2 DESCRIPTION OF THE ACTION PROGRAMME

2.1 OVERVIEW OF THE 2014-2020 CROSS-BORDER COOPERATION PROGRAMME

The 2014-2020 Cross-border Cooperation (CBC) programme Serbia - Bosnia and Herzegovina was approved by Commission Implementing Decision C(2014) 9448 of 10 December 2014. The adopted 2014-2020 programme constitutes the CBC cooperation strategy for the border region, setting out, among other things, the list of geographical eligible areas, the area context, the programme thematic priorities and the indicative budget allocations for the 7 years period.

The 2014-2020 CBC programme Serbia-Bosnia and Herzegovina also serves as a reference for the adoption of the CBC action programmes. The 2018-2020 CBC action programme aims at providing assistance for cross-border cooperation in the thematic areas spelled out in the 2014-2020 programme (as indicated in section 2.2).

On 6 February 2018, the European Commission adopted a Communication on "A credible enlargement perspective for and enhanced EU engagement with the Western Balkans"¹¹. This Communication aims to generate renewed reform momentum in the Western Balkans and to provide significantly enhanced EU engagement, to better support their preparations on the European path. The Communication sets the new strategic orientations, in particular as regards the implementation of the six flagship initiatives (i.e. strengthening support to the rule of law; reinforcing engagement on security and on migration; supporting socio-economic development; increasing connectivity; implementing a Digital Agenda for the Western Balkans and supporting reconciliation and good neighbourly relations).

In particular, cross-border cooperation is a key vehicle for fostering reconciliation and dealing with the legacy of the past in the Western Balkans, in line with flagship 6 (supporting reconciliation and good neighbourly relations) and for sustainable local development, in line with flagship 3 (supporting socio-economic development).

List of geographical eligible areas

In Bosnia and Herzegovina, the eligible areas are: the Sarajevo Region and the North-East Region. All municipalities included in these two regions are thus considered eligible.

In Serbia, the eligible areas are: Sremski, Macvanski, Zlatiborski, and Kolubarski. All municipalities included in these counties are considered eligible.

Cross-border cooperation (CBC) eligible area context

The situational analysis conducted for the preparation of the Programme pointed out several key challenges and opportunities to be addressed and supported through cross-border cooperation. In particular the Programme envisages addressing the following

High unemployment levels and poor social inclusion of vulnerable groups

The whole programme area registers above average unemployment rates. A high number of redundant workers from large industrial complexes and poor economic prospects cause negative migration trends from the area, in particular among educated youth. The poor overall socio-economic situation negatively influences the position of vulnerable groups, whose integration and inclusion is still limited.

¹¹ COM(2018) 65 final, 6.2.2018

Preserved environment and limited environmental infrastructure

The environmental potentials and availability of alternative energy sources represent a strong competitive advantage of the programme area. However, the limited infrastructure and low level of investments on one hand directly endangers the environment, and on the other hand prevents the efficient use of available resources.

Strong basis for development of tourism

Taking into account the overall economic situation, tourism represents one of the few realistic and immediate opportunities for improvement. The available natural resources, potentials for development of niche tourism (for instance adventure sports, rural tourism) and connectivity with other economic branches (food processing, bio-agriculture) represent a solid basis for tourism efforts.

Based on the above analysis, results, thematic priorities and programme strategy's definition have been guided by the following principles:

- Relevance of the challenges and expected impact;
- Interest and expectations of the final beneficiaries in the programme area;
- Strategic priorities at the national/entity, regional and local level;
- Appropriateness in the context of cross-border cooperation and expected cross-border impact;
- Lessons learned from previous programmes; and,
- Building on the objectives and actions set up by the two macro-regional strategies where both Serbia and Bosnia and Herzegovina are members.

Overview of past and on-going CBC experience including lessons learned

Serbia and Bosnia and Herzegovina benefited from Cross-border cooperation Programme under IPA I for a total amount of EUR 14 million for the period 2007-2013. Key recommendations from interim evaluations and audits on the 2007-2013 CBC programmes have been taken on board in the development of this programme. Thus, the 2014-2020 CBC programmes are more focused as regards the number of thematic priorities addressed and the geographical eligibility, which will help to achieve better results and increased impact. Additionally, the implementation of the CBC programmes has been simplified, mainly by having a single contracting authority and a single financial envelope per programme.

Key lessons learned were also identified by the final evaluation of IPA CBC Programmes 2007-2013 that was carried out between 2016 and 2017. The lessons learned and the recommendations were discussed with the CBC stakeholders in the Western Balkans and follow-up measures were identified for the short and medium term, both for the on-going 2014-2020 CBC programmes and for the future 2021-2027 CBC programmes. The main recommendations regarding all CBC programmes at intra- Western Balkans level include:

- The main objective of promoting good neighbourly relations should be clearly reflected in the CBC projects.
- The calls for proposal should be more focused on a few priority issues that have high cross-border content.

- The intervention logic of programmes and the reporting and monitoring systems must be improved, as they are not structured to set out a clear basis for measuring the results at regional level.
- There is a need for continuing capacity building activities for Operating Structures and Joint Technical Secretariats/Antennas.
- There is a need for improving synergies with other policies and donors, capitalising and sharing experiences with the other CBC programmes (e.g CBC programmes with Member States, and European Neighbourhood Instrument CBC programmes).

(2) Assumptions and conditions

As a necessary condition for the effective management of the programme, the participating countries shall establish a Joint Monitoring Committee and provide proper and functioning offices and staff for the Joint Technical Secretariat (to be set up under a separate Financing Decision) and the antenna, in case the latter will be set up. So far, the beneficiaries have complied with this condition by ensuring the smooth run of the Joint Technical Secretariat in Užice (Serbia) and the Antenna Office in Tuzla (Bosnia and Herzegovina). These structures are fully financed by the Support Measure for Technical Assistance for cross-border cooperation programmes between IPA II beneficiaries under the Instrument for pre-accession assistance (IPA II) for the year 2014 C(2014) 37629. Further financial support has been programmed by the European Commission to continue to provide support to the Joint Technical Secretariat and the Antenna Office from 2019 onwards. Therefore, new arrangements will be established with the beneficiaries who have to ensure that the conditions under this paragraph are further respected.

Under indirect management, the participating countries shall conclude, for the whole duration of the programme, a bilateral arrangement setting out their respective responsibilities for implementing the programme. This bilateral arrangement has been concluded between the two participating countries and shall remain valid for the whole implementation period of the programme.
