New Growth Plan for the Western Balkans

Boosting the Western Balkans’ socio-economic convergence with the EU & accelerating EU reforms

JUNE 2024

The Growth Plan will be implemented through a new financing instrument: the €6 billion Reform and Growth Facility for the Western Balkans.

THE GROWTH PLAN FOR THE WESTERN BALKANS IS BASED ON 4 PILLARS

1. Enhancing economic integration with the European Union’s Single Market
2. Boosting economic integration within the Western Balkans through the Common Regional Market
3. Accelerating fundamental reforms
4. Increased financial assistance

The Growth Plan will be implemented through a new financing instrument: the €6 billion Reform and Growth Facility for the Western Balkans.

€6 billion
€2 billion in grants
€4 billion in loans
2024-2027
BRINGING THE WESTERN BALKANS CLOSER TO THE EU SINGLE MARKET

The EU will open certain areas of the EU Single Market to the Western Balkan partners prior to accession bringing tangible benefits to its citizens. The Western Balkans partners will need to undertake fundamental reforms, align with the acquis and fulfill their obligations under the Common Regional Market.

The focus will be on the following seven initial priority areas:

- Free movement of goods
- Free movement of services and workers
- Access to the Single Euro Payments Area
- Facilitation of Road transport
- Integration and de-carbonisation of Energy Markets
- Digital Single Market
- Integration into industrial supply chains

DEEPENING THE REGIONAL ECONOMIC INTEGRATION WITHIN THE WESTERN BALKANS

Developing a Common Regional Market is essential for two reasons:

- to unlock the economic potential of the region, create opportunities for business and workers and make the Western Balkans a more attractive place for European investors. A Common Regional Market would add 10% regional GDP, to the Western Balkan economies over time.
- based on the adoption and implementation of EU standards, it is a stepping stone to the EU Single Market.

ACCELERATING FUNDAMENTAL REFORMS

To increase socio-economic convergence the Western Balkan partners will need to make reforms in the area of the fundamentals.

Each Western Balkan partner will prepare a Reform Agenda with a set of priority reforms broken down into milestones, so-called “payment conditions”. Their completion will trigger the release of funds from the new Growth Plan.

Accelerating the reforms will:

- Improve economic growth including through attracting foreign investments and strengthening regional stability;
- Help the Western Balkans partners move ahead towards EU membership

The €6 billion Reform and Growth Facility for the Western Balkans combines grants and loans. This new instrument will complement the current financial assistance under the Instrument for Pre-accession Assistance (IPA III).

The Facility has a total financial envelope of €6 billion for 2024-2027, composed of:

- €2 billion grants as per agreement on the revision of the Multi-annual Financial Framework
- €4 billion of highly concessional loans

**INCREASED FINANCIAL ASSISTANCE**

**HOW WILL THE NEW FACILITY WORK?**

At least 50% of total amount (grants and loans) will go to investments through the Western Balkans Investment Framework (WBIF). The remaining amount of loans will benefit Governments in the Western Balkans. The release of any funds will depend on the progress in the implementation of the measures contained in the Reform Agendas.

Payments will be done twice a year, based on requests submitted by the Western Balkan partners and following verification by the Commission of the achievement of the relevant payment conditions, pre-conditions and general conditions, such as macro-financial stability, sound public financial management, transparency and oversight of the budget.

In case the payment conditions are not met, the Commission will suspend or deduct a corresponding amount from the payment. The Western Balkan partner will have 1-2 years to fulfill the conditions, otherwise the amount will be redistributed among the other ones in the subsequent years.
