPIs falling under the Services category. This KPI alone **represents over 92% of the beneficiaries** to be addressed under the Services category.

Geographically speaking, Lebanon and Turkey are taking up over 75% of the services to be provided under Higher Education sector, followed by Iraq (17.8%). Comparatively, Jordan, Egypt and Syria receive lower target values, altogether representing 6.7% of the remaining expected beneficiaries to be addressed.

Country	Target Value	Weight (%)
Lebanon	715	40.1%
Jordan	45	2.5%
Turkey	631	35.4%
Iraq/KRG	318	17.8%
Egypt	69	3.9%
Western Balkans	N/A	0.0%
Syria	5	0.3%
<b>Total</b>	<b>1,783</b>	<b>100.0%</b>

**Table 14:** Target value by country - Services (Access to Higher and Further Education sector)

In terms of progress achieved by each of the KPIs associated to Services, **Figure 17** showcases timid overall progress, **with 13.5% of the planned advancement reached**. This is explained due to low progress in ‘Number of HE certificates awarded’, which is the KPI that receives the largest stake of beneficiaries in this category and shows the least progress (3.6%). In contrast, the average level of advancement reported by the remaining KPIs is 47.3%. ‘Number of eligible Higher Education programmes identified’, a KPI with no initial target value set represents the single largest absolute value in the category and sector (117 services received).

### KPIs - Services (Higher Education)

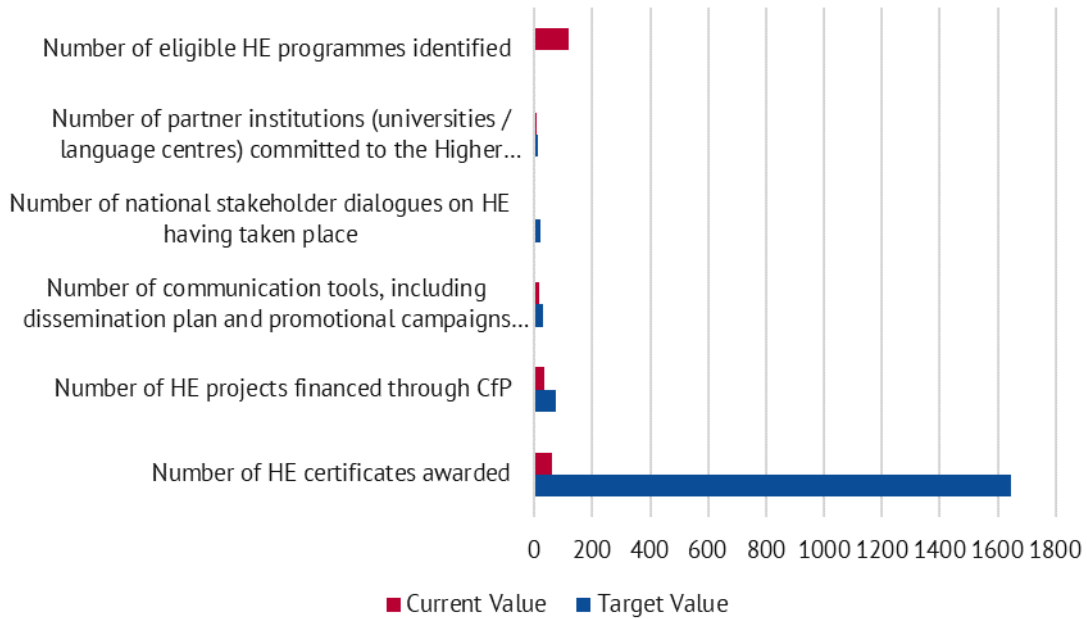

Figure 17: KPIs achievement progress – Services (Access to Higher and Further Education sector)

### OVERALL TRAFFIC LIGHT SCORE – ACCESS TO H. & F. EDUCATION

#### TL Score (progress level)

To date, the overall progress level is above 60%.

- 58 indicators report a level of progress below 50% of the target value.
- 15 indicators report a level of progress between 50%-75% of the target value.
- 54 indicators report a level of progress above 75% of the target value.
- 7 indicators haven't reported a specific progress level or information is not available.

Figure 18: Level of progress of Access to Higher and Further Education-related KPIs

### 4.3.3. Access to Health Services

“

*I became very happy and I want to thank those who established this unit. This unit is specialized for babies like mine, thank you very much.*

**Shereen Ali, Dahuk, Iraqi Kurdistan region**

*Shereen holds her daughter in her arms for the first time in the emergency neonatal care unit at the Dohuk Hospital*

Shereen Ali, from Simele, lives in an IDP camp. Six months into her pregnancy she suffered complications and had to undergo emergency surgery. Her baby girl was only weighing 500 grams at birth with little chances of survival. The child was admitted to the emergency neonatal care unit at the Dohuk Hospital. Now, two months later, the little girl weighs over two kilos and is on her way to recovery.

This project, run by AISPO and supported by the EUTF Syria, improves access to emergency healthcare services, maternal and child healthcare for Syrian refugees, internally displaced persons and the local population. This project also brought new technologies and new standard operation procedures to these hospitals. Training Iraqi Kurdistan doctors and nurses has changed the lives of both patients and medical staff.

Among the six priority sectors of intervention of the EUTF Syria, Access to Health Services ranks 1<sup>st</sup> in total number of recipients targeted. The total number of target beneficiaries (target value) of this priority sector is **1,116,394** (equivalent to 42.4% of the total), which breaks down as follows:

- **Individual beneficiaries:** 1,116,185 individuals/households
- **Services:** 209 organizations/facilities/institutions

The following table shows the targets set for each KPI related to the Individual beneficiaries' category under the Access to Health Services sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of primary health care consultations conducted with refugees and host communities	425,326	38.1%
Number of vulnerable beneficiaries provided with medical examinations and essential medicines	348,134	31.2%
Number of people reached through health education activities	217,561	19.5%
Number of professional staff trained in primary, secondary and tertiary health care services	71,385	6.4%
Number of vaccination visits for children under 5 years	30,447	2.7%
Number of pregnant women receiving 4 or more antenatal consultations	20,723	1.9%
Number of women attending at least one postnatal care visit at the supported health facilities	2,479	0.2%
Number of Primary Health Care Centers refurbished or equipped	81	0.0%
Number of existing hospital facilities rehabilitated or upgraded in standards	48	0.0%
Number of cases treated in emergency services	N/A	0.0%
<b>Total</b>	<b>1,116,184</b>	<b>100.0%</b>

**Table 15:** KPI's target value - Individual beneficiaries (Access to Health Services sector)

As **Table 15** reflects the top 3 priorities under the Health priority sector, as defined by the number of beneficiaries (individuals and households) to be reached -covering almost 90% of the overall target value-, are:

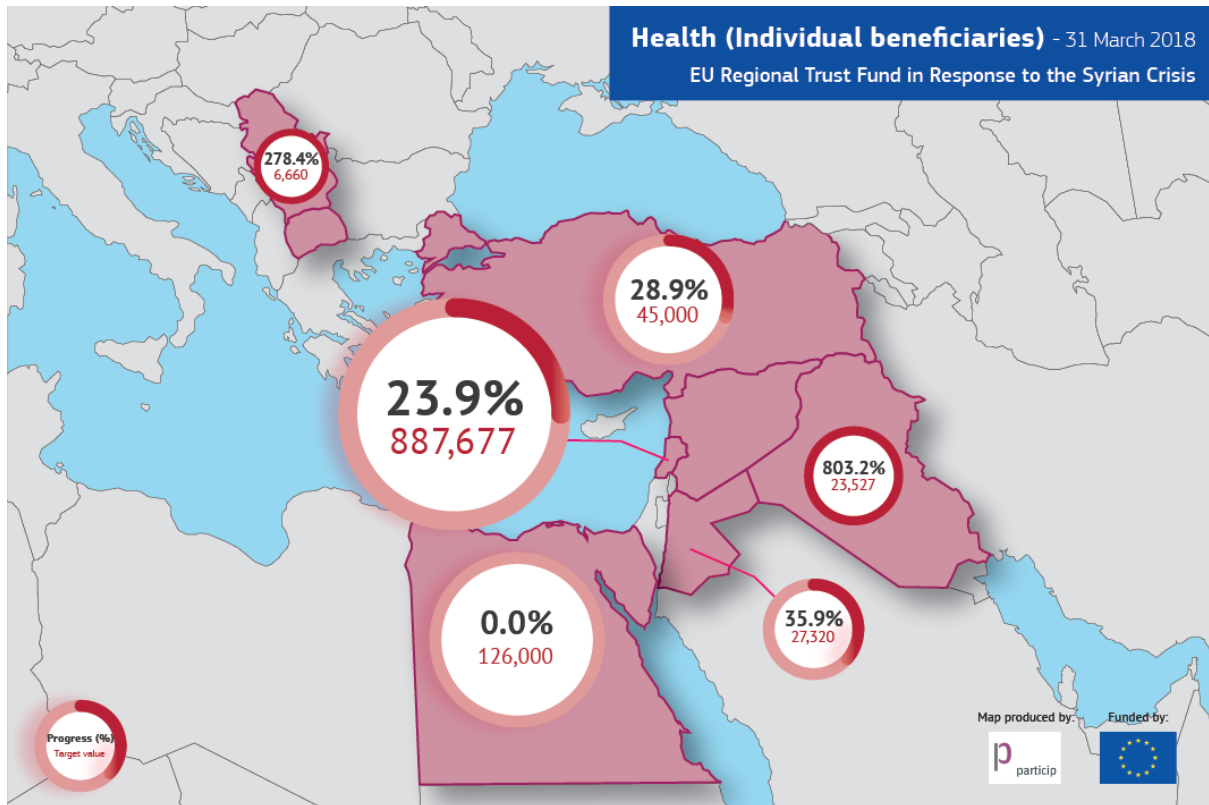

- 'Number of primary health care consultations conducted with refugees and host communities' (representing 38.1% of the overall target value).
- 'Number of Vulnerable beneficiaries provided with medical examinations and essential medicines' (representing 31.2% of the overall target value).

- ‘Number of people reached through health education activities’ (representing 19.5% of the overall target value).

In terms of beneficiaries’ geographic distribution, over 90% of the expected recipients are located in Lebanon (79.5%) and Egypt (11.3%), with over a million individuals and households to be benefitted by EUTF Syria projects. Around a hundred thousand beneficiaries are also to be reached in Turkey (4% of the total), Jordan (2.4%), Iraq (2.1%) and Western Balkans (0.6%). No target has been set for Syria at the time of writing.

Country	Target Value	Weight (%)
Lebanon	887,677	79.5%
Jordan	27,320	2.4%
Turkey	45,000	4.0%
Iraq/KRG	23,527	2.1%
Egypt	126,000	11.3%
Western Balkans	6,660	0.6%
Syria	0	0.0%
<b>Total</b>	<b>1,116,184</b>	<b>100.0%</b>

**Table 16:** Target value by country - Individual beneficiaries (Access to Health Services sector)

**Figure 19:** Geographic distribution of Individual beneficiaries targeted (Access to Health Services sector)

In terms of progress achieved by each one of the KPIs associated to Individual beneficiaries, **Figure 20** showcases an overall progress of 39.6% against the planned targets, specially led by the ‘Number of primary health care consultations conducted with refugees and host communities’ indicator, which represents over 54% of the beneficiaries reached by ongoing projects, with a progress of 56.8%. The only indicator that shows no progress reported is ‘Number of existing hospital facilities rehabilitated or upgraded in standards’. The remaining indicators show a level of advancement that ranges from 16-71%.

## KPIs - Individual Beneficiaries (Health)

Figure 20: KPIs achievement progress – Individual beneficiaries (Access to Health Services sector)

Under the Health priority sector, a total of **209** organizations, institutions and facilities are expected to be benefitted by the EUTF Syria projects in the region. **Table 17** presents a breakdown of the targets set for each KPI related to this target category and sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of existing hospital facilities rehabilitated or upgraded in standards	95	45.5%
Number of beds increased in targeted paediatric hospitals	50	23.9%
Number of Primary Health Care Centers refurbished or equipped	50	23.9%
Number of mobile clinics and ambulances procured	6	2.9%
Number of health projects	5	2.4%
Number of dedicated operating theatres built	3	1.4%
<b>Total</b>	<b>209</b>	<b>100.0%</b>

Table 17: KPI's target value – Services (Access to Health Services sector)

As **Table 17** showcases, top 3 priorities under the Health priority sector, as defined by the number of services to be provided -covering over 93% of the overall target value-, are:

- ‘Number of existing hospital facilities rehabilitated or upgraded in standards’ (representing 45.5% of the overall target value).
- ‘Number of beds increased in targeted paediatric hospitals’ (representing 23.9% of the overall target value).
- ‘Number of Primary Health Care Centres refurbished or equipped’ (representing 23.9% of the overall target value).

In regards to the geographic distribution, only two countries are tackled on the Services target category and Health priority sector: Iraq (94.7% of the total value) and Western Balkans (5.3%).

Country	Target Value	Weight (%)
Lebanon	N/A	0.0%
Jordan	N/A	0.0%
Turkey	N/A	0.0%
Iraq/KRG	198	94.7%
Egypt	N/A	0.0%
Western Balkans	11	5.3%
Syria	N/A	0.0%
<b>Total</b>	<b>209</b>	<b>100.0%</b>

**Table 18:** Target value by country - Services (Access to Health Services sector)

In terms of progress achieved by each one of the KPIs associated to Services, **Figure 21** displays **an overall progress of 163.6%**, clearly surpassing the global expected target. This is largely a consequence of the exceedance in the accomplishment of the indicator ‘Number of beds increased in targeted paediatric hospitals’, which shows 5.5 times more progress than initially set. Two indicators show no progress (‘Number of mobile clinics and ambulances

procured’ and ‘Number of health projects’), whereas the remaining indicators are well on track its achievement with an average advancement ratio around 51.4%.

### KPIs - Services (Health)

Figure 21: KPIs achievement progress – Services (Access to Health Services sector)

## OVERALL TRAFFIC LIGHT SCORE – ACCESS TO HEALTH SERVICES

### TL Score (progress level)

To date, the overall progress level is below 45%.

- 35 indicators report a level of progress below 50% of the target value.
- 5 indicators report a level of progress between 50%-75% of the target value.
- 11 indicators report a level of progress above 75% of the target value.
- 10 indicators haven't reported a specific progress level or information is not available.

Figure 22: Level of progress of Access to Health Services-related KPIs

### 4.3.4. Resilience and Local Development

“

*I want to help people who are really in need. I wouldn't give them money. No, I wouldn't do that. I would give them a job and then they will make money in return.*

**Sahar Al-Salman, Al-Ramtha, Jordan**

*Thanks to the EUTF Syria LEADERS project, Sahar Al-Salman recently managed to expand her catering services.*

The LEADERS project not only provided the cooperative society with financial support, but also courses on topics such as marketing and financial management. This has resulted in a very dynamic business, with a kitchen that produces different sorts of foods that are sold and distributed locally. Each member contributes and will enjoy a part of the profits by the end of the year.

The LEADERS project promotes inclusive local economic empowerment and development towards resilience and social stability in Jordan and Lebanon. It is funded by the EUTF Syria and implemented by the Danish Refugee Council (DRC), ACTED, CARE FR, Save the Children, OXFAM and the Makhzoumi Foundation.

Among the six priority sectors of intervention of the EUTF Syria, Resilience and Local Development **ranks 2<sup>nd</sup>** in total number of recipients targeted. The total number of target beneficiaries (target value) of this priority sector is **555,815** (equivalent to 21.1% of the total), which breaks down as follows:

- **Individual beneficiaries:** 554,719 individuals/households
- **Services:** 1,096 organizations/facilities/institutions

The following table shows the targets set for each KPI related to the Individual beneficiaries' category under the Resilience and Local Development sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of young Syrian refugees and host community benefiting from peer information and outreach activities, including provided by youth leaders	133,100	24.0%
Number of municipalities benefiting from improved infrastructure and services	130,000	23.4%
Number of workmen days created for women, men and youths	55,500	10.0%
Number of Syrian refugees and host communities participating in employability, vocational and entrepreneurial skills training programme	50,300	9.1%
Number of Individuals and families received cash assistance	45,677	8.2%
Number of young Syrian refugees and host communities participating in extracurricular cultural and sports activities	40,710	7.3%
Number of direct beneficiaries targeted by community development projects	31,545	5.7%
Number of youth, boys and girls directly participating or benefitting indirectly from peace building activities.	22,380	4.0%
Cash Assistance	13,777	2.5%
Number of community members involved in social cohesion activities	11,000	2.0%
Number of children benefitting from recreational activities	10,402	1.9%
Number of employment days generated through economic infrastructure and service delivery projects	4,800	0.9%
Number of men, women and youths benefitting from rapid employment schemes	3,770	0.7%
Number of Vulnerable community members reporting increased access to income generating opportunities	1,240	0.2%
Number of refugees and community members involved in assessment, planning and implementation of community development projects	500	0.1%

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of active community centres in target areas	10	0.0%
Number of dialogue tables and working groups held and 8 attended by community, private sector and government stakeholders	8	0.0%
<b>Total</b>	<b>554,719</b>	<b>100.0%</b>

**Table 19:** KPI's target value - Individual beneficiaries (Resilience and Local Development sector)

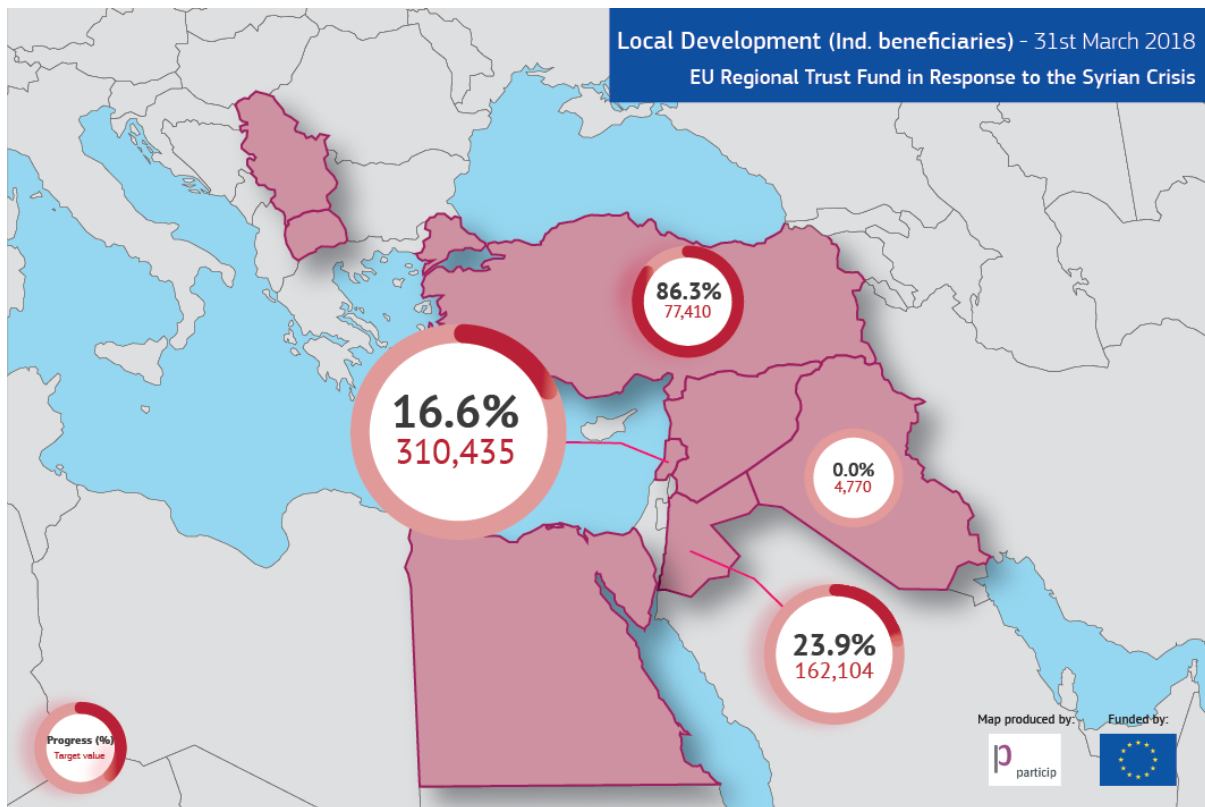

As **Table 19** reflects, five indicators cover almost 75% of the overall target value, as defined by the number of beneficiaries (individuals and households) to be benefitted:

- 'Number of young Syrian refugees and host community benefiting from peer information and outreach activities, including provided by youth leaders' (representing 24.0% of the overall target value).
- 'Number of municipalities benefiting from improved infrastructure and services' (representing 23.4% of the overall target value).
- 'Number of workmen days created for women, men and youths' (representing 10.0% of the overall target value).
- 'Number of Syrian refugees and host communities participating in employability, vocational and entrepreneurial skills training programme' (representing 9.1% of the overall target value).
- 'Number of Individuals and families received cash assistance' (representing 8.2% of the overall target value).

In terms of beneficiaries' geographic distribution, over 99% of the expected recipients are located in Lebanon (56.0%), Jordan (29.2%) and Turkey (14.0%), with over half a million individuals and households to be benefitted by EUTF projects. No targets have been set for Egypt, Western Balkans and Syria at the time of writing.

Country	Target Value	Weight (%)
Lebanon	310,435	56.0%
Jordan	162,104	29.2%
Turkey	77,410	14.0%
Iraq/KRG	4,770	0.9%
Egypt	0	0.0%
Western Balkans	0	0.0%
Syria	0	0.0%
<b>Total</b>	<b>554,719</b>	<b>100.0%</b>

**Table 20:** Target value by country - Individual beneficiaries (Resilience and Local Development sector)

**Figure 23:** Geographic distribution of Individual beneficiaries targeted (Resilience and L. Development sector)

In terms of progress achieved by each one of the KPIs associated to Individual beneficiaries, **Figure 24** showcases an overall progress of 28.3% against planned targets, with four

indicators overachieving their corresponding targets and six KPIs not having initiated activity. The indicator that shows the highest absolute value is ‘Number of young Syrian refugees and host community benefiting from peer information and outreach activities, including those provided by youth leaders’, with a level of progress of 50.2%.

### KPIs - Individual Beneficiaries (Resilience & Local Development)

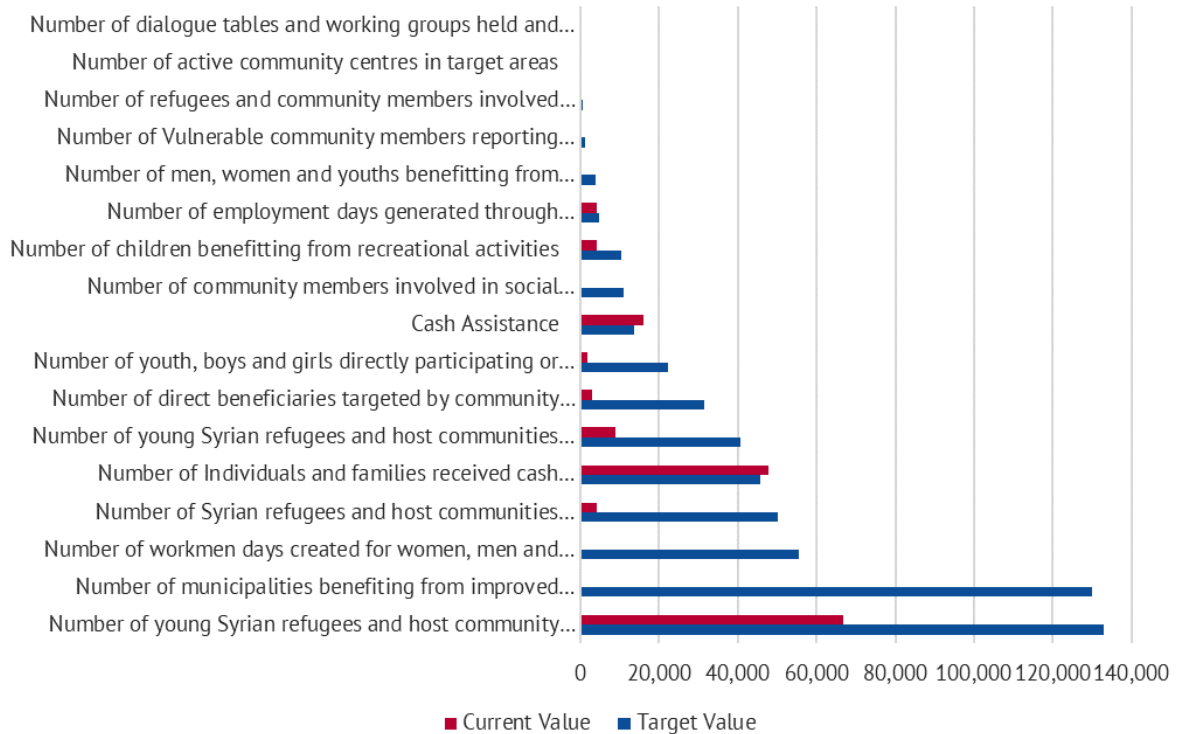

Figure 24: KPIs achievement progress – Individual beneficiaries (Resilience and Local Development sector)

Under the Resilience and Local Development priority sector, a total of **1,096** organizations, institutions and facilities are expected to be benefitted by the EUTF projects in the region. **Table 21** presents a breakdown of the targets set for each KPI related to this target category and sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of MSMEs identified and trained	750	68.4%
Number of community support projects implemented	142	13.0%
Number of dialogue tables and working groups held and attended by community, private sector and government stakeholders	93	8.5%
Number of municipalities benefiting from improved infrastructure and services	73	6.7%
Number of facilities and organisations capacitated to provide social cohesion activities	22	2.0%
Number of active community centres in target areas	8	0.7%
Number of policy recommendation for support to farmer/entrepreneur investment	8	0.7%
<b>Total</b>	<b>1,096</b>	<b>100.0%</b>

**Table 21:** KPI's target value - Services (Resilience and Local Development sector)

As the previous table reflects, two priorities stand out from the set of KPIs under the Resilience and Local Development priority sector, in terms of number of services to be provided -covering over 81% of the overall target value-. These are:

- Number of MSMEs identified and trained (representing 68.4% of the overall target value).
- Number of community support projects implemented (representing 13.0% of the overall target value).

In regards to the geographic distribution, three countries are concentrating over 98% of the beneficiaries of Services target category: Jordan (44.8% of the total value), Lebanon (39.8%) and Iraq/KRG (13.8%).

Country	Target Value	Weight (%)
Lebanon	436	39.8%
Jordan	491	44.8%
Turkey	18	1.6%
Iraq/KRG	151	13.8%
Egypt	0	0.0%
Western Balkans	0	0.0%
Syria	0	0.0%
<b>Total</b>	<b>1,096</b>	<b>100.0%</b>

**Table 22:** Target value by country - Services (Resilience and Local Development sector)

In terms of progress achieved by each one of the KPIs associated to Services, **Figure 25** displays **an advanced overall progress of the target category (73.3%)**. This is because of the good level of progress reported in two indicators ‘Number of MSMEs identified and trained’ (85.7%) and ‘Number of dialogue tables and working groups held and attended by community, private sector and government stakeholders’ (100.0%). The KPI ‘Number of policy recommendation for support to farmer/entrepreneur investment’ is clearly exceeding its set target (262.5%) while ‘Number of municipalities benefiting from improved infrastructure and services’ hasn’t started activity yet.

### KPIs - Services (Resilience & Local Development)

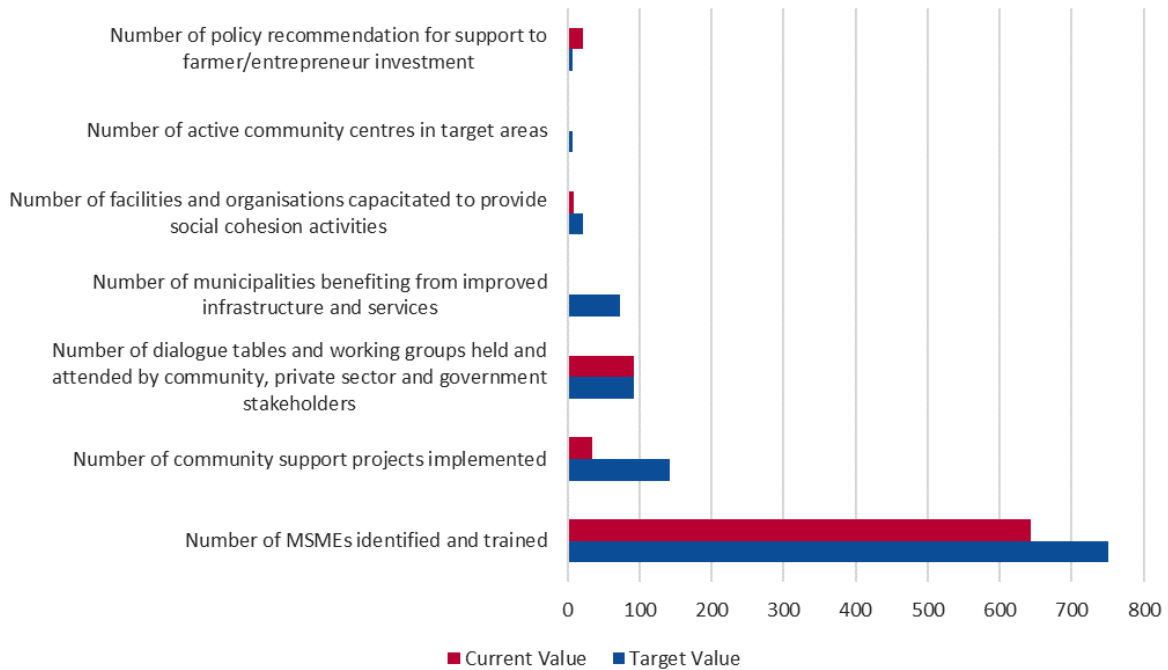

Figure 25: KPIs achievement progress – Services (Resilience and Local Development sector)

### OVERALL TRAFFIC LIGHT SCORE – RESILIENCE & LOCAL DEVELOPMENT

#### TL Score (progress level)

To date, the overall progress level is below 45%.

- 45 indicators report a level of progress below 50% of the target value.
- 1 indicator reports a level of progress between 50%-75% of the target value.
- 20 indicators report a level of progress above 75% of the target value.
- 8 indicators haven't reported a specific progress level or information is not available.

Figure 26: Level of progress of Resilience and Local Development-related KPIs

### 4.3.5. Access to WASH Services

“

*Now that we are connected to the water and we have a meter installed, we won't have to struggle with the hose anymore.*

**Amsha Dhamen,  
Tamnine el Tahta, Lebanon**

*A project funded by the EUTF Syria is helping Amsha to obtain access to reliable and sustainable water services.*

Amsha Dhamen lives in Tamnine el Tahta, Lebanon, with her husband and son, who are both disabled. Daily life is hard and, until recently, it was made even harder due to her weekly struggle to access water.

*“We used to get our water from the water tanks, which are located on the rooftop,” Amsha says. “They needed to be refilled every five days in summer, less so in winter. Each time, we paid around 25.000 Lebanese pounds (€15). “It was such a painful procedure... First, we had to walk all the way to the man who brought us water. When he came, we put the hose on the rooftop, where the water tanks were. Someone had to stay down below, someone stayed on top and another person stood next to the water tank and we passed the hose to each other. In winter, when there was snow and ice, we suffered a lot.”*

A project funded by the EUTF Syria and implemented by the Italian NGO GVC addresses these problems by helping refugees and their host communities obtain access to reliable and sustainable water services.

Among the six priority sectors of intervention of the EUTF Syria, Access to WASH Services ranks 4<sup>th</sup> in total number of recipients targeted. The total number of target beneficiaries (target value) of this priority sector is **313,049** (equivalent to 11.9% of the total), which breaks down as follows:

- **Individual beneficiaries:** 274,241 individuals/households
- **Services:** 38,808 organizations/facilities/institutions

The following table shows the targets set for each KPI related to the Individual beneficiaries' category under the Access to WASH Services sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of beneficiaries who have experienced a hygiene promotion session	161,240	58.8%
Number of HHs Connected	7,000	2.6%
Number of individuals having access to safe water	98,000	35.7%
Number of individuals reached with outreach, information campaigns and awareness sessions	8,000	2.9%
<b>Total</b>	<b>274,240</b>	<b>100.0%</b>

**Table 23:** KPI's target value - Individual beneficiaries (Access to WASH services sector)

As **Table 23** reflects, top 2 indicators (out of a total of 4), covering 94.5% of the overall target value, as defined by the number of beneficiaries (individuals and households) to be benefitted are:

- 'Number of beneficiaries who have experienced a hygiene promotion session' (representing 58.8% of the overall target value).
- 'Number of individuals having access to safe water' (representing 35.4% of the overall target value).

In terms of beneficiaries' geographic distribution, more than half of the expected recipients are located in Lebanon (57.0%), while the remaining target beneficiaries are distributed in three countries: Jordan (21.8%), Turkey (16.4%) and Iraq/KRG (4.7%). No targets have been set for Egypt, Western Balkans and Syria at the time of writing.

Country	Target Value	Weight (%)
Lebanon	156,440	57.0%
Jordan	59,800	21.8%
Turkey	45,000	16.4%
Iraq/KRG	13,000	4.7%
Egypt	0	0.0%
Western Balkans	0	0.0%
Syria	0	0.0%
<b>Total</b>	<b>274,240</b>	<b>100.0%</b>

Table 24: Target value by country - Individual beneficiaries (Access to WASH services sector)

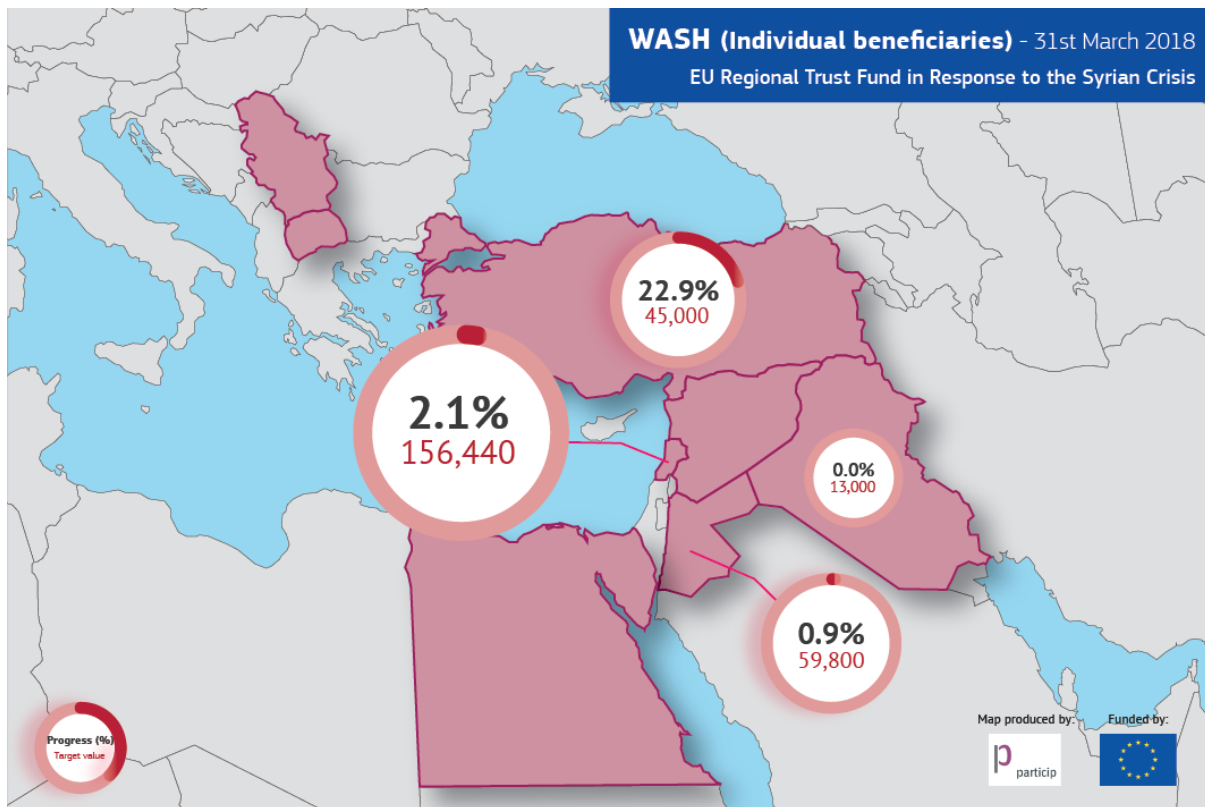

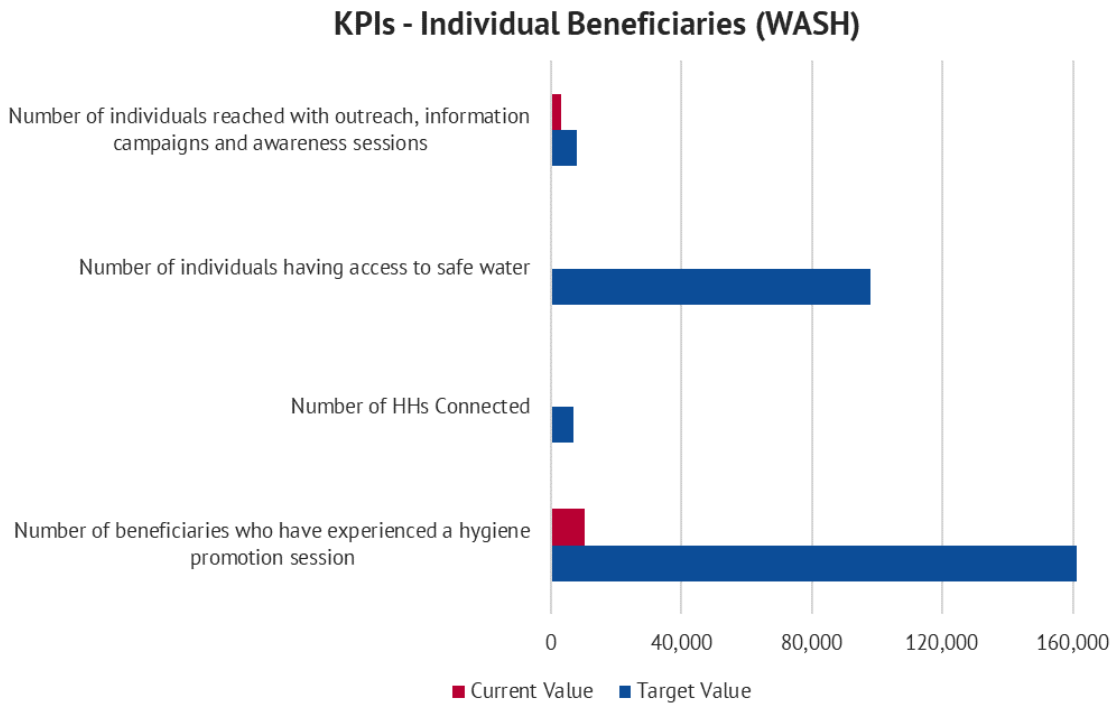

Figure 27: Geographic distribution of Individual beneficiaries targeted (Access to WASH services sector)

In terms of progress achieved by each one of the KPIs associated to Individual beneficiaries, Figure 28 showcases a timid overall progress of 5.1% against the targets set, with only two of the four indicators having initiated operations. The indicator that shows the highest level

of progress is ‘Number of individuals reached with outreach, information campaigns and awareness sessions’, with 40.5% of advancement. The remaining indicator, ‘Number of beneficiaries who have experienced a hygiene promotion session’, reports a progress of 6.4% against target.

**Figure 28:** KPIs achievement progress – Individual beneficiaries (Access to WASH services sector)

Under the WASH priority sector, a total of **38,808** organizations, institutions and facilities are expected to be benefitted by the EUTF projects in the region. [Table 25](#) presents a breakdown of the targets set for each KPI related to this target category and sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Mt of transmission and distribution lines installed	38,661	99.6%
Number of beneficiaries who have experienced a hygiene promotion session	21	0.1%
Number of facilities constructed	14	0.0%
Number of facilities rehabilitated and operational	112	0.3%
<b>Total</b>	<b>38,808</b>	<b>100.0%</b>

**Table 25:** KPI's target value - Services (Access to WASH services sector)

As the previous table highlights, one indicator, 'Mt of transmission and distribution lines installed' practically covers the entire overall target value, with 99.6% of the beneficiaries targeted.

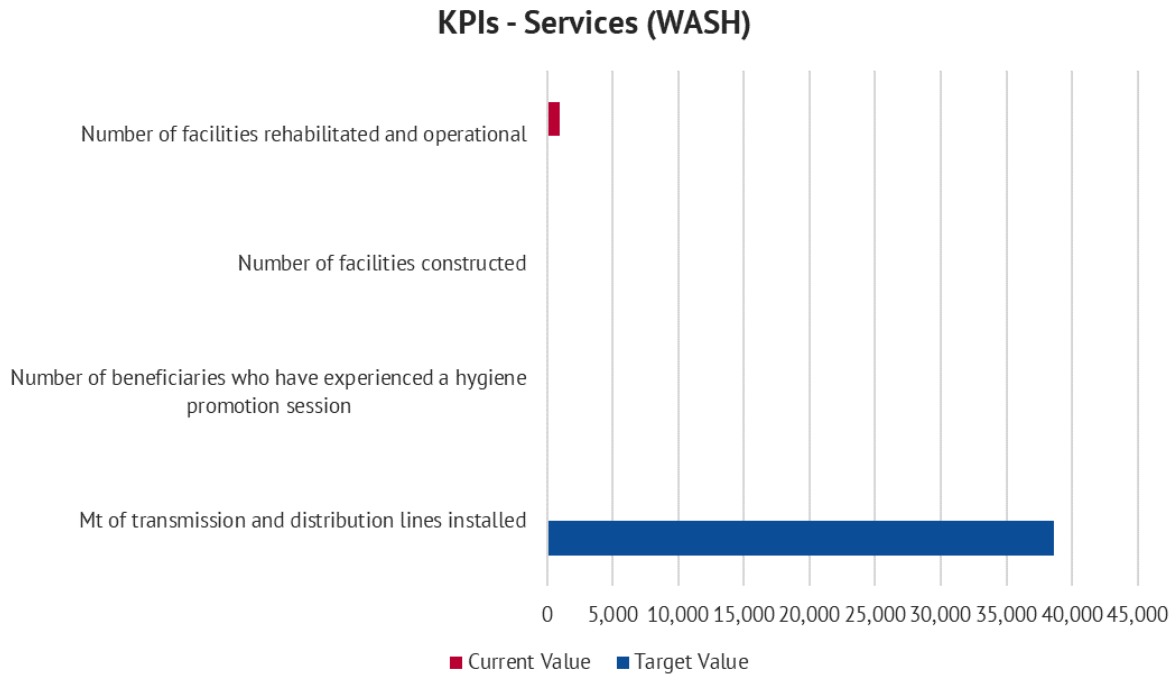

In regards to the geographic distribution, the activities falling under this target category also concentrate mainly in one country (Lebanon), where 99.7% of the recipients are located. Barely a hundred beneficiaries (0.3%), and seven are located in Jordan and Western Balkans respectively.

Country	Target Value	Weight (%)
Lebanon	38,702	99.7%
Jordan	99	0.3%
Turkey	0	0.0%
Iraq/KRG	0	0.0%
Egypt	0	0.0%
Western Balkans	7	0.0%
Syria	0	0.0%
<b>Total</b>	<b>38,808</b>	<b>100.0%</b>

**Table 26:** Target value by country - Services (Access to WASH services sector)

In terms of progress achieved by each one of the KPIs associated to Services, **Figure 29** displays an almost negligible overall progress of the target category (2.5%). The only

indicator that presents activity is ‘Number of facilities rehabilitated and operational’, which overachieves its defined goal by almost 9 times.

**Figure 29:** KPIs achievement progress – Services (Access to WASH services sector)

## OVERALL TRAFFIC LIGHT SCORE – ACCESS TO WASH SERVICES

### TL Score (progress level)

To date, the overall progress level is below 25%.

- **20 indicators** report a level of progress below 50% of the target value.
- **No indicators** report a level of progress between 50%-75% of the target value.
- **No indicators** report a level of progress above 75% of the target value.
- **5 indicators** haven't reported a specific progress level or information is not available.

**Figure 30:** Level of progress of Access to WASH Services-related KPIs

## 4.3.6. Protection

“

*MAG's clearance is more critical than ever now that Daesh has gone from the Ninawa governorate. People are returning to contaminated villages where their lives are at risk every day.*

**Farah Zubir Ali, Iraqi Kurdistan region**

*Demining activities also include awareness raising among the local community, as well as refugees and internally displaced Iraqis*

*"Iraq has been one of the most contaminated countries in the world in terms of mines and improvised explosive devices for a long time," Farah Zubir Ali, National Technical Field Manager at MAG explains. "After Daesh came in 2014, the situation became even worse. Huge areas are now being contaminated with improvised explosive devices."*

*"We visit schools, healthcare centres, villages and any areas at risk," says Rand Ksardar, who is part of the MAG teams that work closely with the community to raise awareness about the risks of mines and other explosive devices that threaten their lives and their livelihoods.*

*"Integrated mine action to enhance the resilience of conflict-affected communities in Northern Iraq" is a project led by the Mines Advisory Group (MAG) and funded by the EUTF Syria. The project improves access to safe land and infrastructures, both in rural and urban areas and raises awareness of landmine threats among people and non-governmental organisations.*

Among the six priority sectors of intervention of the EUTF Syria, Protection **ranks 3<sup>rd</sup>** in total number of recipients targeted. The total number of target beneficiaries (target value) of this priority sector is **359,480** (equivalent to 13.7% of the total), which breaks down as follows:

- **Individual beneficiaries:** 352,649 individuals/households
- **Services:** 6,831 organizations/facilities/institutions

The following table shows the targets set for each KPI related to the Individual beneficiaries' category under the Protection sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of individuals reached with outreach, information campaigns and awareness sessions	91,900	26.1%
Mine clearance actions	86,215	24.4%
Number of refugees and DOM community members receiving specialized treatment in the area of mental health and psychosocial support	65,860	18.7%
Risk education (RE) sessions delivered to raise awareness of contamination threats within conflict affected communities and amongst humanitarian actors	46,604	13.2%
Number of individuals attended Psychosocial sensitization or group sessions	38,600	10.9%
Number of individuals trained on Child Protection and Gender-Based Violence	7,219	2.0%
Number of girls and women accessing safe spaces	7,200	2.0%
Number of vulnerable girls and boys reached with psychosocial support services	4,500	1.3%
Number of children and youth enrolled in life skills programmes	3,500	1.0%
Number of children who are survivors or at risk receiving specialized child protection support	550	0.2%
Number of accommodation centres created/reconstructed/renovated	500	0.1%
<b>Total</b>	<b>352,648</b>	<b>100.0%</b>

**Table 27:** KPI's target value - Individual beneficiaries (Protection sector)

As [Table 27](#) [Table 23](#) reflects, half the number of indicators represent over 93% of the overall target value, as defined by the number of beneficiaries (individuals and households) to be benefitted:

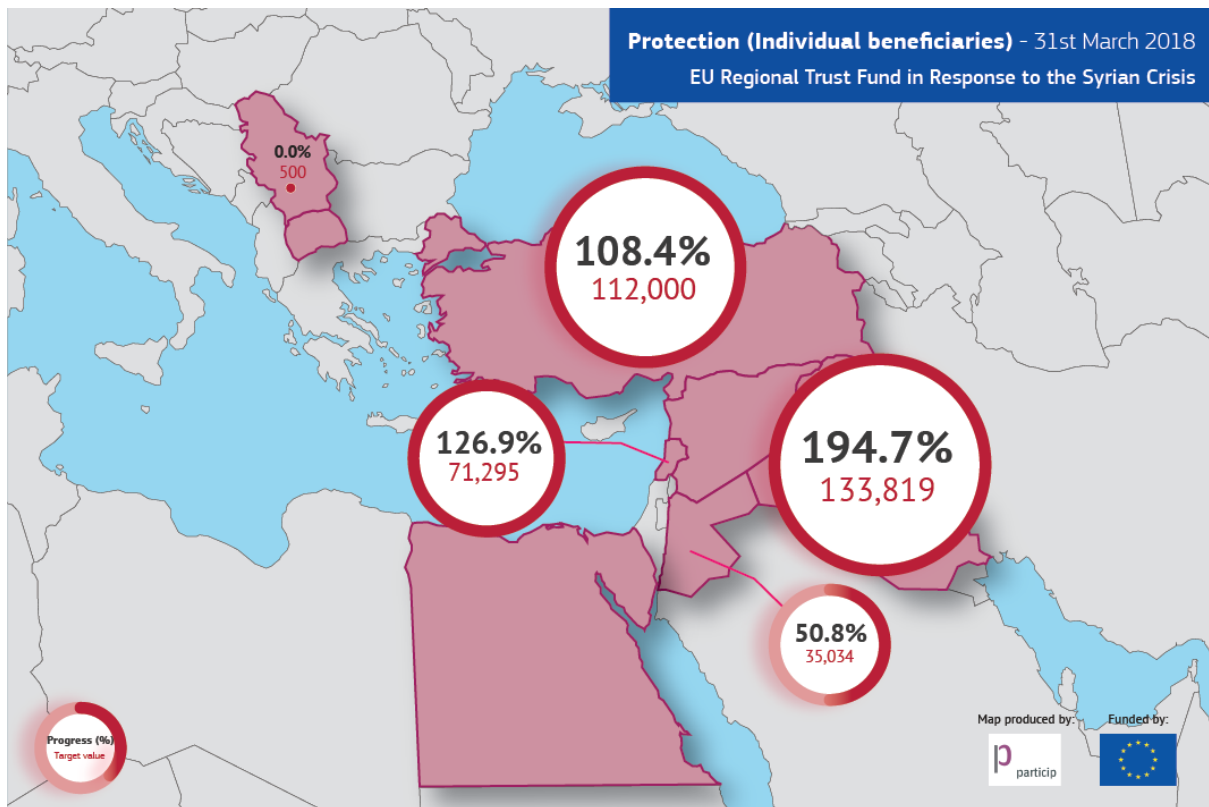

- ‘Number of individuals reached with outreach, information campaigns and awareness sessions’ (representing 26.1% of the overall target value).
- ‘Mine clearance actions’ (representing 24.4% of the overall target value).
- ‘Number of refugees and DOM community members receiving specialised treatment in the area of mental health and psychosocial support’ (representing 18.7% of the overall target value).
- ‘Risk education sessions delivered to raise awareness of contamination threats within conflict affected communities and amongst humanitarian actors’ (representing 13.2% of the overall target value).
- ‘Number of individuals attended Psychosocial sensitization or group sessions’ (representing 10.9% of the overall target value).

In terms of beneficiaries’ geographic distribution, over two-thirds of the expected recipients are located in Iraq/KRG (37.9%) and Turkey (31.8%), while one-third is allocated between Lebanon (20.2%) and Jordan (9.9%). Western Balkans shows a tiny fraction of the target value (500 individuals, 0.1%) and Syria and Egypt have now target value at the time of writing.

Country	Target Value	Weight (%)
Lebanon	71,295	20.2%
Jordan	35,034	9.9%
Turkey	112,000	31.8%
Iraq/KRG	133,819	37.9%
Egypt	0	0.0%
Western Balkans	500	0.1%
Syria	0	0.0%
<b>Total</b>	<b>352,648</b>	<b>100.0%</b>

**Table 28:** Target value by country - Individual beneficiaries (Protection sector)

**Figure 31:** Geographic distribution of Individual beneficiaries targeted (Protection sector)

Regarding the progress achieved by each of the KPIs associated to Individual beneficiaries, **Figure 32** showcases an exceedance of the overall target value set by 139.0%, with half the indicators surpassing their defined goals. Of special consideration is the ‘Risk education (RE) sessions delivered to raise awareness of contamination threats within conflict affected communities and amongst humanitarian actors’ indicator, which exceeds by 4.4 times the original target set. Two indicators are still pending initiation:

- ‘Number of children who are survivors or at risk receiving specialized child protection support’.
- ‘Number of accommodation centres created/reconstructed/renovated’.

### KPIs - Individual Beneficiaries (Protection)

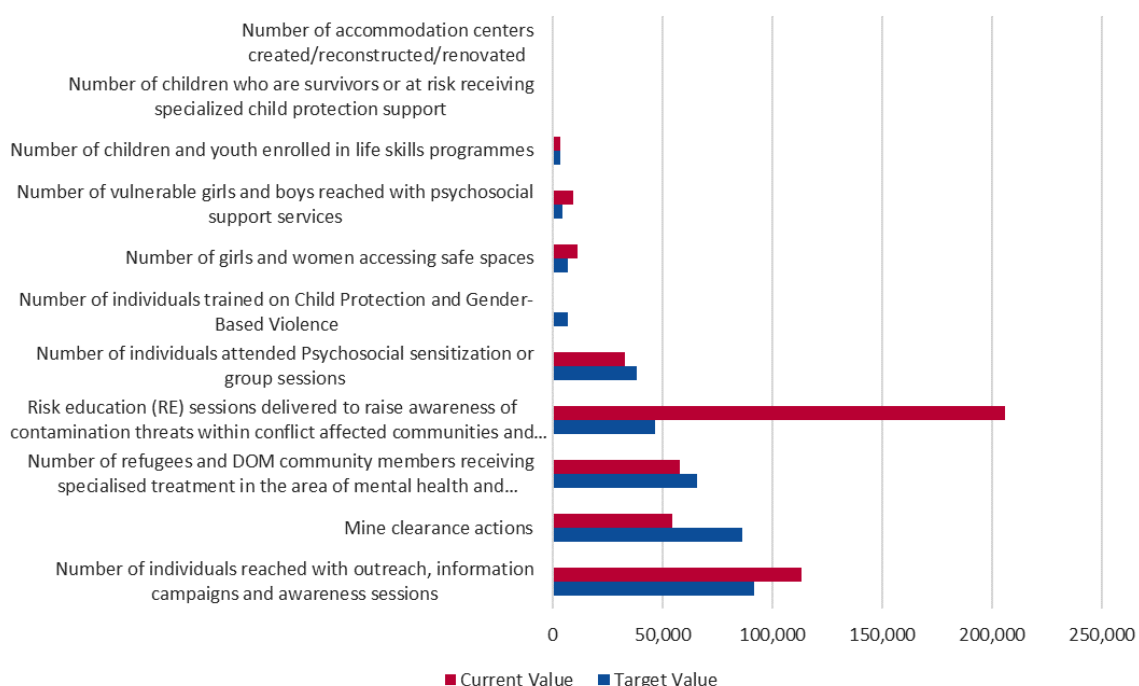

Figure 32: KPIs achievement progress – Individual beneficiaries (Protection sector)

Under the Protection priority sector, a total of **6,831** organizations, institutions and facilities are expected to be benefitted by the EUTF projects in the region. [Table 29](#) presents a breakdown of the targets set for each KPI related to this target category and sector.

Key Performance Indicator (KPI)	Target Value	Weight (%)
Number of accommodation centres created, reconstructed or renovated	6,577	99.6%
Number of cases referred for specialized services	160	0.1%
Number of advocacy initiatives supported at the regional level	37	0.0%
Number of articles and press releases published in European media	10	0.3%
Percent of accommodation places in asylum/transit centres functional	7	0.3%
N/A	40	0.6%
<b>Total</b>	<b>6,831</b>	<b>100.0%</b>

Table 29: KPI's target value - Services (Protection sector)

As the previous table highlights, one indicator, ‘Number of accommodation centres created/reconstructed/renovated’ practically covers the entire overall target value, with 99.6% of the beneficiaries targeted.

In regards to the geographic distribution, the activities falling under this target category also concentrate mainly in one region (Western Balkans), where 96.4% of the recipients are located. Another 247 individuals/households (3.6%) are distributed among Lebanon, Jordan and Iraq/KRG.

Country	Target Value	Weight (%)
Lebanon	132	1.9%
Jordan	68	1.0%
Turkey	0	0.0%
Iraq/KRG	47	0.7%
Egypt	0	0.0%
Western Balkans	6,584	96.4%
Syria	0	0.0%
<b>Total</b>	<b>6,831</b>	<b>100.0%</b>

**Table 30:** Target value by country - Services (Protection sector)

In terms of progress achieved by each of the KPIs associated to Services, **Figure 33** displays an advanced level of progress of the target category (89.0%). This behaviour is mainly explained due to high progress rate of the indicator ‘Number of accommodation centres created/reconstructed/renovated’, which shows an achievement ratio of 92.3%.

### KPIs - Services (Protection)

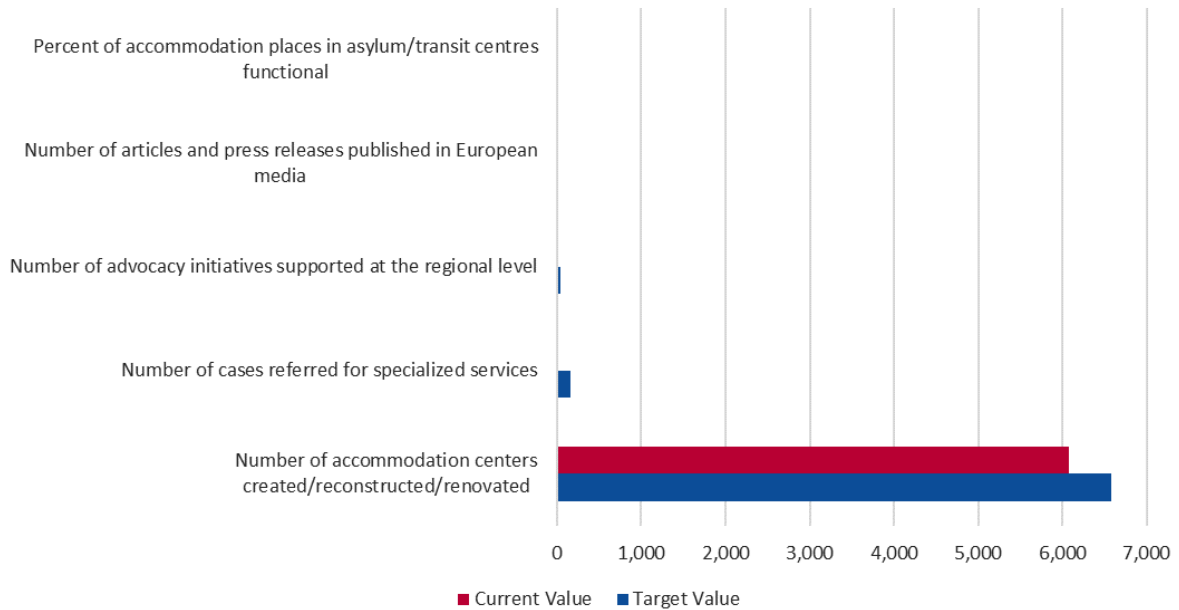

Figure 33: KPIs achievement progress – Services (Protection sector)

## OVERALL TRAFFIC LIGHT SCORE – PROTECTION SECTOR

### TL Score (progress level)

To date, the overall progress level is below 45%.

- **37 indicators** report a level of progress below 50% of the target value.
- **2 indicators** report a level of progress between 50%-75% of the target value.
- **16 indicators** report a level of progress above 75% of the target value.
- **7 indicators** haven't reported a specific progress level or information is not available.

Figure 34: Level of progress of Protection-related KPIs

## 5. ANNEXES

### 5.1. Annex I: Results Framework Indicators

#### 1. ACCESS TO BASIC EDUCATION

RESULTS	INDICATORS
1.1 Access of <b>refugee children and youth to equitable formal and non- formal education</b> programmes increased	1.1.1 Number of refugee and host community children attending early childhood education <sup>3</sup>
	1.1.2 Number of persons attending NFE as well as back- up classes and catch- up classes* 1.1.2.1 Number of persons who graduated from NFE programs
	1.1.3 Number of children and adolescents referred to formal education including through the back to school campaign
	1.1.4 Number of girls and boys whose registration fees for public formal education are subsidized
	1.1.5 Number of Syrian refugee students receiving transportation services
	1.1.6 Number of children receiving school supplies
	1.1.7 Number of children benefitting from learning support program, including remedial and homework support
	1.1.8 Number of children attending foreign language courses
1.2 Access to inclusive <b>quality education services for refugees and host communities</b> promoted	1.2.1. Percentage of key- implementation steps related to construction works completed* <i>1.2.1.1 Number of new educational facilities constructed or rehabilitated*</i>
	1.2.2 Number of educational infrastructure accessible to refugee students and host communities with disabilities *
	1.2.3 Number of existing schools upgraded in standards and equipped*
	<i>1.2.4 Number of educational personnel, including teachers, volunteers and administrative staff trained*</i>

#### 2. ACCESS TO HIGHER AND FURTHER EDUCATION

RESULTS	INDICATORS
2.1 Participation and equal access to higher education opportunities for vulnerable <b>youth, adolescents and adults</b> increased	2.1.1 Number of Syrian refugee students receiving higher education scholarships*
	2.1.2 Number of youth, adolescents and adults accessing higher education 2.1.2.1 Number of HE certificates awarded
	2.1.4 Number of youth and adolescents accessing vocational training
2.2 Interventions in the higher and further education sector	2.2.1 Number of partner institutions (universities / language centres) committed to the Higher Education programme for refugees 2.2.1.1 Number of eligible HE programmes identified

\* Indicator aligned with the Facility for Refugees in Turkey ("FRIT" RFW)

related to the Syrian crisis are better coordinated through <b>stakeholder dialogue</b> , networks and information tools	2.2.2 Number of HE projects financed through CFP
	2.2.3 Number of national stakeholder dialogues on HE having taken place
	2.2.4 Number of communication tools, including dissemination plan and promotional campaigns implemented

### 3. RESILIENCE AND LOCAL DEVELOPMENT

RESULTS	INDICATORS
3.1 <b>Employability prospects of Syrian refugees and host communities</b> improved	3.1.1 Number of Syrian refugees and host communities participating in employability, vocational and entrepreneurial skills training programme*
	3.1.2 Number of job opportunities created
	3.1.3 Number of Syrian workers employed through EUTF Syria initiatives
3.2 Productive capacities of vulnerable <b>host farmers</b> and/or <b>home- based micro and group- based small- scale agrifood enterprises</b> are increased	3.2.1 Number of Syrian refugees/host communities' farmers trained in financial literacy and enterprise management
	3.2.2 Number of farmer identified for grant support
	3.2.3 Number of Syrian Refugees and members of host communities accessing Graduation packages and engaged in at least one new agrifood income generating activity
	3.2.4 Number of farm who finalized the improved infrastructure
3.3 <b>Economic growth potential and resilience</b> of the local economy hosting target groups enhanced	3.3.1 Vulnerable community members have improved ability to access sustainable income
	3.3.2 Number of vulnerable community members reporting increased access to income generating opportunities
	3.3.3 Number of MSMEs identified and trained
3.4 <b>Local and national systems and service delivery capacities</b> in target areas strengthened	3.4.1 Number of municipalities benefiting from improved infrastructure and services
	3.4.2 Number of community support projects implemented
	3.4.2.1 Number of refugees and community members involved in assessment, planning and implementation of community development projects
	3.4.3 Number of active community centres in target areas
	3.4.4 Number of facilities and organisations capacitated to provide social cohesion activities*
	3.4.5 Number of dialogue tables and working groups held and attended by community, private sector and government stakeholders*
3.5 <b>Social tensions between refugees and local populations</b> in host communities decreased	3.4.6 Number of policy recommendation for support to farmer/entrepreneur investment
	3.5.1 Number of young Syrian refugees and host community benefiting from peer information and outreach activities, including provided by youth leaders*
	3.5.2 Number of young Syrian refugees and host communities participating in extracurricular cultural and sports activities*

## 4. ACCESS TO HEALTH SERVICES

RESULTS	INDICATORS
4.1 <b>Basic medical services</b> are available for <b>Syrian refugees, migrants, and asylum seekers</b> at the transit sites and medical centers	4.1.1 Number of primary health care consultations conducted with refugees and host communities
	4.1.2 Number of vulnerable beneficiaries provided with medical examinations and essential medicines
	4.1.3 Number of new hospital facilities constructed
	4.1.4 Number of existing hospital facilities rehabilitated or upgraded in standards
	4.1.5 Number of mobile clinics and ambulances procured
4.2 Strengthened capacity of concerned local actors to deliver <b>general primary and secondary health</b> care services	4.2.1 Number of professional staff trained in primary, secondary and tertiary health care services
	4.2.2 Number of people reached through health education activities
	4.2.3 Number of health projects
4.3 Increased capacity of <b>maternity and paediatric hospitals</b> to cope with additional daily load and patient services	4.3.1 Number of Primary Health Care Centers refurbished or equipped
	4.3.2 Number of dedicated operating theatres built
	4.3.3 Number of months of technical assistance missions in the health sector, civil work and admin sector, carried out by expatriate staff
4.4 Reinforced <b>mother and child health</b> services in selected health centers	4.4.1 Number of paediatric hospitals renovated, expanded, improved in standards
	4.4.1.1 Number of beds increased in targeted paediatric hospitals
	4.4.3 Number of cases treated in emergency services
	4.4.4 Number of pregnant women receiving 4 or more antenatal consultations
	4.4.5 Number of women attending at least one postnatal care visit at the supported health facilities
	4.4.6 Number of vaccination visits for children under 5 years

## 5. ACCESS TO WASH SERVICES

RESULTS	INDICATORS
5.1 WASH- related <b>municipal infrastructure</b> improved	5.1.1 Number of facilities rehabilitated and operational
	5.1.2 Number of facilities constructed, including for water, wastewater and solid waste
5.2 Improved access to potable <b>water supply</b> for vulnerable populations affected by the Syrian crisis	5.2.1 Number of individuals having access to safe water
	5.2.2 Water quality respects standards for potable water
	5.2.3 Number of beneficiaries who have experienced a hygiene promotion session
5.3 Volume of <b>local storage capacity</b> increased	5.3.1 Number of households connected
	5.3.1.1 Mt of transmission and distribution lines installed
	5.3.2 Number of pumping stations constructed

## 6. PROTECTION

RESULTS	INDICATORS
<p><b>6.1 Self- development and wellbeing</b> of marginalized children and adults are enhanced</p>	6.1.1 Number of refugees and DOM community members receiving specialised treatment in the area of mental health and psychosocial support*
	6.1.2 Number of cases referred for specialized services
	6.1.3 Number of children who are survivors or at risk receiving specialized child protection support
	6.1.4 Number of individuals trained on Child Protection and Gender- Based Violence
	6.1.5 Number of children and youth enrolled in life skills programmes
<p><b>6.2 Improved access to safe land and infrastructure</b> in rural and urban areas</p>	6.2.1 Mine clearance actions
	6.2.2 Number of policy support/national regulations on mine survey
	6.2.3 Number of mine accidents in cleared sites
	6.2.4 Number of villages where services have been restored and people have returned following clearance (e.g. health, education, electricity, etc...)
	6.2.5 Men women and children who receive Risk Education
<p><b>6.3 Strengthened programming and advocacy initiatives</b> in support to Syrian refugees, at country and regional level</p>	6.3.1 Number of articles and press releases published in European media
	6.3.2 Number of individuals reached with outreach, information campaigns and awareness sessions
	6.3.3 Number of advocacy initiatives supported at the regional level
	6.3.4 Number of capacity building and partnership initiatives supported at regional level to scale up Children Affected by Armed Conflicts (CAAC) programming

## 5.2. Annex II: Progress Statistics for All KPIs

	Target Value	Current Value	Progress	Traffic
<b>EGYPT</b>	<b>130,555</b>	<b>484</b>	<b>0%</b>	<b>1</b>
<b>BASIC EDUCATION</b>	<b>-</b>	<b>25</b>
