2 DESCRIPTION OF THE ACTION PROGRAMME

2.1 OVERVIEW OF THE 2014-2020 CROSS-BORDER COOPERATION PROGRAMME

In Bosnia and Herzegovina, the eligible areas are: the Sarajevo Region and the North-East Region. All municipalities included in these two regions are thus considered eligible.

In Serbia, the eligible areas are: Sremski, Macvanski, Zlatiborski, and Kolubarski. All municipalities included in these counties are considered eligible.

The situation analysis conducted for the preparation of the Programme pointed out several key challenges and opportunities to be addressed and supported through cross-border cooperation:

High unemployment levels and poor social inclusion of vulnerable groups

The whole programme area registers above average unemployment rates. A high number of redundant workers from large industrial complexes and poor economic prospects cause negative migration trends from the area, in particular among educated youth. The poor overall socio-economic situation negatively influences the position of vulnerable groups, whose integration and inclusion is still limited.

Preserved environment and limited environmental infrastructure

The environmental potentials and availability of alternative energy sources represent a strong competitive advantage of the programme area. However the limited infrastructure and low level of investments on one hand directly endangers the environment and on the other hand prevents the efficient use of available resources.

Strong basis for development of tourism

Taking into account the overall economic situation tourism represents one of the few realistic and immediate opportunities for improvements. The available natural resources, potentials for development of niche tourism (for instance adventure sports, rural tourism) and connectivity with other economic branches (food processing, bio-agriculture) represent a solid basis for tourism efforts.

Based on the above analysis results, thematic priorities and definition of programme strategy have been guided by the following principles:

- Relevance of the challenges and expected impact;
- Interest and expectations of the final beneficiaries in the programme area;
- Strategic priorities at the national/entity, regional and local level;
- Appropriateness in the context of cross-border cooperation and expected cross-border impact;
- Lessons learned from previous programmes; and,
- Building on the objectives and actions set up by the two macro-regional Strategies where both Serbia and Bosnia and Herzegovina are members.

Overview of past and on-going CBC experience including lessons learned

Serbia and Bosnia and Herzegovina benefited from Cross-Border Cooperation Programme under IPA I for a total amount of EUR 14 million for the period 2007-2013. Key recommendations from interim evaluations and audits on the 2007-2013 CBC programmes have been taken on board in the development of this programme. Thus, the 2014-2020 CBC programmes are more focused as regards the number of thematic priorities addressed and the geographical eligibility, which will help to achieve better results and increased impact. Additionally the implementation of the CBC programmes has been simplified mainly by having a single contracting authority and a single financial envelope per programme.
