2 DESCRIPTION OF THE ACTION PROGRAMME

The 2014-2020 cross-border cooperation (CBC) action programme between Bosnia and Herzegovina and Montenegro was approved by Commission Implementing Decision C(2014)9351 of 10 December 2014. The adopted 2014-2020 programme constitutes the CBC cooperation strategy for the border region, setting out among others the list of geographical eligible areas, the area context, the programme thematic priorities and the indicative budget allocations for the seven year period.

The 2014-2020 CBC programme between Bosnia and Herzegovina and Montenegro also serves as a reference for the adoption of the CBC action programmes. The 2018-2020 CBC action programme aims at providing assistance for cross-border cooperation in the thematic areas spelled out in the 2014-2020 programme between Bosnia Herzegovina and Montenegro (as indicated in section 2.2).

On 6 February 2018, the European Commission adopted a Communication on "A credible enlargement perspective for and enhanced EU engagement with the Western Balkans". This Communication aims to generate renewed reform momentum in the Western Balkans and provide significantly enhanced EU engagement to better support their preparations on the European path. The Communication sets the new strategic orientations, in particular as regards the implementation of the six flagship initiatives (i.e. strengthening support to the rule of law; reinforcing engagement on security and on migration; supporting socio-economic development; increasing connectivity; a Digital Agenda for the Western Balkans and supporting reconciliation and good neighbourly relations).

In particular, cross-border cooperation is a key vehicle for fostering reconciliation and dealing with the legacy of the past in the Western Balkans, in line with flagship 6 (supporting reconciliation and good neighbourly relations) and for sustainable local development, in line with flagship 3 (supporting socio-economic development).

List of geographical eligible areas

The following 56 municipalities in Bosnia and Herzegovina and 14 municipalities in Montenegro are eligible under this programme:

**Montenegro:** Pljevlja, Pločine, Žabljak, Šavnik, Nikšić, Herceg Novi, Kotor, Tivat, Bijelo Polje, Mojkovac, Kolašin, Berane, Petnjica, Danilovgrad.

1 COM (2018) 65 final, 6.2.2018
Cross-border cooperation (CBC) eligible area context

The situation analysis of this area which was conducted for the preparation of this programme pointed out the following key challenges and opportunities to be addressed and supported through cross-border cooperation. In particular the action programme envisages addressing the following issues:

Lack of employment opportunities

Lack of employment opportunities is one of the major threats in the programme area. It does affect the standard of living of the majority of the population and is a crucial cause of migration flows. Short-term improvement of this situation is unlikely and negative impacts might even worsen especially for vulnerable groups and rural population.

Rich natural resources threatened by pollution and natural disasters

While rich in natural resources, the programme area is also considered vulnerable and exposed to several risks ranging from pollution to natural disasters. Due to the region's high vulnerability to climate change, risk of flooding and forest fires have increased in the last decade. The climate change will also put an additional stress on hydropower production, and adaptation measures will have to take this into consideration. The programme territory's potential for renewable energy sources, especially in sustainable biomass, has not been tapped in.

Tourism can contribute to economic development

Adequate use and promotion of natural resources and cultural heritage can contribute to opening the area to sustainable tourism as a way for economic growth.

Overview of past and on-going CBC experience including lessons learned

Key recommendations from interim evaluations and audits on the 2007-2013 CBC programmes have been taken on board in the development of this programme. Thus, the 2014-2020 CBC programmes are more focused as regards the number of thematic priorities addressed, which will help to achieve better results and increased impact. Additionally the implementation of the CBC programmes has been simplified mainly by having a single contracting authority and a single financial envelope per programme.

Key lessons learnt were also identified by the final evaluation of IPA CBC Programmes 2007-2013 that was carried out between 2016 and 2017. The lessons learnt and the recommendations were discussed with the CBC stakeholders in the Western Balkans and follow-up measures were identified for the short and medium term, both for the on-going 2014-2020 CBC programmes and for the future 2021-2027 CBC programmes. The main recommendations regarding all CBC programmes at intra-Western Balkans level include:

- The main objective of promoting good neighbourly relations should be clearly reflected in the CBC projects.
- The calls for proposal should be more focused on a few priority issues that have high cross-border content.
- The intervention logic of programmes and the reporting and monitoring systems must be improved as they are not structured to set out a clear basis for measuring the results at regional level.
- There is a need for keeping on capacity building activities for Operating Structures and Joint Technical Secretariats/Antennas.
There is a need for improving synergies with other policies and donors, capitalising and sharing experiences with the other CBC environments (CBC programmes with Member States, and European Neighbourhood Instrument CBC programmes).

As far as this programme is concerned, close cooperation between the two beneficiaries during every step of the implementation of the programme has been essential and will need to be ensured also in the future.

Experience has shown that potential applicants need support to identify possible project partners on the other side of the border and in the development of high-quality proposals. This support will be continued to be provided.

Moreover the Programme should build on the precise features and actions defined by both beneficiaries, Bosnia and Herzegovina and Montenegro, in the framework of the EU Adriatic and Ionian macro-regional Strategy on the EU Strategy for the Adriatic and Ionian Region\(^2\), as well as, the EU Strategy for Danube macro-regional Strategy on the EU Strategy for the Danube Region\(^3\). The 2014-2020 CBC programme Bosnia and Herzegovina - Montenegro includes references to both macro-regional strategies and the requirement for synergies with the strategies was included in the first Call for Proposals of the Programme. Anyhow, as applicants rarely referred to the synergies between their project proposals and the macro-regional strategies, the IPA beneficiaries have decided to focus on that during next capacity building events for potential applicants in 2018.

The thematic priorities are further focused in Calls for Proposals, launched only for few specific objectives of the Programme at the time and in coordination with other IPA CBC bilateral programmes in the partner beneficiary.

(2) protecting the environment and promoting climate change adaptation and mitigation, risk prevention and management through, inter alia: joint actions for environmental protection; promoting sustainable use of natural resources, resource efficiency, renewable energy sources and the shift towards a safe and sustainable low-carbon economy; promoting investment to address specific risks, ensuring disaster resilience and developing disaster management systems and emergency preparedness;
(3) encouraging tourism and cultural and natural heritage;

Where applicable, the actions related to the aforementioned objectives as developed in the Action Plan of the Adriatic and Ionian macro-regional strategy and the EU Strategy for the Danube Region where both countries participate shall be taken into account.

Expected results:

Related to objective 1):
- Advisory support to and skills of the employment seeking population in the cross border area are advanced.
- Opportunities for creation of new jobs for vulnerable groups and their employability are increased.

Related to objective 2):
- The capacity to enforce environmental and energy efficiency standards at local level for water supply, solid waste and wastewater management is strengthened.
- Public awareness of the merits of complying with EU water supply, solid waste and wastewater management, and environment protection practices is increased.

(2) Assumptions and conditions

As a necessary condition for the effective management of the programme, the participating countries shall establish a Joint Monitoring Committee and provide proper and functioning offices and staff for the Joint Technical Secretariat (to be set up under a separate Financing Decision) and the antenna, in case the latter will be set up.
So far, the beneficiaries have complied with this condition by ensuring the smooth run of the Joint Technical Secretariat in Sarajevo (Bosnia and Herzegovina) and the Antenna Office in Nikšić (Montenegro). These structures are fully financed by the Support Measure for Technical Assistance for cross-border cooperation programmes between IPA II beneficiaries under the Instrument for pre-accession assistance (IPA II) for the year 2014 C(2014) 37629. This Support Measure, in the case of the CBC programme 2014-2020 Bosnia and Herzegovina -Montenegro has been implemented under direct management by the Delegation of the European Union to Bosnia Herzegovina who signed a direct service contract with the Department of European Integration of Bosnia and Herzegovina. This service contract will expire on 31 December 2019.

Further financial support has been programmed by the European Commission for keeping on providing support to the Joint Technical Secretariat and the Antenna Office from 2019 onwards. Therefore new arrangements will be established with the beneficiaries who have to ensure that the conditions under this paragraph are furtherly respected.

Failure to comply with the requirements set out above may lead to a recovery of funds under this programme and/or the re-allocation of future funding.

The responsible structures may decide to merge the 2019 allocation with subsequent budget allocations.

As part of its performance measurement framework, the Commission shall monitor and assess progress towards achievement of the specific objectives set out in the IPA II Regulation on the basis of pre-defined, clear, transparent measurable indicators. The progress reports referred to in Article 4 of the IPA II Regulation shall be taken as a point of reference in the assessment of the results of IPA II assistance.

The Commission will collect performance data (process, output and outcome indicators) from all sources, which will be aggregated and analysed in terms of tracking the progress versus the targets and milestones established for each of the actions of this programme, as well as the Indicative Strategy Paper.

The National IPA Co-ordinators (NIPACs) will collect information on the performance of the actions and programmes (process, output and outcome indicators) and coordinate the collection and production of indicators coming from national sources.

The overall progress will be monitored through the following means: a) Result Orientated Monitoring (ROM) system; b) IPA II Beneficiaries' own monitoring; c) self-monitoring performed by the EU Delegations; d) joint monitoring by the Commission and the IPA II Beneficiaries, whereby the compliance, coherence, effectiveness, efficiency and coordination in implementation of financial assistance will be regularly monitored by an IPA II Monitoring committee, supported by the Joint Monitoring Committee, which will ensure a monitoring process at programme level.
